This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. A request for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either file for judicial review, or petition the Director for reconsideration of this order. Application History

Permit G-15114 was issued by the Department on July 24, 2002. The permit called for complete application of water to beneficial use by October 1, 2006. On January 24, 2013, John & Marlene Bles submitted to the Department an Application for Extension of Time for Permit G-15114. In accordance with OAR 690-315-0050(2), on October 8, 2013, the Department issued a Proposed Final Order proposing to extend the time to complete construction and to fully apply water to beneficial use to October 1, 2016. The protest period closed November 22, 2013, in accordance with OAR 690-315-0060(1). No protest was filed.

Findings of Fact

Except as expressly stated herein, the Department adopts and incorporates by reference the findings of fact in the Proposed Final Order dated October 8, 2013.

Exception to the Proposed Final Order:

Permit G-15114 does not identify a deadline for completing construction of the water system, so no extension of the construction period is needed, although it was requested by the permit holder in the Application for Extension of Time. The proposal in the Proposed Final Order to extend the time to complete construction of the water system is, therefore, not incorporated in this Final Order.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, any comments received, and information within the file, the permit may be extended subject to no additional conditions.

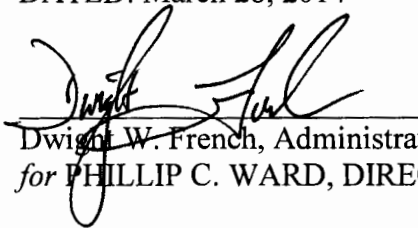

CONCLUSION OF LAW

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.630, 539.010(5) and OAR 690-315-0040(2).

ORDER

The extension of time for Application G-15573, Permit G-15114, therefore, is approved. The deadline for applying water to full beneficial use within the terms and conditions of the permit is extended from October 1, 2010, to October 1, 2016.

DATED: March 28, 2014
