Certificate of Water Right Ownership Update

NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public (ORS 537.110). In almost every instance, a permit or water right certificate from the Water Resources Department is needed before using, diverting or storing water (ORS 537.130). However, most domestic wells do not require water rights. A certificate of water right stays with the land. In order to keep track of water right ownership, the Department requests that this form be submitted to the Department. ***If for multiple rights, a separate form for each right will be required.***

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 503-986-0900.

Note: Please type or print legibly when filling in the following information. Use additional paper if necessary.

CERTIFICATE OF WATER RIGHT

This Is to Certify, That DOROTHY AND CLAIR HENRY

of Rt. 2 Box 24, Tiller, State of Oregon, 97484, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of a spring

a tributary of South Umpqua River for the purpose of domestic use for one family

under Permit No. 34747 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon: that the priority of the right hereby confirmed dates from October 21, 1969

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.01 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NE 1/4 NW 1/4, Section 23, T. 30 S., R. 2 W., W. M., 133 feet South and 314 feet East from the NW Corner of the NE 1/4 NW 1/4 of Section 23.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ----- of one cubic foot per second per acre.

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within **60 days of the mailing date stated above** as specified by ORS 183.484(2).

This statement of judicial review rights is required under ORS 536.075; it does not alter or add to existing review rights or create review rights that are not otherwise provided by law.

Under ORS 537.260 and 537.270, a water right certificate may be contested before the Water Resources Department within three (3) months of the date it is issued. If a certificate is contested, the qualifying contestant shall be offered an administrative hearing.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years, that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

10. This right does not authorize the water user to interfere with or affect adjacent property not under the ownership of the water user.

Measurement, recording and reporting conditions:

SALEM, OR

- A. The Director may require the permittee to install a staff gage that measures the entire range and stage between full reservoir level and dead pool level in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I. Additionally, if the reservoir is located in-channel, then weirs or other suitable measuring devices may be required upstream and downstream of the reservoir, and a gated outlet valve may be required. A written waiver may be obtained from the local Watermaster if in his judgement the installation of the weir(s) will provide no public benefit. If the Director notifies the permittee to install a staff gage, weirs, or other suitable measuring devices, the permittee shall install such devices within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the devices in good working order and shall allow the watermaster access to the devices. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

6. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 2012.
7. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use to the Oregon Water Resources Department.
8. The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir capacity is equal to or greater than 9.2 acre-feet.
9. If no secondary permit exists and the reservoir capacity is less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:
 - a. the dimensions of the reservoir;
 - b. the maximum capacity of the reservoir in acre-feet; and
 - c. a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

Issued NOVEMBER 19, 2007.

Application for a Permit to Store Water in a Reservoir

(Alternate Review)

Alternate Review Process (ORS 537.409): You may use this form for any reservoir storing less than 9.2 acre-feet or with a dam less than 10 feet high.

Use a separate form for each reservoir

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply, insert "n/a". A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/publication/reports/index.shtml.

1. APPLICANT INFORMATION

Landowner: JEANIE & JASON JENKS
First Last

Mailing Address: 464 PINEY HILL LANE
TINER OR 97484
City State Zip

Phone: 541-825-3709
Home Work Other

*Fax: _____ *E-Mail Address: jeanie.jenks@aol.com
**Optional Information*

2. LOCATION AND SOURCE

A. Reservoir Name: POND 1

B. Source: Provide the name of the water body or other source from which water will be diverted, and the name of the stream or lake it flows into. Indicate if source is run-off, seepage, or an unnamed stream or spring.

Source: RUN-OFF/SEEPAGE Tributary to: _____

RECEIVED BY OWRD

JUN 24 2013

C. Reservoir Location

SALEM, OR

Township (N or S)	Range (E or W)	Section	quarter/quarter	tax lot number
305	2W	23	SE NW	300

D. County of use: DOUGLAS

E. Dam: Maximum height of dam: EXCAVATED feet. If excavated, write "excavated" or "0 feet".

F. Quantity: Amount of water to be stored in the reservoir at maximum capacity. List quantity in Acre-Feet: 1/10 AC/FEET 0.10 AF

App. No. _____	For Department Use	Permit No. _____	Date _____
----------------	--------------------	------------------	------------

3. WATER USE

Indicate the proposed use(s) of the stored water. NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement. If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water. MULTI-PURPOSE & WETLANDS ENHANCEMENT

4. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 5)
- No (Please check the appropriate box below)
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or an easement permitting access to lands not under my ownership.
 - Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040). (Do not check this box if you described your use as "Multipurpose" in #3 above.)

List the names and mailing addresses of all affected landowners:

5. ENVIRONMENTAL IMPACT

- A. Channel: Is the reservoir in stream _____ or off channel _____? RUN-OFF & SEEDAGE
 - B. Wetland: Is the project in a wetland? Yes No Don't know SMALL SEASONAL MARSH ON MY PROPERTY
 - C. Existing: Is this an existing reservoir? Yes No
If yes, how long has it been in place? 100 years.
 - D. Fish Habitat: Is there fish habitat upstream of the proposed structure? Yes No Don't know
If yes, how much? _____ miles.
 - E. Partnerships: Have you been working with other agencies? Yes No
- Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

SALEM, OR

Landowner Signature

Date

Before you submit your application be sure you have:

- Answered each question completely.
- Included a legible map that includes Township, Range, Section, quarter-quarter and tax lot number.
- The map must meet map requirements to be accepted.
- Included a land use form or receipt stub signed by a local planning official.
- Included a check payable to Oregon Water Resources Department for the appropriate amount.

FEE STRUCTURE: The fee is based on the number of acre-feet proposed to be stored. The base fee is \$40. In addition, there is a fee of \$10 per acre-foot or fraction thereof, not to exceed \$250. The maximum fee is \$290. Example: 0.3 AF=\$50; 1.5 AF=\$60; 20.0 AF=\$240; 30.0 AF=\$290.
