JAMES WILLIAM VOTTO
93905 PIKE LN
LAKEVIEW OR 97630

Reference: File G-17857

Dear Applicant:

Enclosed find your Emergency-Use permit, which authorizes temporary use of water. This permit expires at the end of the irrigation season or when the Governor's February 13, 2014 declaration of drought emergency for Lake County is terminated, whichever comes first.

The evaluation process and standards for an Emergency-Use permit differ significantly from those of a permanent permit. The evaluation process prescribed by rule allows the Department to consider only short-term impacts on the resource as opposed to long-term impacts. If you are interested, you may choose to apply for a permanent permit, but the Department may not be able to issue one.

The Department also cannot guarantee the issuance of any Emergency-Use permit in the future. When a drought is declared, the Department evaluates emergency-use applications on a case-by-case basis, regardless of whether an Emergency-Use permit has been issued in the past.

Please weigh these considerations carefully in making economic decisions regarding any new well(s) or deepenings you have proposed. If the attached short-term permit authorizes a new well or deepening, you may not be able to use the well after the drought, thus you may not be able to recover your investment.

Should you have any questions, please call me at 503-986-0891.

Sincerely,

E. Timothy Wallin
Water Rights Program Manager

Final Order

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law.

Authority

Oregon Revised Statutes 536.700 - 536.780 and Oregon Administrative Rules 690-019 establish the process by which the Department can allow temporary emergency-use permits.

Findings of Fact

1. On May 12, 2014, James William Votto submitted an application to the Department for an emergency-use permit.
2. The Department has not received adverse comments related to the possible issuance of the attached permit.
3. The Department completed a review of the application in accordance with OAR 690-019-0040.
4. Drought conditions have created an inability on the part of the applicant to obtain water under existing Certificate 85839.
5. The use is proposed in a designated drought area according to the Governor's February 13, 2014 Executive Order 14-01.
6. The required examination and recording fees were paid.
7. The Department considered the factors described in OAR 690-310-0130 and finds that:
 - (a) The proposed use requested in this application is allowed in the Goose and Summer Lakes Basin Program;
 - (b) Groundwater is available in the amount requested for this emergency, temporary use;
 - (c) The proposed use will not injure other water rights; and

(d) The proposed use complies with other rules of the Commission.

8. The Department has also considered the need for water because of the drought emergency and the short-term nature of the proposed emergency use and has determined that the use would not impair or be detrimental to the public interest.

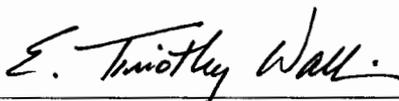

Conclusions of Law

The application will not cause injury to existing water rights and will not impair or be detrimental to the public interest (OAR 690-019-0040(3)).

Order

Now therefore, it is ordered, Application G-17857 is hereby approved and Permit G-17258 is issued as limited by the conditions contained therein.

DATED June 11, 2014

E. Timothy Wallin, Water Rights Program Manager
for Phillip C. Ward, Director
