Watermaster Review Form:
Water Right Transfer

Transfer Application: T-10286

Review Due Date: 2-2-07

Applicant Name: Larry & Tara Grassman

Proposed Changes: [X] POU [] POD [X] POA [] USE [] OTHER

Reviewer(s): J. Giffin

Date of Review: Jan. 25, 2007

- 1. Do you have information suggesting that the water rights may be subject to forfeiture?
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights?
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right?
4. Are there upstream water rights that would be affected by the proposed change?
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach?
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?
7. For POU changes, would the original place of use continue to receive water from the same source?
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?
9. Are there other issues not identified through the above questions?
10. What alternatives may be available for addressing any issues identified above?

Watermaster Review Form

Transfer Application: T-10286

11. Have headgate notices been issued for the source that serves the right? Yes No
12. What water control and measurement conditions should be included in the transfer:

Measurement Devices	<input type="checkbox"/> Present and should be maintained.	<input checked="" type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
Headgates	<input type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
