INTEROFFICE MEMO

FORWARD TO: Salem Transfer Section DATE: 5-19-06
FIELD PROCESSOR WORKING ON THIS TRANSFER

FROM: _____ WATERMASTER, DISTRICT # _____
[REDACTED]

(SIGNATURE) Mike Zwart date signed 1/29/07
signed by injury reviewer

SUBJECT: WATER RIGHT TRANSFER # 10149

A change in: POU POD POA USE of water.

In the name(s) of Jerry + Gayla Rank

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY WOULD RESULT IN INJURY* to an existing water right.

*The approval of this transfer application would result in injury to other water rights because _____

The existing right may not be valid because _____

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) _____

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

INTEROFFICE MEMO**

To: Ground Water files Date: January 29, 2007

From: Michael J. Zwart

Subject: Application Review: T-10149, Jerry and Gayla Rank

This application proposes two additional POAs to make up for a deficiency in supply from the five authorized wells. The authorized wells (#1: HARN 1071, #2: HARN 1072, #3: HARN 1069, #4: 1067 and #5: HARN 1068) and the proposed additional wells (#7: HARN 51238 and #8: HARN 1061) produce water from an aquifer developed in interbedded sand, gravel, clay and pumice.

I find that the proposed change may be made without injury provided the following: the rights are valid and the Watermaster can approve the proposal.
