Water-Use Permit Application Processing

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law.our). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR), containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

SECTION 5: WATER MANAGEMENT

SALEM, OR

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

 Pump (give horsepower and type): 5 HP CENTRIFUGAL Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. THE PUMP WILL BE SET ON A PAD AT THE TOP OF THE RIVER BANK. LOST CREEK RESERVOIR WATER WILL PUMPED THROUGH AN O.D.F.W. APPROVED FISH SCREEN AND SUCTION PIPE TO THE PUMP. FROM THE PUMP WATER WILL BE PUMPED THROUGH BURIED MAIN LINES AND LATERAL LINES.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) A SOLID SET SYSTEM USING A CONTROLLER WITH TIMED ZONES, ONE ZONE RUN AT A TIME, WILL BE INSTALLED. C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters. THE LAND WILL BE IRRIGATED DURING THE NIGHT TIME TO PREVENT EVAPORATION. BY USING THE TIMED SYSTEMS RUNNING JUST ONE ZONE AT A TIME THE WATER CAN BE LIMITED AS TO NOT ALLOW RUN-OFF BACK INTO THE RIVER. A METER WILL BE INSTALLED TO MEASURE THE AMOUNT OF WATER DIVERTED.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

Diversion will be screened to prevent uptake of fish and other aquatic life.
Describe planned actions: O.D.F.W. APPROVED FISH SCREEN

Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.
Describe planned actions: THERE WILL BE NO CLEARING OR EXCAVATION NEEDED ON THE RIVER BANK. THE PUMP WILL BE SET IN AN AREA THAT IS NATURALLY CLEAR WITH ONLY THE SUCTION PIPE AND FISH SCREEN IN THE RIVER.

Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.
Describe: THE ONLY EQUIPMENT IN THE RIVER WILL BE THE SUCTION PIPE RUNNING FROM THE PUMP TO THE FISH SCREEN AND THE FISH SCREEN. THERE WILL BE NO DAMAGE TO AQUATIC LIFE.

Water quality will be protected by preventing erosion and run-off of waste or chemical products.
Describe: THE IRRIGATION ZONES WILL BE RUN USING A CONTROLLER ALLOWING ONE ZONE TO BE RUN AT A TIME. THE TIMING FOR EACH ZONE WILL BE SET AS TO NOT ALLOW WATER TO RUN-OFF INTO THE RIVER.

NOTE TO APPLICANTS

SALEM, OR

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
