

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE STATE OF OREGON**

In the Matter of Water Rights Application)
S-87835, Jackson County)

FINAL ORDER
APPROVING THE USE OF
STORED WATER

Authority

ORS 537.147 establishes the process by which an application to use stored water exclusively may be submitted. OAR Chapter 690, Divisions 310 and 340 implement the statute, and provide the Department's procedures and criteria for evaluating applications to use stored water.

Findings of Fact

1. On August 27, 2012, MICHAEL AND KARIN S HART submitted an application for a water-use permit pursuant to ORS 537.147. The Department provided public notice of the application in the Department's weekly public notice on SEPTEMBER 11, 2012. A 30-day comment period followed.
2. The Department will concurrently cancel the conflicting portion of Certificate 56004 upon issuance of a permit for Application S-87835. The applicants submitted an affidavit for the partial cancellation of a water right certificate at the time the application was submitted.
3. The Department has evaluated the application and any comments received, and finds that no public interest in ORS 537.170(8) would be affected adversely by the proposed use.

Conclusions of Law

Application S-87835 is consistent with the requirements of ORS 537.147 and OAR Chapter 690.

Now Therefore, it is Ordered:

Application S-87835 is approved pursuant to ORS 537.147. **Upon payment of the permit recording fee of \$400 and submission of an executed and valid contract with the Bureau of Reclamation authorizing appropriation of stored water from Applegate Reservoir, a permit shall be issued authorizing the proposed water use and the conflicting portion of Certificate 56004 will be cancelled.** Failure to meet this requirement within 60 days from the date of this Final Order may result in the proposed rejection of the application.

If you need to request additional time, your written request should be received in the Salem office of the Department within 60 days of this Final Order. The Department will evaluate the request and determine whether or not the request may be approved.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Dated at Salem, Oregon on APRIL 25 2013.

E. Timothy Wallin, Water Rights Program Manager
for Phillip C. Ward, Director

This order was produced by Kerry Kavanagh. If you have any questions about any of the statements contained in this document, I am probably the best person to answer your questions. You may reach me at 503-986-0816 or Kerry.L.Kavanagh@wrd.state.or.us.

STATE OF OREGON

COUNTY OF JACKSON

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO:

MICHAEL AND KARIN S HART
 2090 LAKESHORE DR
 AGOURA CA 91301

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-87835

SOURCE OF WATER: APPLGATE RESERVOIR, CONSTRUCTED UNDER PERMIT R-7810,
 TRIBUTARY TO APPLGATE RIVER

PURPOSE OR USE: IRRIGATION OF 1.4 ACRES

MAXIMUM VOLUME: 6.0 ACRE FEET

DATE OF PRIORITY: AUGUST 27, 2012

PERIOD: APRIL 1 THROUGH OCTOBER 31

Authorized Point of Re-Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	4 W	WM	25	NW NE	825 FEET SOUTH AND 1540 FEET EAST FROM NW CORNER, DLC 37

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to a diversion of not to exceed 4.5 acre-feet per acre for each acre irrigated during the irrigation season of each year. The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	4 W	WM	25	NW NE	1.4

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of re-diversion, and maintain the meter(s) in good working order.
- B. The permittee shall allow the watermaster access to the meter(s); where a meter is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used, and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use, and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

The water user shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion, while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of water. The water user may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

The use of water under this right is subject to the terms and conditions of contract No. XXXXXXXXXXXX, or a satisfactory replacement, between the Bureau of Reclamation and the permittee, a copy of which must be on file in the records of the Water Resources Department.

STANDARD CONDITIONS

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.
3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
6. If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, shall be followed.
7. Completion of construction and application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

8. Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
