

**Oregon Water Resources Department
Water Right Services Division**

Water Rights Application
Number G-17713

Final Order

Hearing and Appeal Rights

Under the provisions of ORS 537.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 537.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the modifications to the Proposed Final Order may be addressed.

ORS 536.075 allows for additional appeal rights for other than contested case. This is a Final Order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the Final Order is not subject to judicial review.

Application History

On August 15, 2013, Tyler Spurgeon and Dow Agrosiences submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on May 27, 2014. The protest period closed July 11, 2014, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest, but the Department's continuing evaluation reveals that the Proposed Final Order requires modification to correctly describe the point of appropriation.

On July 28, 2014, the applicant reinstated Site Well (CLAC 2123/L111238) and removed High Cap Well (CLAC 69525/L111239) as a point of appropriation. Site Well (CLAC 2123/L111238) meets all required well construction standards.

Order

Application G-17713 therefore is approved with the above modifications to the Proposed Final Order, and Permit G-17284 is issued as limited by the conditions set forth therein.

DATED August 7, 2014

E. Timothy Wallin

E. Timothy Wallin, Water Rights Program Manager
for Director, Water Resources Department

This document was prepared by Kim French-Gorski. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me at 503-986-0816.

If you have questions about how to file a protest or a request for standing, please refer to the section in this Final Order entitled "Hearing and Appeal Rights". If you have previously filed a protest and want to know its status, please contact Patricia McCarty at 503-986-0820.

If you have other questions about the Department or any of its programs please contact our Customer Service Group at 503-986-0801.
