Dear Madam:

According to the terms of your Permit No. 22266, which is for the appropriation of 0.375 second-feet of water from Beaverton Creek complete application of water was to have been made on or before October 1, 1956. It appears from our records that you have failed to submit the notice of complete application, although a notice, calling this matter to your attention, was mailed to you on September 27, 1956.

ORS 537.260 provides: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancellation of the permit.***"

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water, after which we will take up with you the matter of final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be canceled without the necessity for following the legal procedure.
