Note: Attach multiple copies as needed

* By providing an e-mail address, consent is given to receive all correspondence from the department electronically. (paper copies of the final order documents will also be mailed.)

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

I (we) affirm that the information contained in this application is true and accurate.

SALEM, OR

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

☒ Yes

☒ There are no encumbrances.

☐ This land is encumbered by easements, rights of way, roads or other encumbrances.

☐ No

☐ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or easement permitting access.

☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

☐ Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

NA

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Stored Water - Rock Creek Lake

Tributary to: Rock Creek

Source 2: _____

Tributary to: _____

Source 3: _____

Tributary to: _____

Source 4: _____

Tributary to: _____

RECEIVED BY OWRD

FEB 12 2013

SALEM, OR

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

Certificate 37253

B. Applications to Use Stored Water

Do you, or will you, own the reservoir(s) described in item 3A above?

☒ Yes.

☐ No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

If *all* sources listed in item 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

- ☐ By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):
(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
Unallocated Water Stored in Rock Creek Lake	Reservoir Maintenance	April 15 to December 31	12 ☐ cfs ☐ gpm ☒ af
			☐ cfs ☐ gpm ☐ af
			☐ cfs ☐ gpm ☐ af

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated.

Primary: NA Acres Supplemental: NA Acres

List the Permit or Certificate number of the underlying primary water right(s): NA

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: NA

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: NA
- If the use is **mining**, describe what is being mined and the method(s) of extraction: NA

SECTION 5: WATER MANAGEMENT

RECEIVED BY OWRD

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

☐ Pump (give horsepower and type): NA

☒ Other means (describe): Gravity flow from a reservoir overflow channel and from a pipeline.

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

FEB 12 2013

SALEM, OR

A weir to control flow in the overflow channel will be installed at the point of diversion at Rock Creek Lake. The pipeline extending from Rock Creek Lake has a gate valve at the point of diversion. Another gate valve will be installed on a 10-inch-diameter pipeline that will extend from the 18-inch-diameter pipeline to Spanish View Lake.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

Water will be used to maintain the water level and water quality of a small reservoir.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

The water requested is intended to replace seasonal seepage and evaporative losses in a small reservoir (Spanish View Lake, constructed under Permit R-14955). A weir will be installed at the connection of the overflow channel to Rock Creek Lake and a flowmeter will be installed on the pipeline. The water level in Spanish View Lake will be maintained below the spillway elevation to conserve water and avoid discharges from the reservoir. There are no public uses of the affected surface waters.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- ☒ Diversion will be screened to prevent uptake of fish and other aquatic life.
Describe planned actions: The pipeline at the point of diversion at Rock Creek Lake has a fish screen.
- ☒ Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.
Describe planned actions: The overflow channel already exists so no related construction activities are needed. Excavation and clearing of the reservoir banks will be minimized when the 10-inch-diameter pipeline is installed. No discharges from the reservoir are expected to occur during the construction activities.
- ☒ Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.
Describe: The weir on the overflow channel will be installed when there is no water in the channel. There are no fish in Spanish View Lake.
- ☒ Water quality will be protected by preventing erosion and run-off of waste or chemical products.
Describe: The reservoir is in a forested area and is used for aesthetics and recreation. No chemical applications to the surrounding area are planned. The reservoir will be operated in a manner that prevents downstream discharges from occurring.

SECTION 7: PROJECT SCHEDULE

Date construction will begin: As soon as permit is issued.

Date construction will be completed: November 2013.

Date beneficial water use will begin: April 15, 2013.

RECEIVED BY OWRD

FEB 12 2013

SALEM, OR

SECTION 8: WITHIN A DISTRICT

☐ Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name NA	Address	
City	State	Zip

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application.

The reservoir to be maintained, named Spanish View Lake, was constructed under Permit R-14955 (Application R-87625). The initial storage of water in the lake is expected to occur in spring 2013; a related Claim of Beneficial Use will be due within 1 year of that time. The unallocated water in Rock Creek Lake is part of the water stored under Certificate 37253.

The applicant requests that the following condition, which is included in Permit R-14955 (on page 2), be included in any new permit issued pursuant to this application: Except as required by other conditions and/or directives of the Department, or as may occur through return flow following irrigation under a secondary permit for use of the water stored under this permit, the permittee shall not release water from the reservoir into Rock Creek, or into any surface waterway reaching Rock Creek. For purposes of this paragraph, "other conditions and/or directives of the Department" do not include the terms and/or conditions of this permit that require the permittee to pass live flow outside the permitted storage season and/or after storing the total amount permitted under this permit.

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

SALEM, OR

- ☒ Permit to Use or Store Water ☐ Water Right Transfer ☐ Permit Amendment or Ground Water Registration Modification
☐ Limited Water Use License ☐ Allocation of Conserved Water ☐ Exchange of Water

Source of water: ☒ Reservoir/Pond ☐ Ground Water ☐ Surface Water (name) _____

Estimated quantity of water needed: 12 ☐ cubic feet per second ☐ gallons per minute ☒ acre-feet

Intended use of water: ☐ Irrigation ☐ Commercial ☐ Industrial ☐ Domestic for _____ household(s)
☐ Municipal ☐ Quasi-Municipal ☐ Instream ☒ Other Reservoir Maintenance

Briefly describe:

Up to 12 acre-feet of unallocated water stored in Rock Creek Lake under a water right (Certificate 37253) will be used to maintain the water level and water quality in Spanish View Lake constructed under WRD Permit R-14955.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): N/A - W.C. Comp Plan

☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): N/A - W.C. Comp Plan
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Re: Application for a Permit to Use Surface Water (Stored Water Only)
Our File No.: 122869/159985

Dear Tim:

Enclosed for filing on behalf of Dayspring Partners LLC is an Application for a Permit to Use Surface Water and supporting documentation. Also enclosed is a check for the application fee of \$1100.00. I will serve as the applicant's agent.

The applicant Dayspring Partners, LLC owns the affected real property. Please note that in 2009 the applicant changed its name from Antone Acquisition, LLC, which is the entity named in the deed enclosed with the application, to Dayspring Partners, LLC. We have enclosed a copy of the applicant's business registry form, available on the Oregon Secretary of State's website, which documents the name change.

Please let me know if you have questions or need additional information.

Sincerely,

Martha O. Pagel

SALEM, OR

Application for a Permit to Use Surface Water

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

Water-Use Permit Application Processing

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law.oar). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$300.00 for the applicant and \$600.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.
