Certificate of Water Right Ownership Update

NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public (ORS 537.110). In almost every instance, a permit or water right certificate from the Water Resources Department is needed before using, diverting or storing water (ORS 537.130). However, most domestic wells do not require water rights. A certificate of water right stays with the land. In order to keep track of water right ownership, the Department requests that this form be submitted to the Department. ***If for multiple rights, a separate form for each right will be required.***

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 503-986-0900.

**Re: Springfield Utility Board request for update to files associated with
Water Right Certificate No. 45302**

Dear Mr. Sauter:

Rainbow Water District supports the Springfield Utility Board's ("SUB") request that the Oregon Water Resources Department update its files and online Water Rights Information System to identify SUB as a holder of Certificate 45302. SUB owns a 50 percent interest in Well No. 5 but does not have any rights or interests in the other wells authorized under Certificate 45302.

If you have any questions, please feel free to contact me by email at jamie@RWDonline.net or by telephone at 541-746-1676.

Sincerely,

Jamie Porter

Re: Ownership Update Form for Water Right Certificate No. 45302

Dear Mr. Sauter:

The Springfield Utility Board ("SUB") has undertaken a multi-year effort to review its water rights and, when appropriate, update or correct information on file with the Oregon Water Resources Department ("OWRD"). By this letter and enclosed ownership update form, SUB requests that OWRD update its files and online Water Rights Information System to identify SUB as a holder of Certificate 45302. SUB owns a 50 percent interest in Well No. 5 but has no rights or interests in the other wells authorized under Certificate 45302. Rainbow Water District supports this request, as evidenced by the enclosed letter.

This request does not arise from a recent change in ownership. SUB has owned a 50 percent interest in Well No. 5 since December 16, 1964. This request will ensure that SUB receives notices from OWRD regarding issues that may affect Certificate 45302.

Please feel free to contact me if you have any questions.

Sincerely,

Ray Meduna
Director, Water Engineering/Operations
