Re: Amendment to Application R-87932  
Our File No.: 123805-182220

Dear Mary:

Enclosed for filing on behalf of Sunny Valley Sand and Gravel, Inc. are amended application materials for Application R-87932 (Reservoir 4). The application has been amended to increase the proposed amount of water to be stored from 65 acre-feet to 80 acre-feet. A check for \$450.00 is enclosed to cover the additional application fee (\$30.00 X 15 additional acre-feet). The amended materials include an application form, map, Watermaster review sheet, ODFW review sheet and Land Use Information Form.

Thank you for your assistance. Please let me know if you have any questions or need additional information related to the amendment.

Sincerely,

Martha O. Pagel

MOP:kdo

DEC 16 2013

SALEM, OR

**D. Reservoir Location**

Township (N or S)	Range (E or W)	Section	quarter/quarter	tax lot number
34S	5W	7	NE SE	1200
34S	5W	7	SE SE	1300
34S	5W	8	NW SW	400
34S	5W	8	SW SW	400

**E. Dam:** Maximum height of dam :   5   feet. If excavated, write "zero feet".

**F. Quantity:** Amount of water to be stored in the reservoir at maximum capacity. List volume in acre-feet:   80.0  

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars)            Yes   x   No

**4. WATER USE**

Indicate the proposed use(s) of the stored water. **NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement.** If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water.

Multipurpose use.

RECEIVED BY OWRD

**5. PROPERTY OWNERSHIP**

Please provide a copy of the recorded deed(s).

DEC 16 2013

Do you own all the land where you propose to divert, transport, and use water?

SALEM, OR

   **Yes** (please check appropriate box below then skip to section 5)

   There are no encumbrances

   This land is encumbered by easements, right of way, roads of way, roads or other encumbrances

  X   **No** (Please check the appropriate box below)

  X   I have a recorded easement or written authorization permitting access.

   I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040). (Do not check this box if you described your use as "Multipurpose" in #3 above.)

List the names and mailing addresses of all affected landowners:

Andreas and Carole Blech, 1867 Williams Hwy. #270, Grants Pass, OR 97527

**6. ENVIRONMENTAL IMPACT**

- A. **Channel:** Is the reservoir:  in-stream or  off channel?
- B. **Wetland:** Is the project in a wetland?  Yes  No  Don't know
- C. **Existing:** Is this an existing reservoir?  Yes  No  
If yes, how long has it been in place? N/A years.
- D. **Fish Habitat:** Is there fish habitat upstream of the proposed structure?  Yes  No  Don't know  
If yes, how much? unknown miles.
- E. **Partnerships:** Have you been working with other agencies?  Yes  No  
Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

Isaac Sanders, Oregon Dept. of Geology & Mineral Industries, 541-967-2081

**7. WITHIN A DISTRICT**

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name N/A	Address	
City	State	Zip

**8. DESCRIPTION**

Provide a description of the design and operation of the proposed diversion, including a description of how live flow will be passed outside the authorized storage season. Use this space for narrative. You may also provide narrative and sketches on separate pages.

Water will be diverted from Grave Creek using a weir or gated control structure. The water will gravity flow in a pipe to Reservoir 4. The reservoir will be excavated into the subsurface and will have a 5-foot-high dam on the low edge (see sketch on the following page).

An approximately 1-foot-tall berm will be constructed on the uphill sides of the reservoir during the period each year when storm-water run-off may not be intercepted for storage. The berm will be breached or removed during the months that run-off can be collected.

The weir or gated structure on the creek will remain closed outside the authorized storage season. Water can be pumped from the reservoir if it must be drained.

RECEIVED BY OWRD

DEC 16 2013

SALEM, OR

If the diversion involves a dam, use this space for sketches of the diversion (e.g. cross-section of the dam with its dimensions, dimension and placement of outlet pipe, means of passing live flow outside of the authorized storage season, and means for providing fish passage).

RESERVOIR 4  
SCALE: 1"=200' H 1"=100' V

THE RESERVOIR WILL BE LOCATED OFF CHANNEL. LIVE FLOWS WILL NOT BE DIVERTED OUTSIDE OF THE AUTHORIZED STORAGE SEASON. THE RESERVOIR CAN BE EMPTIED (IF NEEDED) BY PUMPING WATER OUT FROM THE RESERVOIR.

**Before you submit your application be sure you have:**

- Answered each question completely.
- Included a legible map that includes Township, Range, Section, quarter-quarter and tax lot number.
- The map must meet map requirements to be accepted.
- Included a land use form or receipt stub signed by a local planning official.
- Included a check payable to Oregon Water Resources Department for the appropriate amount.

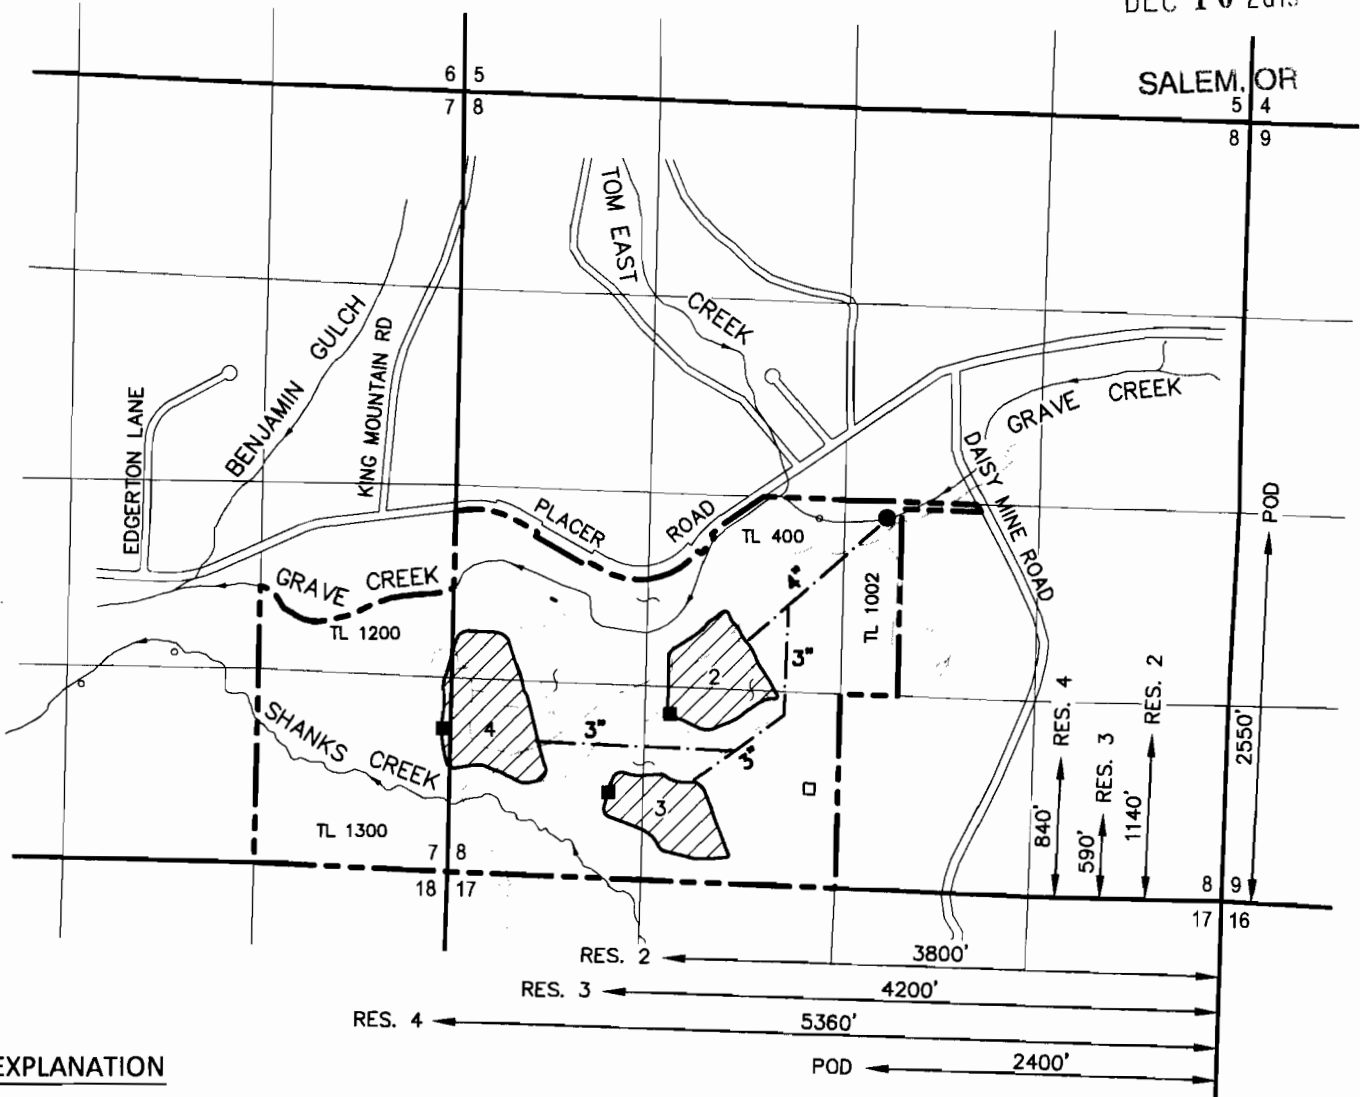

**FEE STRUCTURE:** The fee is based on the number of acre-feet proposed to be stored. The base fee is \$300. In addition, there is a fee of \$25 per acre-foot or fraction thereof. Example: 0.3 AF= \$325; 1.5 AF= \$350; 20.0 AF= \$800; 30.0 AF= \$1050. Plus a permit recording fee of \$400 (this fee is refunded if no permit is issued).

# WATERMASTER ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

**The review of alternate reservoirs is limited to these criteria only.**

Application #: R-

Applicant's Name:

Sunny Valley Sand and Gravel, Inc

1) Does the proposed reservoir have the potential to injure existing water rights?

NO  YES

Explain:

Water is available for storage  
Jan - Feb - Mar

2) Can conditions be applied to mitigate the potential injury to existing water rights?

NO  YES

If YES, which conditions are recommended:

N/A

3) Did you meet with staff from another agency to discuss this application?

NO  YES

# ODFW Alternate Reservoir Application Review Sheet

**This portion to be completed by the applicant.**

Applicant Name/Address/Phone/Email: Sunny Valley Sand and Gravel, Inc.  
1867 Williams Highway #260, Grants Pass, OR 97527; 541-244-2644; andreas@blech.us

Reservoir Name: Reservoir 4 Source: Grave Creek Volume (AF): 80.0

Twp Rng Sec QQ: T34S, R5W, Sec. 7, NE SE & SE SE Basin Name: Rogue River  in-channel  
T34S, R5W, Sec. 8, NW SW & SW SW  off-channel

Note: It is unlikely that ODFW will be able to complete this form while you wait, nevertheless we recommend making an appointment to submit the form so as to provide any necessary clarifications. See pg. 6 of Instructions for contact information.

**This portion to be completed by Oregon Department of Fish and Wildlife (ODFW) District staff.**

- 1) Is the proposed project and AO<sup>1</sup> off channel? .....  YES  NO  
 (if yes then proceed to #4; if no then proceed to #2)
- 2) Is the proposed project or AO located where NMF<sup>2</sup> are or were historically present?.....  YES  NO  
 (if yes then proceed to #3; if no then proceed to #4)
- 3) If NMF are or were historically present:
- a. Is there an ODFW-approved fish-passage plan?.....  YES  NO
  - b. Is there an ODFW-approved fish-passage waiver or exemption?.....  YES  NO

If fish passage is required under ORS 509.580 through .910, then either 3(a) or 3(b) must be "Yes" to move forward with the application. If responses to 3(a) and 3(b) are "No", then the proposed reservoir does not meet the requirements of Oregon Fish Passage Law and shall not be constructed as proposed.

- 4) Would the proposed project pose any other significant detrimental impact to an existing fishery resource locally or downstream?.....  YES  NO  
 Explain below (for example, list STE species or other existing fishery resources that would be impacted negatively.)

Any diversion or appropriation of water for storage during the period Apr:1 through December poses a significant detrimental impact to existing fishery resources. (For example, if diversion of water for storage during a certain time period would cause a significant detrimental impact to an existing fishery resource, then ODFW should recommend conditions or limitations.) If NMF fish are present at the project site or point of water diversion then the applicant should be advised that a fish screen consistent with screening criteria will be required.

- This proposed pond or reservoir contemplates impounding water in the Columbia Basin above Bonneville Dam. ODFW has determined that additional diversions of water in this area pose a significant detrimental impact to existing fishery resources during the period April 15 through September 30.

RECEIVED BY OWRE

DEC 16 2013

SALEM, OR

<sup>1</sup> AO – Artificial Obstruction means any dam, diversion, culvert or other human-made device placed in waters of this state that precludes or prevents the migration of native migratory fish. ORS 509.580 (1)

<sup>2</sup> NMF = Native Migratory Fish Species in Oregon as defined by OAR 635 - 412 - 0005 (32)

Grave Creek provides spawning, rearing, and migration habitat for Federally threatened coho salmon, and State sensitive summer steelhead and Pacific lamprey. Additionally, fall chinook salmon, coastal cutthroat trout and winter steelhead utilize Grave Creek.

There is an instream water right, IS71035A, present on Grave Creek. The purpose of the instream water right is to provide adequate water for spawning, rearing, and migration for the species listed above. OWRD has determined that water would be available for storage during the period January through March. ODFW recommends the applicant only be allowed to divert water during the period January through March if the instream flow requirements are being met.

If YES, can conditions be applied to mitigate the significant detrimental impact to an existing fishery resource?

NO (explain)

YES (select from Menu of Conditions on next page)

Fishdiv33

b51a; the period of use has been limited to January through March.

Date:

Dec 10 2013

NOTE: This completed form must be returned to the applicant.

Use this menu to identify appropriate conditions to be included in the permit, and indicate the abbreviations on the review form:

**fishpass:** As required by ORS 509.585, a person owning or operating an artificial obstruction (AO) may not construct or maintain any AO across any waters of this state that are inhabited, or historically inhabited, by native migratory fish (NMF) without providing passage for NMF. A person owning or operating an AO shall, prior to construction, fundamental change in permit status or abandonment of the AO in any waters of this state, obtain a determination from ODFW as to whether NMF are or historically have been present in the waters. If ODFW determines that NMF are or historically have been present in the waters, the person owning or operating the AO shall either submit a proposal for fish passage to ODFW or apply for a waiver or exemption. Approval of the proposed fish-passage facility, waiver, or exemption must be obtained from the department prior to construction, permit modification or abandonment of the AO. Approved fish-passage plans, waivers, and exemptions shall maintain adequate passage of NMF at all times (ORS 509.601) as per the approved plan, waiver or exemption.

**fishself:** The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional prior to diversion of any water. Permittee shall obtain written approval from ODFW that the installation of the required screen and by-pass devices meets the state's criteria or the permittee shall submit documentation that ODFW has determined screens and/or by-pass devices are not necessary.

**fishapprove:** The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

**fishdiv33:** If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

**fishmay:** Notwithstanding that ODFW has made a determination that fish screens and/or by-pass devices are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices to prevent fish from entering the proposed diversion and to provide adequate upstream and downstream passage for fish.

**b52** Water may be diverted only when Department of Environmental Quality sediment standards are being met.

**b5** The water user shall install and maintain adequate treatment facilities meeting current DEQ requirements to remove sediment before returning the water to the stream.

**b51a** The period of use has been limited to \_\_\_\_\_ through \_\_\_\_\_.

**b57** Before water use may begin under this permit, a totalizing flow meter must be installed at each diversion point.

**b58** Before water use may begin under this permit, a staff gage that measures the entire range and stage between full reservoir level and dead-pool storage must be installed in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I.

**futile call:** The use of water allowed herein may be made only at times when waters from the (NAME OF SURFACE WATER) would not otherwise flow into a tributary of the \_\_\_\_\_ River or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

**riparian:** If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

**wq:** The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

**fence:** The stream and its adjacent riparian area shall be fenced to exclude livestock.

**blv:** Water must be diverted to a trough or tank through an enclosed water delivery system. The delivery system must be equipped with an automatic shutoff or limiting flow control mechanism or include a means for returning water to the stream source through an enclosed delivery system. The use of water shall not exceed 0.10 cubic feet per second per 1000 head of livestock.

# Land Use Information Form

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, Oregon 97301-1266  
(503) 986-0900  
www.wrd.state.or.us

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

**This form is NOT required if:**

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
  - d) The application involves irrigation water uses only.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

## B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water   
  Water Right Transfer   
  Permit Amendment or Ground Water Registration Modification  
 Limited Water Use License   
  Allocation of Conserved Water   
  Exchange of Water

Source of water:  Reservoir/Pond   
 Ground Water   
 Surface Water (name) Grave Creek

Estimated quantity of water needed: 80.0  cubic feet per second   
 gallons per minute   
 acre-feet

Intended use of water:  Irrigation   
 Commercial   
 Industrial   
 Domestic for \_\_\_\_\_ household(s)  
 Municipal   
 Quasi-Municipal   
 Instream   
 Other Multi-purpose \_\_\_\_\_

Briefly describe:

Water will be diverted to the reservoir in the winter and spring, and stored for subsequent multi-purpose use related to proposed sand and gravel mining operations. A pre-application request for a Post-Acknowledgment Plan Amendment (PAPA) has been submitted to the County and has been circulated to review agencies for comment. Upon receipt of remaining agency review comments by 11/8, a complete PAPA application will be filed within 30 days. Additional applications will be filed in connection with any proposed secondary use of the stored water.

**Note to applicant:** If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.
