# Certificate of Water Right Ownership Update

## NOTICE TO SELLERS & BUYERS:

By law, all water belongs to the public (ORS 537.110). In almost every instance, a permit or water right certificate from the Water Resources Department is needed before using, diverting or storing water (ORS 537.130). However, most domestic wells do not require water rights. A certificate of water right stays with the land. In order to keep track of water right ownership, the Department requests that this form be submitted to the Department. ***If for multiple rights, a separate form for each right will be required.***

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the Water Resources Department at 503-986-0900.

*Note: Please type or print legibly when filling in the following information. Use additional paper if necessary.*

Dear Sir or Madam:

This letter is in reference to Water Right #6222 in the name of Charles and J.M. Ereno. The Bureau of Land Management (BLM) desires a name change on the Certificate of Water Right Ownership to reflect BLM as the owner of the reservoir and the property it is located on.

Please find enclosed a completed Certificate of Water Right Ownership Update and an associated map showing the BLM's ownership.

Sincerely,

Richard Roy  
Three Rivers Resource Area Field Manager
