

Public Land Survey System shown is from the official records of the Bureau of Land Management. Township and Section Line configuration and spatial relationships are from the Bureau of Land Management's Geographic Coordinate Database.

Primary Planimetric information is from the Oregon Department of Water Resources' water use mapping of the Klamath River Basin. Planimetric information was supplemented with information collected by field observations, aerial photo interpretation, and discussion with refuge personnel.

This map has been prepared at the direction of the Regional Director, Region 1, Portland, Oregon. Areas of claimed water use are as designated by various divisions of the U.S. Fish and Wildlife Service.
