WATERMASTER ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.

RE: Alternative Reservoir Application – Return for additional information

SALEM, OR

Dear Applicants,

On May 27, 2014 the Department received your application for a Reservoir Permit under the Alternative Review Process. The Department has determined that your application was incomplete and the following additional information and clarification is necessary before it can be filed:

1. Your application did not include the legal description of your property. The legal description for your property should be included as part of your deed. Please include a copy of the description when you resubmit the application.
2. The application is only signed by Ralph. If your intention is to also have April listed as a permit holder, she will need to sign the application.
3. The map does not indicate the scale that it is drafted at. The map must be at a standard even scale such as 1" = 400', or 1" = 1000'. We have enclosed a copy of your original map reduced to a scale of 1" = 1000' that can be used for your application map. Please verify the scale prior to submitting your application.
4. The map must indicate coordinates from a reference corner to the dam. For example, the distance north and west from the center of the section, or the distance south and east from the NW corner of the section.

Once these items have been addressed, the application and check in the amount of \$890.00 can be re-submitted to the Department.

Please find enclosed your original application materials and check in the amount of \$890.00.

If you have any questions, please feel free to contact me at 503-986-0811.
