WATER RESOURCES DEPT
SALEM, OREGON

APPLICATION PROCESS DESCRIPTION FOR GROUNDWATER, SURFACE WATER AND REGULAR RESERVOIR APPLICATIONS

In order to take and use the waters of Oregon, a citizen must first obtain a permit from the Water Resources Department. The water must be used for beneficial purpose - without waste. To become well-informed about water right topics, weekly public notice, forms and fees please visit our web site at www.wrd.state.or.us

1. Pre-application considerations

- follow instructions in the application packet
- if you have questions about completing an application or would like to arrange a pre-application conference contact the Department's Water Rights Information Group (WRIG) at 503-986-0801

2. Application filing

- application with fee is received by the Department
- Department determines completeness of application
- if use is not allowed by statute (ORS 538), the application and fees are returned to the applicant
- incomplete application and fees are returned to the applicant
- only a complete application receives a tentative priority date, is assigned a caseworker, and moves forward for processing

3. Initial Review (IR)

- caseworker reviews application by considering basin plans, water availability, statutory restrictions and all other appropriate factors
- caseworker sends IR report to applicant
- contact the caseworker if you have questions about the IR
- seven days after date of the IR, it is included in Department's weekly Public Notice
- public comments must be submitted within 30 days after the Public Notice
- **administrative hold** may be requested in writing by applicant

Stop Processing deadline is within 14 days of Initial Review - use the form below

- applicant may request no further action and fee refund of all but \$50

STOP PROCESSING REQUEST FOR GROUNDWATER, SURFACE WATER AND REGULAR RESERVOIR APPLICATIONS

Applicant notification to withdraw Water Right Application # 5-86194

After reviewing the Initial Review for my application, I request that processing be stopped and the fees be refunded (minus a \$50 examination fee.) I understand that without a valid permit I may not legally use the water as requested in my application

Signature T. J. McMull date 4/19/05

Signature _____ date _____

Under ORS 537.150 (5) and 537.620 (5) timely submission of this request authorizes that the water right application process be stopped and all filing fees (except \$50 examination fee) be returned.

This notice must be received at Water Resources Department by Friday April 29th 2005

Return the notice to: OWRD, Water Rights Division

STOP PROCESSING

725 Summer Street, NE - Suite A

Salem OR 97301-1271

SPOV 64 Pg 308

4. Proposed Final Order (PFO)

- caseworker evaluates application against required criteria and develops draft permit, if appropriate
- PFO includes instructions for filing of protests
- caseworker considers public comments and mails PFO to applicant
- the PFO is included in Department's weekly Public Notice
- public protests to the PFO must be submitted within 45 days after the Public Notice

5. Final Order (FO)

- if no protest is filed, Final Order is issued

The protest process

If one or more protests are filed, permit process consists of:

- settlement discussion
- contested case hearing
- proposed order
- period of time to file exceptions
- possible hearing by Water Resources Commission
- final order issued

Permit holder responsibilities

- comply with all water use conditions of the permit
- advise Department of address change or assignment to new permit holder
- if need arises, request extension of time or authorize cancellation of permit
- submit timely claim of beneficial use (COBU) to Department
- most permits require COBU to be prepared by a Certified Water Right Examiner
- permits may be canceled by the permit holder or by the Department for failure to comply with or one or more permit conditions

RE: File S-86194

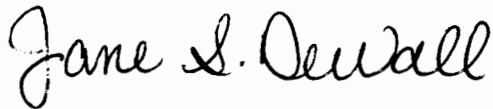

Thank you again for answering questions concerning application S-86194 in the name of Terry McMullen and Premier RV Park.

With the recent Muddy Creeks board meeting and investigation of the proposed water right application we have additional comments to be made in the comment files associated with this application.

Muddy Creeks Irrigation Project does not have a system in place to deliver water to this location if a water right would be granted for permit S-86194. The irrigation project does not have the pump, means or ability to get water to the location listed in this permit. For this reason, the Muddy Creeks Irrigation Project would ask that you deny the application S-86194. The Project will not be supplying water to this property from the irrigation canal.

Please keep us informed on future decisions made for the application.

Sincerely,

Jane S. DeWall
Secretary

Oregon

Harrisburg, OR 97446

REFERENCE: FILE NO. S-86194

Dear Ms. DeWall,

Thank you for your comments regarding Premier RV Park, Terry McMullen's application. Your comments will be taken into consideration at the next phase of processing for this file.

Your letter also notes that Muddy Creeks Irrigation Project would like to be noted on any permit issued for this application. Unfortunately, the Department cannot add Muddy Creeks as an applicant without Mr. McMullen supplying a request for assignment. Muddy Creeks is considered an 'affected land owner', and as such would be entitled to notification of each phase of processing. In addition, Premier RV Park would not be allowed to use water without an easement or written authorization from Muddy Creeks Irrigation Project as the transport medium.

I'm enclosing a request for assignment form for either Muddy Creeks or Mr. McMullen to complete to add Muddy Creeks as an applicant to file S-86194. Mr. McMullen would have to sign the form in order for the assignment to be completed.

If you have any questions, please feel free to contact me at 503-986-0815 or via email at Anita.M.HUFFMAN@wrp.state.or.us.

Sincerely,

Anita Huffman

RE: File S-86194

Thank you for the information on application S-86194 in the name of Terry McMullen.

Muddy Creeks Irrigation Project would like to go on record stating the only possible way of getting water to Mr. McMullen would be through the Muddy Creeks canal. Since the water would have to be pumped by Muddy Creeks Project at the McKenzie River, we would like to be named on the permit. The project would charge Mr. McMullen for the delivery of the water at the current rates charged to other irrigation users in the project. This would be the only way the project could recover the expense of moving water down the ditch to this location.

I am also sending Mr. McMullen a copy of this letter. I would appreciate you keeping me updated on the progress of this permit.

Sincerely,

Jane S. DeWall

EUGENE, OR 97408

Reference: File S-86194

Dear Applicant:

**THIS IS NOT A PERMIT AND IS
SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.**

This letter is to inform you of the preliminary analysis of your water use permit application and to describe your options. In determining whether a water use permit application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

Initial Review Determinations:

1. The proposed use is not prohibited by law or rule except where otherwise noted below.
2. The use of water from MCKENZIE RIVER, A TRIBUTARY OF WILLAMETTE RIVER for IRRIGATION USE ON 17.6 ACRES **IS NOT a classified use** under OAR 690-502-080(1)(e), the Willamette Basin Program.
3. Water in the amount of 0.22 CUBIC FOOT PER SECOND for IRRIGATION USE ON 17.6 ACRES **is available** March 1 through October 31, however, because the use is not classified as described above, the use may not be allowed.

Summary of Allowable Water Use

Because item #2 above is unfavorable, the use of 0.22 CUBIC FOOT PER SECOND of water from MCKENZIE RIVER, A TRIBUTARY OF WILLAMETTE RIVER for IRRIGATION USE ON 17.6 ACRES is not allowable, and it appears unlikely that you will be issued a permit. At this time, you must decide whether to proceed or to withdraw your application as described below.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **Friday, April 29, 2005**. For your convenience you may use the enclosed "STOP PROCESSING" form.

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. Measurement, recording and reporting conditions:
 - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
 - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.
2. You may be required to install fish screens at the diversion to meet Oregon Department of Fish and Wildlife specifications for adequate protection of aquatic life.
3. The tentative priority date for this application is March 9, 2005.

WARNING: This initial review does not attempt to address various public interest issues such as sensitive, threatened, or endangered fish species. These issues will be addressed as the

Department reviews public comments and prepares a proposed final order. You should be aware that, if significant public interest issues are found to exist, such a finding could have an impact on the eventual outcome of your application.

The water source identified in your application may be affected by an Agricultural Water Quality Management Area Plan. These plans are developed by the Oregon Department of Agriculture (ODA) with the cooperation of local landowners and other interested stakeholders, and help to ensure that current and new appropriations of water are done in a way that does not adversely harm the environment. You are encouraged to explore ODA's Water Quality Program web site at http://www.oda.state.or.us/nrd/water_quality/index.html to learn more about the plans and how they may affect your proposed water use.

If you have any questions:

Questions about the status of your application, processing timelines, or your upcoming Proposed Final Order should be directed to our customer service staff at 503-986-0801. Feel free to call me at 503-986-0815 if you have any questions regarding the contents of this letter. Please have your application number available if you call. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1271, Fax: 503-986-0901.

Sincerely,

A handwritten signature in black ink, appearing to read 'Anita M. Huffman', with a long horizontal flourish extending to the right.

The purpose of this checklist is to be used as a working document by Department staff to aid in the production of the related Initial Review, Proposed Final Order, or Final Order. It is not intended to be a complete record of all factors which were considered to produce the document, nor is it intended to serve any purpose other than that stated above. The related Initial Review, Proposed Final Order, or Final Order is intended to stand alone as the record of factors considered in its production.

690-502-0080**McKenzie River Subbasin**

The McKenzie River Subbasin includes the McKenzie River and tributaries above confluence with the Willamette River:

(1) Surface water classification:

(a) The McKenzie River from Clear Lake to Carmen Reservoir, from Tamolitch Falls to Trail Bridge Reservoir and from Trail Bridge Dam to Paradise Campground is designated a state scenic waterway. The McKenzie River and tributaries above Paradise Campground near river mile 73 (Sec 9, T16S, R6E) are classified only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses;

(b) The South Fork McKenzie River from the Three Sisters Wilderness boundary downstream to Cougar Reservoir and from Cougar Dam downstream to the confluence with the McKenzie River is designated a state scenic waterway. The South Fork McKenzie River and its tributaries are classified only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses;

(c) Blue River upstream from its confluence with the McKenzie River and tributaries are classified year-round only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses;

*Muddy
oil + litter
Muddy
only*

(d) Except as specified in subsections (a), (b), and (c) of this section, all tributaries to the McKenzie River are classified for domestic, livestock, municipal, industrial, irrigation, agri-cultural, commercial, power, mining, fish life, wildlife, recreation, pollution abatement, wetland enhancement and public instream uses from October 1 through June 30, and only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses from July 1 through September 30;

*below
SWIS*

(e) Except as specified in subsection (a) of this section, the McKenzie River main stem down-stream from Paradise Campground near river mile 73 (Sec 9, T16S, R6E) is classified only for domestic, livestock, municipal, industrial, agricultural, commercial, power, mining, fish life, wildlife, recreation, pollution abatement, wetland enhancement, off-channel power development in conjunction with storage and public instream uses;

(f) The waters of the natural lakes of the McKenzie River subbasin above 3,000 feet elevation are classified only for domestic, excluding irrigation of lawn and noncommercial garden, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses. Storage shall not be allowed on these lakes.

(2) For the purpose of maintaining a minimum perennial streamflow sufficient to support aquatic life and to minimize pollution and of attaining the highest and best use of waters released from storage, no appropriations of water except for domestic or livestock uses or waters to be locally stored or locally released from storage shall be made or created by any state agency or public corporation of the state for the

to be legally stored or legally released from storage shall be made or granted by any state agency or public corporation of the state for the following waters and as shown in **Table 1**:

- (a) The South Fork McKenzie River or its tributaries above the South Fork McKenzie River -- McKenzie River confluence for natural flows of the South Fork McKenzie River below 200 cubic feet per second, plus waters released from storage of up to 230 cubic feet per second measured at a point between said confluence and 1.0 miles above said confluence;
- (b) Blue River or its tributaries above the Blue River -- McKenzie River confluence for natural flows of Blue River below 30 cubic feet per second, plus waters released from storage of up to 350 cubic feet per second measured at a point between said confluence and 1.0 miles above said confluence;
- (c) The McKenzie River or its tributaries above USGS -- State Engineer Gage 14162500 (NE 1/4 Section 5, Township 17 South, Range 3 East) near Vida, Oregon, for natural flows of the McKenzie River below 1,400 cubic feet per second plus waters released from storage of up to 580 cubic feet per second measured at the aforementioned gage;
- (d) The McKenzie River or its tributaries above the intersection of the McKenzie River and Interstate Highway 5 for natural flows of the McKenzie River below 1,025 cubic feet per second, plus waters released from storage of up to 700 cubic feet per second, measured at the intersection of the McKenzie River and Interstate Highway 5.

B. Property Ownership

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 3 "Water Use.")
- No Please check the appropriate box below.
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or an easement permitting access.
 - Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

RECEIVED
MAR 09 2005
WATER RESOURCES DEPT
SALEM, OREGON

List the names and mailing addresses of all affected landowners.

Muddy Creek Irrigation Project-32255 Bowers Drive, Harrisburg, OR 97446

3. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express the amount of water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach Form **I**
- If your proposed use is **mining**, attach Form **R**
- If your proposed use is **municipal or quasi-municipal**, attach Form **M**
- If your proposed use is **commercial/industrial**, attach Form **Q**

B. Amount of Water

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

Source	Use	Amount	
McKenzie River	Irrigation	98.74	<input type="checkbox"/> cfs <input checked="" type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af

C. Period of Use

Indicate the time of year you propose to use the water: March 1 - October 31
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

D. Acreage

If you will be applying water to land, indicate the total number of acres where water will be applied or used: 17.6 acres
(This number should be consistent with your application map.)

4. WATER MANAGEMENT

A. Diversion

What method will you use to divert water from the source?

- Pump (give horsepower and pump type) _____
- Head-gate (give dimensions) See attachment
- Other means (describe) See attachment

RECEIVED
 MAR 09 2003
 WATER RESOURCES DEPT
 SALEM, OREGON

B. Monitoring

How will you monitor your diversion to be sure you are within the limits of your water right (allowed rate and duty) and you are not wasting water?

- Weir
- Meter
- Periodic Sampling
- Other (describe) _____

Diversion will be screened to prevent uptake of fish and other aquatic life. Describe planned actions: NA. Premier RV will contractually have the Muddy Creek Irrigation District pump water from the McKenzie River.

Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Describe planned actions: No new excavation will be required on the McKenzie River.

Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe: NA

Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe: NA

Other: _____

6. PROJECT SCHEDULE

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin November 2004

Proposed date construction will be completed November 2004

Proposed date beneficial water use will begin November 2004

[Handwritten signature]

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

Please see attachment 7.

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

Signature of Applicant (If more than one applicant, all must sign.)

1/6/05

Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount. The Department's fee schedule can be found at www.wrd.state.or.us or call (503) 986-0900.

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed points of diversion and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

WATER RESOURCES DEP
SALEM, OREGON

4.A-Diversion

The Muddy Creek Irrigation Project will divert water from the McKenzie River to the Muddy Creek Irrigation Channel where applicant will pump to site.

4.C.-Transport

The Muddy Creek Irrigation Project has verbally agreed to contractually pump water into the Muddy Creek irrigation canal. The canal is approximately 3 feet deep and 12 feet wide. Once water is transported to the site, the water is transported on the site by pipe as follows:

Approximate Lengths of Pipe:

3.0" Main line-1,700 ft.

1.5" Supply line- 700 ft.

1.0 " line to individual heads- 7,000 ft.

7.0- Remarks

This proposal for a surface water right on the McKenzie River is supplemental to primary surface water rights S-28696 and S-37481. These primary surface water permits are for waters of Muddy Creek, which does not naturally supply enough water for the necessary irrigation of the Premier RV site. The Muddy Creek Irrigation Project, under their own permit, currently pumps water into the Muddy Creek irrigation canal. We propose to obtain a supplemental surface water right on the McKenzie River and have the Muddy Creek Irrigation District contractually pump water into the Muddy Creek irrigation canal for irrigation of the Premier RV site.

SALEM, OREGON

Oregon Water Resources Department

FORM I FOR IRRIGATION WATER USE

RECEIVED
FEB 09 2005
WATER RESOURCES DEPT
SALEM, OREGON

1. Please indicate whether you are requesting a primary or supplemental irrigation water right.

Primary Supplemental

If supplemental, please indicate the number of acres that will be irrigated for each type of use.

Primary: _____ Acres

Secondary: 17.6 Acres

List the permit or certificate number of the primary water right: No. S-37481 and S-28696

2. Please list the anticipated crops you will grow and whether you will be irrigating them for a full or partial season:

1. Landscaping for RV Park Full season Partial season (from: March 1 to October 31)

2. _____ Full season Partial season (from: _____ to _____)

3. _____ Full season Partial season (from: _____ to _____)

4. _____ Full season Partial season (from: _____ to _____)

3. Indicate the maximum total number of acre-feet you expect to use in an irrigation season:

44 acre-feet

(1 acre-foot equals 12 inches of water spread over 1 acre, or 43,560 cubic feet, or 325,851 gallons.)

4. How will you schedule your applications of water? Will you be applying water in the evenings, twice a week, daily?

Daily during daytime hours Daily during nighttime hours

Two or three times weekly during daytime Two or three times weekly during nighttime

Weekly, during daytime hours Weekly, during nighttime hours

Other, explain: As needed during nighttime hours to maintain lawns and shrubs.

app # 586194

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): A-133, Art. VII.C. Go to section B "Approval" below.
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

 Signature: Ashley DeForest

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.

Receipt for Request for Land Use Information

Name of applicant: _____

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included with the application filed with the Water Resources Department if the local government cannot provide the requested land use information while the applicant waits.

City or County: _____
 Staff contact: _____ Phone: _____
 Signature: _____ Date: _____

MAY 09 2005
 WATER RESOURCES DEPT
 SALEM, OREGON

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. WRD will use this and other information to evaluate the water use application. THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water right transfer, allocation of conserved water, or exchange and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm use zone.

To Be Completed By Applicant

This section must be completed by the individual or group that is filing an application with the Water Resources Department. Attach a copy of the map from the application to this form.

A. Applicant

Name: Premier RV Park

Address: 33022 Van Duyn Road

City: Eugene State: OR Zip: 97408 Day Phone: 541-686-3152

B. Land and Location

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

STATE OF OREGON
COUNTY OF LANE
CERTIFICATE OF WATER RIGHT

This Is to Certify, That **VIRA CORPORATION**
by **ROBERT O. DAVIS**

of 1204 Patterson Towers, Eugene, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Little Muddy Creek

a tributary of Willamette River for the purpose of irrigation of 10.0 acres

under Permit No. 28696 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 28, 1963

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.13 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ as projected within Thomas DLC 60, Section 33, T. 16 S., R. 3 W., W. M. Diversion point located 580 feet South and 30 feet West from NW Corner, Swearingin DLC 37.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

3.2 acres SE $\frac{1}{4}$ NE $\frac{1}{4}$
6.8 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$
both as projected within Thomas DLC 60
Section 33
