Date water use will begin 1st July 2014 (earliest)

JUN 05 2014

Date project will be completed 1st November 2018 (latest)

SALEM, OR

Date water use will be completed 1st November 2018 (latest)

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars) Yes No

PLEASE READ CAREFULLY

NOTE: A completed water availability statement from the local watermaster, Land Use Information Form completed by the local Planning Department, fees and site map meeting the requirements of OAR 690-340-030 must accompany this request. The fee for this request is \$250 for the first point of diversion plus \$25 for each additional point of diversion. Please review the Department's fee schedule to view fees required to request a limited license for Aquifer Storage and Recovery testing purposes or for Artificial Groundwater Recharge testing purposes.

Failure to provide any of the required information will result in return of your application. The license, if granted, will not be issued or replaced by a new license for a period of more than five consecutive years. The license, if granted, will be subordinate to all other authorized uses that rely upon the same source, or water affected by the source, and may be revoked at any time it is determined the use causes injury to any other water right or minimum perennial streamflow.

If water source is a well, well logs or adequate information for the Department to determine aquifer, well depth, well seal and open interval, etc. are required. The licensee shall indicate the intended aquifer. If for multiple wells, each map location shall be clearly tied to a well log.

If a limited license is approved, the licensee shall give notice to the Department (Watermaster) at least 15 days in advance of using the water under the Limited License and shall maintain a record of use. The record of use shall include, but need not be limited to, an estimate of the amount of water used, the period of use and the categories of beneficial use to which the water is applied. During the period of the Limited License, the record of use shall be available for review by the Department upon request.

REMARKS:

The water will be sourced, diverted, conveyed and used exclusively on Federal land. As such a Land Use Information Form has not been completed.

Cleopatra Check Drilling Program

JUN 05 2014

DESCRIPTION OF PROPOSED PROJECT

SALEM, OR

Water is required for a mineral exploration drilling operation of limited duration in Summer 2014 to Fall 2018. The exact timing of the drilling program is subject to receipt of permission from the US Forest Service which administers the Federal land upon which the project is located. The project is located within Curry County, Oregon within the Siskiyou National Forest and is contained within T40S R10W, T41S R10W and T41S R11W according to the Public Land Survey System.

Water will be sourced from an unnamed tributary to Taylor Creek. The unnamed tributary bisects the eastern portion of the mining claim property, and is located along the eastern edge of the claim block. (See Figure 1 overleaf) at approximately 42.024° N and 123.910° W (NAD27 Northing 149,152 and Easting 3,994,812) or approximately **75 feet West and 150 feet North of the SE corner of Section 6 T41S R10W.**

Water from the tributary will be collected in a 1 1/4 inch submerged plastic feed pipe (proximal to the boundary between claims 30 and 41 based upon actual water availability at the time) and fed by gravity away from the creek to a 200 gallon water storage tank located at least 200 feet away from the creek, and slightly downhill. Water will then be pumped from the holding tank up to one of three water storage bladders through 1 1/4 inch PVC piping. The pump will be a 4 inch submersible pump powered by a 8 hp diesel generator unit.

Figure 2 Water sourcing layout

In this manner, the pump and generator are located a safe distance from the active tributary stream. Any potential spill of fuel or lubricant would occur at distance from the watercourse, and could be cleaned up without risk to surface waters. (See below for spill prevention measures and emergency spill response procedures).

NOTE TO APPLICANTS

SALEM, OR

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
