FROM: \_\_\_\_\_  
WATERMASTER, DISTRICT # \_\_\_\_\_

(SIGNATURE) Michael Zwart  
*signed by injury reviewer* date signed 1/24/07

SUBJECT: WATER RIGHT TRANSFER # 9978

A change in: POU      POD      POA      USE      of water.

In the name(s) of Samuel Humbert

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY       WOULD RESULT IN INJURY\* to an existing water right.

\*The approval of this transfer application would result in injury to other water rights because \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

The existing right may not be valid because \_\_\_\_\_  
\_\_\_\_\_

Headgate notices HAVE      HAVE NOT      Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) \_\_\_\_\_

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

\_\_\_\_\_ (1) PRIOR to the diverting of water at the new point of diversion . . .

\_\_\_\_\_ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

INTEROFFICE MEMO**

Subject: Application Review: T-9978, Samuel Humbert

This application proposes an additional POA as a result of partitioning of the parcel. The authorized well is reportedly 80 feet deep and develops alluvial sands and gravels. There is no well log on file for this well. The proposed additional well is also a shallow well with no log on file. Both wells produce water from the same aquifer.

I find that the proposed change may be made without injury provided the following: the rights are valid and the Watermaster can approve the proposal.
