

Oregon Water Resources Department
Water Rights Division

Notice of Existing Reservoir
Number P-82267

Reservoir Mitigation Order

Application History

A reservoir was constructed prior to January 1, 1995. As evidence of the right to store water, pursuant to ORS 537.405(2)(a), notice of existing reservoir was submitted.

Pursuant to ORS 537.405(4)(b) the Department has received information demonstrating that the reservoir results in injury to an existing water right.

ORS 537.405(7) specifies that "...the director shall require the owner of the reservoir to take appropriate action to mitigate injury to existing water rights or impact to the existing fishery resource."

Therefore, the Department has determined that with the following additional mitigation condition(s), the injury to existing water rights and/or detrimental impact to existing fishery resources, described above, will be mitigated.

Order

If required by the Watermaster, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted on pond Number 34. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Pond number 34 may be filled one time only per year. No diversion of water to storage can occur during times all water rights are not met on Hoover Creek and lower distributaries.

Therefore, pursuant to ORS 537.405, the use evidenced by notice of existing reservoir number P-82267, shall be allowed to continue if the injury/negative impact of the reservoir is mitigated as described above.

DATED January 16, 1998

Martha O. Pagel
Director
