

**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE STATE OF OREGON**

In the Matter of Water Rights Application        )  
S-88005, Jackson County                            )

FINAL ORDER  
APPROVING THE USE OF  
STORED WATER

**Authority**

ORS 537.147 establishes the process by which an application to use stored water exclusively may be submitted. OAR Chapter 690, Divisions 310 and 340 implement the statute, and provide the Department's procedures and criteria for evaluating applications to use stored water.

**Findings of Fact**

1. On August 18, 2014, TONY A POLAK AND KAREN POLAK submitted an application for a water-use permit pursuant to ORS 537.147. The Department provided public notice of the application in the Department's weekly public notice on August 26, 2014. A 30-day comment period followed.
2. The Department has evaluated the application and any comments received, and finds that no public interest in ORS 537.170(8) would be affected adversely by the proposed use.

**Conclusions of Law**

Application S-88005 is consistent with the requirements of ORS 537.147 and OAR Chapter 690.

**Now Therefore, it is Ordered:**

Application S-88005 is approved pursuant to ORS 537.147. Upon payment of the remaining permit recording fee of \$180, and submission of a valid and executed stored water contract with the Bureau of Reclamation, a permit shall be issued authorizing the proposed water use. Failure to meet these requirements within 60 days from the date of this Final Order may result in the proposed rejection of the application.

*If you need to request additional time, your written request should be received in the Salem office of the Department within 60 days of this Final Order. The Department will evaluate the request and determine whether or not the request may be approved.*

Dated at Salem, Oregon on   OCTOBER 30   2014.

### STANDARD CONDITIONS

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.
3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
