#### **SECTION 2: PROPERTY OWNERSHIP**

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

X Yes	<ul> <li>☐ There are no encumbrances.</li> <li>☐ This land is encumbered by easements, rights of way, roads or other encumbrances.</li> </ul>
□ No	<ul> <li>☐ I have a recorded easement or written authorization permitting access.</li> <li>☐ I do not currently have written authorization or easement permitting access.</li> <li>☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).</li> <li>☐ Water is to be diverted, conveyed, and/or used only on federal lands.</li> </ul>

List the names and mailing addresses of all affected landowners (attach additional sheets if necessary).

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

#### **SECTION 3: WELL DEVELOPMENT**

		IF LESS THAN 1 MILE:				
WELL NO.	NAME OF NEAREST SURFACE WATER	DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD			
N/A	Ryan Creek	700'	176' to (Ryan Creek) 177'			

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials (attach additional sheets if necessary).

										_			

SESTEP 0 5 2013

Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

<sup>\*\*\*</sup> Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
Irrigation (horse pasture, and garden	Seasonal (June to August)	
	15,000 gallons per day for single or grou commercial purpose are exempt from per	p <b>domestic</b> purposes and 5,000 gallons per mitting requirements.
day for a single industrial or o		mitting requirements.
day for a single industrial or of For irrigation use only: Please indicate the number of p	commercial purpose are exempt from per	mitting requirements.  gated (must match map).

•	If the use	is 1	municipal	or	quasi-municipal	, attach	Form	M
---	------------	------	-----------	----	-----------------	----------	------	---

	If the use is domestic	indicate the number of households:
•	11 the use is dumestic.	indicate the number of nouseholds.

Indicate the maximum total number of acre-feet you expect to use in an irrigation season:

•	If the use is mining, describe what is being mined and the method(s) of extraction:	

#### **SECTION 5: WATER MANAGEMENT**

#### A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

Pump (give horsepower and type): 5 horsepower subm	nersible 60 gpm
Other means (describe):	

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

#### B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure species of the property of the p High pressure sprinkler, wheel line

SEP 0 5 2013

#### C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevMATER RESOURCES DEPT waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent damage to aquatic life and riparian habitat; prevent damage to aquatic life and riparian habitat; the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters.

Sprinkler irrigation can help distribute and measure water usage. Water can be applied at times during the evening or early morning when the water will be the most effective and absorbed back into the ground. Amount of water used and time of day are important to conservation and growth of plants or pastures. Watering plants can also be a good replacement for pesticides. Water washes pests away keeping plants or crops free from damage. Important for organic plant growth.

**RECEIVED** 

SEP 0 5 2013

WATER RESOURCES DEPT SALEM, OREGON

# **Land Use Information Form**

### NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

#### This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

### NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
