PERMIT No. 17138

October 24, 1952

Mrs. Mattie Cieslak
1263 N. Church
Salem, Oregon

Dear Mrs. Cieslak:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 17138.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the amount of water used as described in the permit, including the acreage actually irrigated. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. Any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right.

Very truly yours,

Chas. E. Stricklin

Dear Madam:

On September 8, 1960, a representative of this office inspected the property in connection with the incomplete water right represented by Permit No. 17138. This permit described the appropriation of 0.68 cubic foot of water per second from an unnamed stream and spring for irrigation, domestic, stock, and operation of ram.

According to the report of our field engineer who talked to Mr. Leo Cieslak, some use of water was made sometime before 1955, but the stream does not supply sufficient water for irrigation. Mr. Cieslak also stated that the ram was once installed, but has not been used for at least the last five years.

According to the terms of the permit, complete application of water to beneficial use as described in the permit was to have been made by October 1, 1952. According to the field engineer's report, proof of appropriation of water has not been made.

ORS 537.260 provides, "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 after 60 days' notice by registered mail, ***"

of ORS 537.260 you are hereby notified official use of water was made prior to since that date, within 60 days from the be cancelled without further notice.

Truly yours,

A. STANLEY

REPORT OF PERSON MAKING INSPECTION

Description of works: _____

Talked to Leo Cieslak, son & part owner in farm. -
He stated that no irrigation has ever been done from
unm. stream because of lack of water. Some time
ago $\pm$ 2 ac. was irrigated from the spring which
was also used for the house as applied for.
The ram was installed at the spring but no one
has lived in the house for at least the past
5 years & he doubts if the ram ^{even} works ~~any~~ anymore.
He stated that no use of water from spring
or creek has been made since 1955 or before.
I advised him that this permit would be
cancelled due to non-use, & he agreed that
it should be cancelled. Did not talk to Hettie
Cieslak, as her son has been doing what little
farming has been done since 1946. Her address is
still the same as shown on front of form.
