RE: Bandon Cranberry Water Control District

Dear Ms. Eastman,

I represent Elizabeth French and her husband Scott Cook of Bandon, Oregon. Ms. French is the owner of resource lands located in the Johnson Creek drainage area. She and her husband actively manage these timber lands. They are also active members of Upper Johnson Creek Improvement District.

This is to advise you that Elizabeth French and Scott Cook strongly oppose the application filed with your agency by the Bandon Cranberry Water Control District. The proposed dam and resulting reservoir would, if granted, have a serious negative impact on the affected property owners within the Johnson Creek drainage area such as my clients. Their property would also experience flooding from the reservoir.

Ms. French and Mr. Cook request that the Water Resource Department deny the application.

Very truly yours,

c: Clients
