FEB 09 2012

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- I cannot use water legally until the Water Resources Department issues a permit.
- Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land-use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.

WATER RESOURCES DEPT
SALEM, OREGON

I (we) affirm that the information contained in this application is true and accurate.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

- Yes
 - There are no encumbrances.
 - This land is encumbered by easements, rights of way, roads or other encumbrances.
- No
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or easement permitting access.
 - Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
 - Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

Not Applicable

SECTION 3: WELL DEVELOPMENT

WELL NO.	NAME OF NEAREST SURFACE WATER	IF LESS THAN 1 MILE:	
		DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD
1	Private Settling Pond McKenzie River	265 feet 1,585 feet	+36 feet

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials (*attach additional sheets if necessary*).

SECTION 3: WELL DEVELOPMENT, CONTINUED

Source (aquifer), if known: Sand & Gravel

Total maximum rate requested: Approx 63 GPM (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

Complete the table below. If this is an existing well, the following information may be found on the applicable well log. *(If a well log is available, please submit it in addition to completing the table.)* If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner.

OWNER'S WELL NAME OR NO.	PROPOSED	EXISTING	WELL ID (WELL TAG) NO.* OR WELL LOG ID**	FLOWING ARTESIAN	CASING DIAMETER	CASING INTERVALS (IN FEET)	PERFORATED OR SCREENED INTERVALS (IN FEET)	SEAL INTERVALS (IN FEET)	MOST RECENT STATIC WATER LEVEL & DATE (IN FEET)	PROPOSED USE

	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>									

G-17532

* Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.
 ** A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.
 *** Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

SECTION 4: WATER USE

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
General Industrial Use For Ready Mix Concrete Production	Year-round	100

Exempt Uses: Please note that 15,000 gallons per day for single or group **domestic** purposes and 5,000 gallons per day for a single **industrial or commercial** purpose are exempt from permitting requirements.

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated (*must match map*).

Primary: _____ Acres Supplemental: _____ Acres

List the Permit or Certificate number of the underlying primary water right(s): _____

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: _____

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: _____
If the use is **mining**, describe what is being mined and the method(s) of extraction: _____

SECTION 5: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

Pump (give horsepower and type): 50

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. The diversion point is a well approximately 350 feet deep; ground water will be drawn from the well using a 50 hp pump; the water will be conveyed approximately 240 feet via pipeline for use in a ready mix concrete plant in the immediate vicinity of the well.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) A 50 hp pump will be used to pump water from the well to a Vince Hagan Concrete Batch Plant with a 450 gallon weighed water batching system to measure and control water use.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters.

The quantity requested is for use in the commercial production of ready mix concrete. The batch plant is equipped with latest technology to measure the quantity of water used in order to eliminate waste. There is no on-site discharge of water from the plant as the water is consumed in the production of concrete.

SECTION 6: STORAGE OF GROUND WATER IN A RESERVOIR

If you would like to store ground water in a reservoir, complete this section (*if more than one reservoir, reproduce this section for each reservoir*).

Reservoir name: Not Applicable Acreage inundated by reservoir: _____

Use(s): _____

Volume of Reservoir (acre-feet): _____ Dam height (feet, if excavated, write "zero"): _____

Note: If the dam height is greater than or equal to 10.0' above land surface AND the reservoir will store 9.2 acre feet or more, engineered plans and specifications must be approved prior to storage of water.

SECTION 7: USE OF STORED GROUND WATER FROM THE RESERVOIR

If you would like to use stored ground water from the reservoir, complete this section (*if more than one reservoir, reproduce this section for each reservoir*).

Annual volume (acre-feet): Not Applicable

USE OF STORED GROUND WATER	PERIOD OF USE

SECTION 8: PROJECT SCHEDULE

Date construction will begin: 10/1/11

Date construction will be completed: 1/30/12

Date beneficial water use will begin: 4/1/12 (or upon issuance of Limited License, concurrently requested)

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application (*attach additional sheets if necessary*).

Enclosed are three documents in regard to proof of property ownership: 1) description card from Lane County Department of Assessment and Taxation describing T17S R3W Section 5 Tax Lot 1200, i.e., the property from which groundwater will be diverted, across which it will be conveyed, and on which it will be used; 2) Warranty Deed transferring ownership of the subject property from McKenzie Sand & Gravel Co. to McKenzie Properties, Inc.; and 3) documents from the Oregon Department of Commerce Corporation Division certifying the merger of McKenzie Properties, Inc. with and into Wildish Land Co., the current owner of subject property.

Land Use Information Form

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Lane County, Oregon

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir/Pond Ground Water Surface Water (name) _____

Estimated quantity of water needed: Approx 63 cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-Municipal Instream Other _____

Briefly describe:

Ground water to be used in the production of ready mix concrete

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____.
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

**SAND, GRAVEL & ROCK PRODUCTS ZONE (SG-RCP)
RURAL COMPREHENSIVE PLAN**

16.217 Sand, Gravel & Rock Products Zone (SG-RCP).

(1) Purpose. The intent of the Sand, Gravel and Rock Products Zone (SG-RCP) is to:

(a) Recognize that sand and gravel deposits within the County are an unrenewable natural resource and beneficial to the economy of the County and the welfare of its people.

(b) Identify and zone under this zone major deposits of sand and gravel, rock and related material resources.

(c) Provide for the utilization of this resource in a manner compatible with other land uses in the area.

(d) Encourage the regular, systematic and uninterrupted extraction and processing of such resources.

(e) Establish procedures for assuring protection of public health and safety on and adjacent to land used for extraction and processing.

(f) Prevent irresponsible extraction of material resources, to the detriment of the public.

(g) Provide standards to be observed during the extraction process with a view to ultimate utilization of the site.

(h) Carry out these purposes with the recognition of a need for said resources and the right of each property owner to make a reasonable use of his or her land.

(i) Implement the policies of the Lane County Rural Comprehensive Plan.

(j) Be applied only to those sites which have been evaluated consistently with the Statewide Planning Goal #5 Administrative Rule conflict resolution process.

(2) Definitions. Where conflicting, for the purposes of this section only, the following definitions supersede definitions otherwise provided in this Code:

Director. The Director of the Department of Public Works of Lane County.

Overburden. All materials lying on top of valuable sand and gravel deposits which must be moved in order to extract those valuable sand and gravel deposits.

Review Committee. The Sand and Gravel Review Committee authorized to administrate the provisions of this section.

(3) Permitted Uses. In the SG-RCP zone, the following uses are permitted subsequent to the following restriction: For any property designated in the Eugene-Springfield Metropolitan Plan as significant in terms of OAR.660-16.000/025 and designated as '1B', a Goal 5 ESEE consequences analysis per the Goal #5 Administrative Rule must first be completed. If the landowner and County do not agree on the method to achieve the Goal, the matter shall be forwarded to the Hearings Official for processing consistent with LC 16.100.

(a) Sand and gravel operations which entail the extraction, stockpiling and processing of sand, gravel, overburden and topsoil shall be permitted, subject to the requirements of the subsections of this section, but quarrying, smelting, ore reduction and other similar uses shall be excluded.

(b) The following uses shall be permitted, subject to the requirements of the subsections of this section, when conducted in conjunction with a sand and gravel

operation as defined in LC 16.217(3)(a) above, on the same parcel or contiguous parcels of land on which the operation is being conducted.

- (i) Asphalt paving-mix plant.
- (ii) Cement concrete batching plant.
- (iii) Aggregate products fabrication and sale.
- (iv) Sand and gravel resource-related contractor's equipment storage yard.
- (v) Sand and gravel resource-related contractor maintenance and storage buildings.
- (vi) Offices and warehouses appropriate to the uses permitted in this zone.
- (vii) Retail or wholesale sales of products related to the use of sand, gravel and related products.

(c) Other uses permitted:

- (i) Agriculture, grazing or timber raising.
- (ii) Dwellings for owners, operators or help required to carry out LC 16.217(3)(b)(i) above.
- (iii) Accessory buildings normally required in LC 16.217(3)(b)(i) above.
- (iv) Extraction of sand, gravel and overburden, any combination of which does not exceed 1,000 cubic yards in any calendar year.
- (v) Electrical facilities providing only direct service to a use authorized in this zone.
- (vi) Transportation facilities and uses as specified in LC 16.265(3)(a) through (q).

(d) Signs to be used in connection with sand and gravel operations:

- (i) Identification signs (exterior) shall be limited to two per business establishment, and shall be designed as part of the building.

(4) Site Improvement Standards.

(a) General. Site improvement standards hereunder are minimum standards to be observed during extraction processes to assure that the site shall be clean and orderly and left in a condition conducive to appropriate uses after extraction has been completed. Improvement of the site shall be a continuing process of planning, so that the ultimate redevelopment will be assisted by the extractive process.

(b) Minimum Site Improvement Standards. The following minimum standards of site improvements shall be met during the extraction process.

- (i) Slopes and Grading.
 - (aa) Excavations made to any setback lines shall meet the following requirements:

(i-i) Excavations not made to water-producing depth.

(aaa) All banks will be left with slopes no steeper than the natural contours of the immediately surrounding area, except that steeper slopes will be permitted if the slopes are designed to be stable by a soils engineer licensed in the State of Oregon. If slopes are steeper than one vertical to one and one-half horizontal, provisions will be made so that a person can find safe egress from any point on the shoreline of the excavation.

(bbb) The bottom of any excavation shall be gradually sloped and graded so that surface water shall drain into one low area of the excavation. If normal natural drainage is practicable, the excavated areas shall be graded to drain surface waters.

WARRANTY DEED

KNOW ALL MEN BY THESE PRESENTS, that MCKENZIE SAND & GRAVEL CO., a corporation duly organized and existing under the laws of the State of Oregon hereinafter called Grantor, for the consideration hereinafter stated, does hereby grant, bargain, sell and convey unto MCKENZIE PROPERTIES, INC., an Oregon corporation, hereinafter called Grantee and Grantee's successors and assigns, all of the real property, with the tenements, hereditaments and appurtenances thereunto belonging or appertaining, situated in the County of Lane and State of Oregon, and described on the attached exhibit consisting of 13 pages, subject to the terms and conditions and exceptions shown on the attached exhibit.

To have and to hold the same unto the said Grantee and Grantee's successors and assigns forever. Grantor hereby covenants to and with Grantee and Grantee's successors and assigns, that Grantor is lawfully seized in fee simple of the above granted premises, free from all encumbrances except as shown on the attached exhibit, and except for real property taxes for the fiscal year 1969-70 and that Grantor will warrant and forever defend the above granted premises and every part and parcel thereof against the lawful claims and demands of all persons whomsoever, except those claiming under the above described encumbrances.

The true and actual consideration paid for this transfer and for other real property being transferred contemporaneously stated in terms of dollars, is \$845,632.70

Done by order of the Grantor's board of Directors, with

MCKENZIE SAND & GRAVEL CO.,
an Oregon corporation

By *James D. Nelson*
President

By *H. W. Appel*
Secretary

STATE OF OREGON)
) ss.
COUNTY OF LANE)

On July 22, 1969, personally appeared James D. Nelson and H. W. Appel who, being duly sworn, each for himself and not one for the other, did say that the former is the President and the latter is the Secretary of McKenzie Sand & Gravel Co., a corporation, and that the seal affixed to the foregoing instrument is the corporate seal of said corporation and that said instrument was signed and sealed in behalf of said corporation by authority of its board of directors; and each of them acknowledged said instrument to be its voluntary act and deed.

Land Claim No. 39, Township 17 South, Range 3 West of the Willamette
Meridian; thence North 89° 50' West 280.20 feet to a point, said point
being the True Point of Beginning; thence North 35° 15' East 151.80
feet; thence North 1° 52' West 44.70 feet; thence North 45° 23' West
426.60 feet; thence South 86° 41' West 82.50 feet; thence North 10°
58' West 294.00 feet; thence North 89° 53' West 245.00 feet; thence
South 721.41 feet, more or less to the North line of said Claim No.
39; thence Easterly 601.61 feet, more or less along the North line
of said Claim No. 39 to the True Point of Beginning, all in Lane
County, Oregon.
SUBJECT TO:

G1. Easement for 20 foot wide roadway reserved in the deed
from F. B. Lane and Nettie Lane, husband and wife, and
Stanton W. Payne and Corrine Payne, husband and wife,
to James D. Nelson and Helen M. Nelson, husband and wife,
dated April 14, 1961, recorded May 22, 1961 under Recorder's
Reception No. 32915, Lane County Oregon Deed Records.

G2. Mortgage, including the terms and provisions thereof,
executed by McKenzie Sand and Gravel Co., an Oregon Corpora-
tion, to Emerald National Bank, a national banking associa-
tion dated May 5, 1964, recorded May 7, 1964 under Recorder's
Reception No. 54519, Lane County Oregon Mortgage Records,
given to secure the payment of a note for \$35,000.00, to-
gether with interest thereon, which mortgage indebtedness,
having a balance of 22,980.00 as at the date of the execution
of this deed plus interest thereon from July 15, 1969,
and all performance under such mortgage arising subsequent
to the execution of this deed, the Grantee hereby assumes
and shall hold the Grantor harmless therefrom.

Certificate of Merger

The undersigned, as Corporation Commissioner of the State of Oregon, hereby certifies that duplicate originals of Articles of Merger and amended and corrected charters to the provisions of the Oregon Business Corporation Act, Chapter 605, Oregon Revised Statutes, 1993, have been filed in my office and are found to conform to law.

Accordingly, the undersigned, as such Corporation Commissioner, and by virtue of the authority vested in him by law, hereby issues this Certificate of Merger and attaches hereto a duplicate original of the Articles of Merger wherein MONEY INC., a PROPERTIES, INC., an Oregon corporation, is merged with and into LIMITED LIABILITY CO., an Oregon corporation, and MONEY INC. is the surviving corporation.

In Testimony Whereof, I have hereunto set my hand and affixed hereto the seal of the Corporation Division of the Department of Commerce of the State of Oregon, this 29th day of February, 2012.
