- The source of the water for Certificate 68698 is JOB RESERVOIR CONSTRUCTED UNDER PERMIT R-6335 (Certificate 54208). Certificate 54208 allows the use of water for the purposes of supplemental irrigation. Notwithstanding this limitation of supplemental irrigation use, the Department issued Certificate 68698 for primary irrigation.
- Application T-10265 proposes to change the place of use for the transferred portion of the water right to:

IRRIGATION							
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres	
1 S	3 W	WM	2	SW SE	50	3.92	

- Notice of the application for transfer was published on November 21, 2006, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
- Water has been used within the last five years according to the terms and conditions of the right, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
- The proposed change would not result in enlargement of the right.
- The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The proposed change in place of use in application T-10265 appears to be consistent with the requirements of ORS 540.505 to 540.580, and OAR 690-380-5000, and will be approved provided that protests are not filed pursuant to OAR 690-380-4030.

If approved, the change and subsequent use of water shall be subject to the following conditions:

- The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 68698 and any related decree.
- Certificate 68698 is cancelled. A new certificate will be issued describing that portion of the right not involved in this transfer.
- The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2008**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.

4. The former place of use of the transferred water shall no longer receive water as part of this right.
5. Prior to diverting water, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
6. When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 8th day of February 2007.

Phillip C. Ward, Director

This Preliminary Determination was prepared by Bob Rice. If you have questions about the information in this document, you may reach me at 503-986-0885 or Robert.D.Rice@wrđ.state.or.us.

Protests should be addressed to the attention of Field Services Division, Water Resources Department, 725 Summer St. NE, Salem, OR 97301-1271.
