January 16, 1934

Mr. Chas. F. Stricklin, State Engineer

Salem, Oregon

Dear Sir:

RECEIVED
JAN 17 1934

STATE ENGINEER
SALEM, OREGON

Reference is made to your letter of January
fifteenth regarding our permit No. 6342.

Our present plan does not contemplate the
irrigation of the tract for which the filing was
originally made and you may eliminate item No. 8
and issue a certificate for the amount of water as
shown on our application for other uses.

Very truly yours,

P. A. Thompson
Forest Supervisor

By *[Signature]* Acting

OK for cut

November 1, 1938

Mr. G. C. Hall,
Forest Supervisor,
Alameda Division,
Forest Service,
Washington, D. C.

Re: Your letter of October 27, 1938, regarding the proposed extension of the term of the application for water under Application No. 1000, Section No. 1000. In cases of this kind where permission is necessary in order to complete an appropriation of water, extensions of time are usually granted as long as it appears that reasonable progress is being made in the completion of the application. The nature of the extension of time as requested with your letter is considered premature and is therefore being denied. I am glad for convenience in handling this matter that your application for water is made in a timely manner.

Very truly yours,
G. C. Hall,
Forest Supervisor,
Alameda Division,
Forest Service,
Washington, D. C.

By
Office Assistant.

January 15, 1934.

U. S. Forest Service,
Eugene, Oregon.

Attention: Mr. F. A. Thompson, Supervisor.

Gentlemen:

The final proof under your Permit No. 6242 has been received and I note your statement under Item 8 that the land has been partly cleared but none of it has been actually irrigated up to the present time.

If you desire to retain a right to irrigate the lands described under this permit, I believe that you should submit an application for an extension of time. If a certificate is issued at this time it will be necessary to eliminate irrigation as the law requires that the State Engineer shall limit the right in the certificate to the quantity of water and use as has actually been completed at the time that proof was made. If you do not wish to irrigate any lands under this filing it will probably be satisfactory to issue a certificate at this time, but if the lands are to be irrigated, it will be necessary for an application for an extension of time to be made in order to keep the permit in good standing. I am enclosing a form which you may use for your convenience in submitting an application for an extension if desired.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

Dear Sir:

This will acknowledge receipt of your remittance
of \$1.00 as the certificate recording fee under your
Permit No. 6844. My receipt No. 14328 is enclosed
herewith.

You failed, however, to return the final proof,
and when it is returned to this office we will proceed
with the issuance of a certificate.

Very truly yours,

CHAR. E. CRICKLIN,
State Engineer.

Mr. P. A. Thompson,
Forest Supervisor,
Willamette National Forest,
Eugene, Oregon.

Dear Sir:

Receipt is acknowledged of your letter of December 28th with which you enclosed the final proof under Permit No. 8242 and your voucher for \$1.00 to cover the certificate recording fee. The voucher has been signed and is being returned herewith.

The proof is considered to be satisfactory with the exception that you failed to state under Item 5 the number of acres which have been actually irrigated. The proof is being returned for this information. When it is returned in satisfactory form with your remittance of \$1.00 we will proceed with the issuance of the water right certificate.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

*OK except # of acres number
Item 8*

December 7, 1933.

Forest Supervisor,
Willamette National Forest,
Eugene, Oregon.

Dear Sir:

This acknowledges receipt of your letter of December 5th with which you enclosed your Permit No. 8242 with the corrected map.

Since the appropriation through the new pipe line to Dr. Skiff's camp is from the same point of diversion and from the same waters, I believe that it may be included under this permit, but, of course, you understand that the total appropriation authorized by this permit cannot exceed 2.0 second-feet of water.

In view of your statement that the appropriation has been completed, I am enclosing a form for making final proof, together with the map. All items in the proof form applicable to the development should be carefully answered. The affidavits of appropriator and of witnesses should be signed before a notary public. After being completely filled out, the proof should be returned to this office with a fee of \$1.00 for recording the water right certificate in the county records.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

Dear Sir:

RECEIVED
DEC 6 1933
STATE ENGINEER
SALEM, OREGON

Reference is made to your letter of November fourteenth covering our application for water appropriation permit No. 6242.

All construction has been completed and water applied for has been utilized on the same. Mention was made in the application of a portion of this water to supply campers for domestic use. Since the application was made very extensive developments have been made on the Dr. Skiff lease and in order to take care of this need a 12" pipe line was connected to the ditch line giving a gravity system to supply a small hotel, summer cabins and other patrons stopping at this resort as well as the general public.

We would like to amend our original filing to include this pipe line which is indicated on the plat that accompanied our original filing. Complete appropriation was made in June 1933.

Your copy of the application and plat is being attached.

Very truly yours,

P. A. Thompson
Forest Supervisor

Dear Sir:

Reference is made to your card of October 31, calling our attention (Mr. Hallé)
to the completion of construction for our water appropriation, permit No
6242.

In transferring our records from Albany to Eugene in the consolidation
of the two forests, the original filing has been misplaced and we are unable
to locate it.

We would appreciate a copy of the original filing in order to furnish
the information requested to complete the appropriation.

Very truly yours,

Dear Sir:

This is in reply to your letter of November 26,
requesting an extension of time under Permit No. 6242.

Your letter indicates that reasonable diligence
has been shown in the construction of this development
and I believe that you are entitled to an extension of time.

The time limits for the completion of construc-
tion and the complete application of water are, therefore,
being extended until October 1, 1933.

Very truly yours

Dear Sir:

SALEM, OREGON

Reference is made to permit No. 6242.

Complete application of water has not been made on account of lack of funds in developing grounds to be irrigated.

Water is being beneficially used in supplying a government station and for water system of a Forest camp of about 20 acres. An extension of time is requested to enable the government and camp lessee to further develop the camp improvements.

Very truly yours,

C. C. HALL, Forest Supervisor.

9400

November 2, 1931.

Mr. C. C. Hall,
Forest Supervisor,
Albany, Oregon.

Dear Sir:

I believe that the conditions set out in your letter of October 30th entitle you to an extension of time for the complete application of water under your Permit No. 6242, and I am therefore extending this time limit until October 1, 1932.

If it is desired to develop electrical energy, an application must be made to the Hydroelectric Commission of Oregon for a permit to make such development. An application for a minor project together with a copy of the rules and regulations of the Hydroelectric Commission is being sent you under separate cover. The application may be submitted through this office, if you desire to make the necessary application.

Very truly yours,

CHAS. E. STRICKLIN,
State Engineer.

October 25, 1930.

Mr. C. C. Hall,
Forest Supervisor,
Albany, Oregon.

Dear Sir:

In accordance with the request contained in your letter of October 23rd, I am extending the time for complete application of water under Permit No. 6242 another year or until October 1, 1931.

It is not permissible to amend the permit at this time so as to include the use of water for power development. If it is desired to use water for this purpose I would suggest that a new application be submitted. An application form and instruction pamphlet are enclosed for your use in case you wish to submit this new application.

Yours very truly,

CHAS. E. STRICKLIN,
State Engineer

STATE ENGINEER
RECEIVED
NOV 1 1929
SALEM, OREGON

The State Engineer,
Salem, Oregon.

Dear Sir:

Reference is made to above permit No. 6242, Application No. 9400 and the Blanks "Notice of Complete Application of Water to Beneficial Use" and "Notice of Completion of Construction" is herewith attached.

The construction work is complete. The application of the water is made to the different uses for which the water was appropriated except for irrigation. As we were not able to apply the water on the ground this season on account of lateness in completion of work.

Owing to the fact that a portion of the 10 acres which was to be irrigated has been appropriated to other use, that of camp site, the total for irrigation should be reduced to 5 acres. With this water we are now supplying the Station for domestic use, a camp ground of about 20 acres and later will use to irrigate about 5 acres and to supply water for domestic use to summer homes aggregating about 30 acres.

The complete application of all of the 2 second feet is not and can not be made at this time but the amount of water used will increase each year until without doubt the total of 2 second feet will be used. This explanation is made so that you may take proper action on this permit.

Very truly yours,

C. C. Hall,
Forest Supervisor.

ATURE

June 18, 1929

Mr. C. S. Hall,
Forest Supervisor,
Albany, Oregon.

Dear Sir:

We have considered your letter of
June 11th as notice of completion of construction
under Permit No. 6242.

As soon as complete application of
water is made you should fill out and submit Form
C which is attached to your permit. When this
form is received, we will prepare and mail to
you a blank for use in making final proof.

Yours very truly,

HEMA LUPER,
State Engineer.

June 23, 1928

Mr. Rhea Luper,
State Engineer,
Salem, Oregon.

Dear Sir:

Reference is made to permit No. 6242 upon which construction work was to have been completed by June 1, 1928.

Construction work under this permit has been prosecuted with diligence. Ditch and flume foundation along the cliff has been constructed. We have, however, lacked lumber and therefore been unable to construct the flume necessary to bring water out of the canyon.

This has been owing to practical impossibility of getting lumber in on account of delayed construction of road and also on account of lack of means to purchase lumber for the flume. We have, however, received an allotment sufficient to buy the lumber and we hope to have the road open within the next month so that we will be able to proceed with the work and complete the diversion this fall. Considering the situation as given we would appreciate an extension to the end of the present year when I am sure we will have completed this work:

Very truly yours,

Forest Supervisor.

December 30, 1936.

Mr. C. C. Hall,
Forest Supervisor,
Albany, Oregon.

Dear Mr. Hall:

In accordance with your verbal request while in the office today, the time for completion of construction work under Permit No. 6242 has been extended to June 1, 1938, and the time for complete application of water has been extended to October 1, 1938.

Trusting this action will meet with your approval, I am

Yours very truly,

H.

Wm. L. Loper,
State Engineer.

May 8, 1926.

Mr. C. C. Hall,
Forest Supervisor,
Albany, Oregon.

Dear Sir:

We have considered your letter of May 7th
an application for extension of time under Permit
No. 6342, which covers the appropriation of 2.0 sec-
ond feet of water from Mansfield Creek for domestic
use and irrigation of ten acres.

You will therefore be allowed until June
1, 1927, within which to complete construction work
under the above permit.

H.

Rhea Lyster,
State Engineer.
