

DEQ Division 33 Application Work Sheet — Human Consumption Exception

Date: 12/2/2011

Application #: S- S 87757

Applicant's Name: Clatie B Smith C/O Isenhart, Evert-Ona Ranch, Inc

Background

The Water Resources Department is attempting to streamline the review of water right applications involving a human consumption exception under Division 33. Oregon statute and administrative rules (OAR 690-410-0070(2) and OAR 690-310-0260(2)) allow for a human consumption exception at 0.005 cubic foot per second when water is not available due to senior water rights and/or scenic waterway flows. Under certain circumstances the use may be allowed because human consumption can be considered a high public use if no reasonable alternatives are available, and the use is conditioned to protect instream values. The information required for an applicant to request an exception is:

- 1) demonstrate that there are no reasonable alternative sources; and
- 2) demonstrate that denial of the application would result in loss of reasonable expectations for use of the property

Department recommendation

If the applicant is able to meet the human consumption exception criteria described above, based on water availability, applicable basin rules, etc., the Department will likely recommend year-round human consumption use (see Initial Review for specific use/rate/season details).

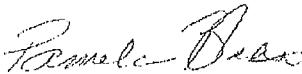

Your Role

Do you concur with the likely Department recommendation described in the Initial Review? If not, what is your recommendation and why?

☒ YES ☐ NO

Explain (use additional sheets if necessary):

Attachments: ODEQ S87757.pdf

Hello Kerry, I have attached my review form. I noticed in your IR document, determination # 1, "The application proposeddomestic use for expanded one household". When I look at the application I see that they have requested stock watering in the application supplement. I did not see where the IR talked about stock watering though.

I am OK with the IR for human consumption use only.

DEQ review request for proposed water right application S 87757

Hi Pam,

I hope you are the correct DEQ contact to assist me with obtaining the DEQ Division 33 Review of this water right application.

Please see the pdf of Watermaster District #19, Mitch Lewis' review dated 11-4 -11 and Todd Confer's (ODFW) review dated 11-3 -11 under the "view all scanned documents" once you follow the link below to the water right information for this application on our webpage.

Thanks for your help!

Kerry
