Gentlemen:

The certificate recorded at page 6675, State Record of Water Rights Certificates, was issued to Mrs. Viola B. Matheson describing the appropriation of water from Thistledeew Spring for irrigation.

This certificate is in error in that it does not show the correct township. I believe this was discussed in some detail with you by Mr. Floyd Siegmund, watermaster. Mr. Siegmund surveyed the land which you claimed was irrigated. According to his survey, the land you claim as irrigated comprises 3.2 acres. This is slightly less than the amount described in the original certificate.

If we are to issue a new certificate correcting an apparent error in location, we would need an affidavit from you stating that the 3.2 acres were irrigated and that was the total irrigated and, also, that the irrigated lands had been irrigated in Section 8, Township 8 South, Range 3 West, W.M., as shown by Mr. Siegmund's map.

If this procedure is agreeable to you and you will so advise us, we will prepare the necessary affidavit and proofs so we may issue a proper certificate to you.

Very truly yours,

Dear Sir and Madam:

I have prepared an affidavit so we may correct the certificate recorded at page 6675, State Record of Water Right Certificates.

You will note that it requests cancelation of all the land except 3.2 acres surveyed by Mr. Siegmund and shown on the enclosed print.

I did not fill in the names on the affidavit because I am not sure whether this is individually or jointly held property. If it is jointly held, both names and both signatures should be affixed.

We will also need a certificate recording fee of \$1 so the new certificate can be recorded in the records of the Marion County Clerk.

Very truly yours,

County Courthouse  
Salem, Oregon

Dear Mr. Tomlinson:

Enclosed is a certified copy of the order of the State Engineer canceling a portion of a water right evidenced by certificate recorded at page 6675, Volume 7, State Record of Water Right Certificates, which was recorded in your office on or about November 1, 1926. Under the provisions of ORS 543.730, the county clerk shall stamp or write across the face of the recorded water right certificate which evidences the right the words: "Canceled by order of the State Engineer, dated December 14, 1964."

Also enclosed are two certificates of water right for recording in your office and our check No. 342 in the amount of \$2 which represents payment for such service as provided by ORS 537.520 and 539.140. After recording, please mail the certificates to Joe W. Oppek, 7555 O'Neill Road, N.E., Salem, Oregon and Chet I. and Dorothy S. Nelson, Route 3, Salem, Oregon, respectively.

The certificate issued to Chet I. and Dorothy S. Nelson confirms the right not canceled under certificate 6675. It would be appreciated if you would mark in the margin of certificate 6675 to show that it has been superseded and indicate the page and volume where the new certificate is recorded. There is no statutory provision for this procedure, but it would certainly be of benefit to those people using your records.

Dear Madam:

I note from the records of this office that you have not filed notices of beginning of construction, completion of construction or complete application of water under your Permit No. 5630, which covers the appropriation of 0.08 second foot from Thistledeew Spring for the irrigation of six acres, although the time for the completion of your right as fixed in the terms of the permit expired October 1, 1925.

In view of the fact that the notices have not been filed, we presume the water right has been abandoned, and if so, we would be glad to have you authorize the cancellation of the permit on the records of this office as this will eliminate the necessity for following the regular procedure for the cancellation of the same. However, if the terms of the permit have been complied with, we would be glad to forward final proof blanks for execution upon receipt of the required notices.

As we have received no reply to our postcard notice of November 4, 1925, in regard to this matter, you are advised that unless hearing from you within sixty days from the date of this letter, the permit will be cancelled in accordance with the provisions of Section 5774, Oregon Laws, which provides for the cancellation of the permits when the holders thereof fail or refuse to complete their water rights within three months after the same should have been completed.
