

September 28, 1929.

Mr. H. H. Magee,
Route #5, Box #108,
Salem, Oregon.

Dear Sir:

You visited the office yesterday and verbally requested an extension of time for complete application of water under Permit No. 8627. It is stated that conditions were very much the same a year ago as they are now and the only reason that you have been unable to irrigate the entire two acres is that insufficient water was available.

This will advise you that the time limit for complete application of water under this permit will be extended until October 1, 1930.

Yours very truly,

RHIA LUPER
State Engineer

NOTICE OF COMPLETION OF CONSTRUCTION

I, M. M. Magee, the holder of Application No. 9650, being
 Permit No. 6627, issued by the State Engineer of the State of Oregon
(Revertor or Unassigned)
 for the appropriation of 0.13 second-feet of the waters of Unnamed stream
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 have completed the construction of the works described therein the 1st day of July, 1927,
 being within the time limitation as fixed in said permit or extended by the State Water Board for the
 completion of construction work.

Remarks:

If the works have a less capacity than as described in the permit, or you have definitely abandoned your plan of irrigating any of the lands described
 in your permit, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 18th day of June, 1927,

Salem

Rhea Luper,
State Engineer,
Salem, Oregon.

Dear Sir:

I hereby make application for an extension of time in which to completely apply the water for beneficial use under application No. 9650 Permit No. 6627.

I have used due diligence in prosecuting work under this filing and have completed my construction work, but there was not sufficient water in the stream this year at my place to irrigate more than 4 acres of land out of the 10 acres covered by the permit. I am in hopes that next year conditions will be different, and that I can irrigate the additional acreage and then be in a position to make my final proof for more than 4 acres of land.

Very truly yours,

M. M. Magee
