NOTICE OF BEGINNING OF CONSTRUCTION

m. B.

I, The Golden Valley Improvement District, the holder of Permit No. 30884

to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 15 day of May, 1966.

RECEIVED
MAY 19 1966
DIVISION OF WATER RESOURCES

Remarks: Contractor Mr. Chris Pammann to clean ditch belonging to Scio irrigation district, this completes our agreement with that district and brings water to a point NE corner of section 15.

The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 8 day of JUNE, 1966

Christie
(Signature of Applicant)

Rt 3 Box 269 Scio
(Address)

Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when construction work is begun.

***APPLICATION FOR PERMIT**

To appropriate the Public Waters of the State of Oregon

I, Golden Valley Irrigation District (C. T. Christie, Agent)
(Name of applicant)

of Rt. 3, Box 269, Scio
(Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation (This will be done)

1. The source of the proposed appropriation is Crabtree Creek
(Name of stream), a tributary of South Santiam River

2. The amount of water which the applicant intends to apply to beneficial use is 4.875
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located N. 4° E 450 feet
(N. or S.) and ft. (E. or W.) from the SW
corner of NW¼ of S. 34, T. 10 S., R. 1 W.
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW¼ of NW¼ of Sec. 34, Tp. 10 S.
(Give smallest legal subdivision) (N. or S.)
R. 1 W., W. M., in the county of Linn
(E. or W.)

5. The main pipe line to be 12,400 feet
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the NW¼ of NW¼ of Sec. 22, Tp. 10 S.
(Smallest legal subdivision) (N. or S.)
R. 1 W., W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description turbine powered by electricity.
(Exact size of pump and motor will be determined by engineers). (Size and type of pump)
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 12,400 ft.; size at intake, 12 in.; size at 6000 ft. from intake 6 in.; size at place of use 3 in.; difference in elevation between intake and place of use, 25 ft. Is grade uniform? yes Estimated capacity, 6.0 sec. ft.

8. Location of area to be irrigated, or place of use (See below)

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
10 S	1 W	21	NW ¹ / ₄ of NE ¹ / ₄	10.1
10 S	1 W	21	NE ¹ / ₄ of NE ¹ / ₄	38.2
10 S.	1 W	21	SE ¹ / ₄ of NW ¹ / ₄	5.5
10 S	1 W	21	SW ¹ / ₄ of NE ¹ / ₄	39.1
10 S	1 W	21	SE ¹ / ₄ of NE ¹ / ₄	38.2
10 S	1 W	21	NW ¹ / ₄ of SE ¹ / ₄	40.0
10 S	1 W	21	NE ¹ / ₄ of SE ¹ / ₄	39.1
10 S	1 W	20	SE ¹ / ₄ of SE ¹ / ₄	34.6
10 S	1 W	21	SW ¹ / ₄ of SW ¹ / ₄	19.0
10 S	1 W	21	SW ¹ / ₄ of SE ¹ / ₄	40.0
10 S	1 W	21	SE ¹ / ₄ of SE ¹ / ₄	39.1
10 S	1 W	29	NE ¹ / ₄ of NE ¹ / ₄	19.6

(If more space required, attach separate sheet)

(a) Character of soil Silt Loam

(b) Kind of crops raised Forage, vegetables, berries and tree fruits

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$50,000.00

12. Construction work will begin on or before July 7, 1966

13. Construction work will be completed on or before October 1, 1967

14. The water will be completely applied to the proposed use on or before October 1, 1968

Rt. 3, Box 269
Scio, OR 97374

Gentlemen:

According to the terms of your permit No. 30884, for the appropriation of 7.5 cubic feet of water per second from Thomas Creek for irrigation, complete application of water was to have been made by October 1, 1969.

Complete application of water means the application of water to beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 29, 1969.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancelation of the permit.*****"

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If for any reason you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Mr. Christie:

On May 2, 1969, I wrote you regarding an application for extension of the time limits that you submitted in connection with permit No. 30884 and suggested that unless you had definite plans for construction and use of water this summer, the best course of action would be to refile the application for a new permit when there was sufficient interest in the project to make some progress.

I have not had further word on this, and I assume you do not intend to continue with the application for extension of time. If this is the case, we should refund the fee of \$5 you submitted.

Very truly yours,

Trevor Jones
Assistant

TJ:hls

30

May 2, 1969

C. T. Christie
P.O. Box 54
Scio, Oregon 97374

Dear Sir:

This will acknowledge receipt of an application for extension of the time limit to complete construction under permit 30884 and the fee of \$5.00 for which our receipt No. 13915 is enclosed.

The permit is for the appropriation of the direct flow of Thomas Creek and will not cover release from storage if a reservoir is constructed on Thomas Creek. A new permit will be required for use of stored water regardless of extension of the time limit for permit 30884. Unless you plan on constructing a ditch this summer and making some use of water under the permit, I believe the best course of action is to refile the application for a new permit when it appears that there is sufficient interest in the area to make some progress under the project.

If you have definite plans for construction and use of water this summer, I suppose the time limit for completion of construction could be extended to October 1, 1969 which is the date for complete application of water under the permit.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Gentlemen:

Pursuant to your request I am enclosing a form for use in making application for an extension of time limits under permit No. 30884.

Please be advised that the State Engineer is permitted by law to extend the time for completion of a project only upon a showing of due diligence by the permittee. Therefore, you should execute the application carefully and completely so that this office may determine from your sworn statement whether due diligence has been shown.

The application must be executed before a notary public and submitted to this office with the statutory filing fee in the amount of \$5 for each permit.

Upon receipt of the application, the matter of extending the time under the appropriation will be given further consideration and you will be advised of our action.

Very truly yours,

February 6, 1969

Mr. Chris L. Wheeler, State Engineer
Water Resources Department
516 Public Service Building
Salem, Oregon

Dear Mr. Wheeler:

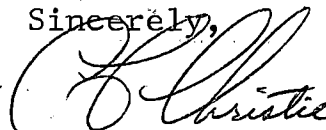

Please forward the necessary forms and procedures to apply for an extension of our construction completion date. I had hoped to complete the necessary ditch and control weir on time, but due to a wet fall and personal difficulties I was unable to gain the support required from the other members of the district.

The estimated cost to complete our project is less than \$1,000, and hopefully we should be able to complete construction within two years.

I feel that our district is extremely important particularly since the Thomas Creek Dam project is nearing reality. It is possible through the use of our district easements to divert water from Thomas Creek and run by gravity canal to Crabtree Creek adding water to this stream as required. Because of this fact, I feel that it is very important for us to keep the district intact.

As always, your kind consideration of my problem is appreciated.

Sincerely,

C. T. Christie

Gentlemen:

This is to advise you that application numbered 41069, filed by C. T. Christie in behalf of the Golden Valley Irrigation District, requesting a permit to appropriate 4.875 cubic feet of water per second from Crabtree Creek for the irrigation of 1,694 acres under priority date of July 9, 1965, has been modified in accordance with a change in the applicant's plans.

The Golden Valley Irrigation District has now requested a permit to appropriate 7.5 cubic feet of water per second from Thomas Creek for the irrigation of 1,694 acres under priority date of September 7, 1965. The point of diversion will be located 53° 44' East, 907 feet from the NE corner of DLC #48, being within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, T. 10 S., R. 1 West, W.M.

STATE ENGINEER
SALEM OREGON

September 3, 1965

Mr. Chris Wheeler, State Engineer
Room 516
Public Service Building
Salem, Oregon 97310

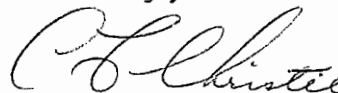

Reference File: 41069

Dear Sir:

Our original application for diverting water from Crabtree Creek is cancelled and the enclosed application for diverting water from Thomas Creek is being submitted in lieu of the original.

This water will be diverted from a point near the diversion point used by the Scio District Improvement Company. We are at present entering into an Agreement with this District for the joint usage of the waterways shown by the map.

Sincerely,

C. T. Christie
Golden Valley Irrigation District

STATE OF OREGON

INTEROFFICE MEMO

Application No. 41069

DATE: September 1, 1965

FROM:

Chris L. Wheeler

SUBJECT:

Diversion of Thomas Creek instead of Crabtree Creek

O. E. Mikesell and C. T. Christie were in the office this date in regard to application No. 41069 and the change of their plans to utilize the waters of Thomas Creek rather than Crabtree Creek for their proposed project.

I advised them that it would be necessary to submit a letter advising that the application and proposal was being withdrawn and in lieu thereof they were submitting a new application for use of the waters of Thomas Creek which would take a date of priority as of the date filed, and would require a new map showing the correct point of diversion and place of use. I advised that we could transfer the fees to be utilized in the present plans.

I further advised that it would not be necessary for them to submit a copy of their agreement with the Scio Improvement District for the utilization of the upper portion of their ditch, but that such agreement should be furnished after it is executed.

At the present time the Golden Valley Group will install its own pumping diversion, run water through a short section of the existing ditch and then redivert it near the west line of Section 15 and convey water south along the county road for distribution to their water users.

Mr. C. T. Christie
Route 3, Box 269
Scio, Oregon

Dear Mr. Christie:

In response to our discussion with you in the office, I had a miscellaneous measurement made on Crabtree Creek near its confluence with the Santiam River and on Thomas Creek near its confluence with the Santiam River on August 19. At this time there was 31.86 second feet of water flowing in Crabtree Creek and 11.8 second feet in Thomas Creek.

Either flow is more than sufficient to meet the needs proposed in your application No. 41069 which is for 4.875 second feet.

At the time of the investigation some of the major diversions out of Crabtree Creek were not being exercised. While the gaging stations are not of sufficient length to give a positive answer, it would appear that the yield of the two streams is similar.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Mr. Mikesell:

This will acknowledge your letter submitting the application in the name of the Golden Valley Irrigation District for a permit to appropriate 4.879 cubic feet of water per second from Crabtree Creek for the irrigation of 1,694 acres, tracin, legal description, and fees in the sum of \$105.20 for which our receipt No. 5966 is enclosed.

The application, which has been filed under file numbered 41069, is in satisfactory form to be considered for approval by issuance of a permit with the next group.

Very truly yours,

Claris L. Sherman
State Engineer

Chris L. Wheeler
State Engineer
516 Public Service Building
Salem, Oregon

Dear Mr. Wheeler:

I am sending you the following for the Golden Valley Irrigation District (C. T. Christie, Rt. 3, Box 269, Scio, Oregon, agent):

1. Application to appropriate irrigation water from Crabtree Creek.
2. Map showing the point of diversion and the areas to be irrigated.
3. Legal description of the entire area.
4. Mr. Christie's check in the amount of \$105.20.

21.175

You will note that the filing is being made on 1694 acres, but that the group only intends to irrigate 390 acres in any one year. I hope that this section of the application is filled out correctly.

Please call any errors or omissions to my attention.

STATE ENGINEER
SALEM, OREGON

Application No.

Application for Extension of Time

To the State Engineer of Oregon:

I, C. T. CHRISTIE, of P/ Box 54 Scio,
state of OREGON, am the ^{AGENT.} owner and holder of Permit No. 41069, to appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or before Oct 1, 1968, and complete application of water is required to be made on or before Oct 1, 1973.

I have heretofore done the following work described under said permit during the past year:

SURVEYED & ACQUIRED EASEMENTS NECESSARY TO COMPLETE DITCH.

and did the following work prior to last year:

SURVEYED, ACQUIRED EASEMENTS & IMPROVED DITCH BELONGING TO SCIO IMPROVEMENT DISTRICT, & MADE ENGINEER STUDIES OF THE PROJECT

costing \$ 2000⁰⁰, and I estimate the cost of completion to be \$ 2000⁰⁰.

I have heretofore used water under said permit to the following extent: NONE

I am unable to { complete construction work } within the required time, for the following reasons, to wit: { ~~make complete application of water~~ }
(Strike out phrase not applicable)

DUE TO A CHANGE OF OWNERSHIP MANY NEW OWNERS FEEL THAT SUMMER RAINFALL IS ADEQUATE, I FEEL THAT WITH WATER STORAGE ON THOMAS CREEK, AND A FEW DRY SUMMERS WE WILL BE ABLE TO RENEW THEIR INTEREST.

(If additional space is required, attach separate sheet)

\$5.00 FEE PAID fee of \$2.00 for each permit involved must accompany this application.)

RFC. NO. 13915
DATE 4-15-69

(OVER)

8296

WHEREFORE, I ask that the State Engineer extend the time for the

{ completion of construction work }
{ ~~complete application of water~~ } under said permit to Oct 1st 1, 1974
(Strike out phrase not applicable)

AFFIDAVIT OF APPLICANT

STATE OF OREGON }
County of LINN } ss.

I, C. T. Christie, being first duly sworn, depose and say that I have read the above and foregoing application for extension of time; that I know the contents thereof, and the facts stated therein are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 10 day of APRIL, 1969
