NOTICE OF COMPLETION OF CONSTRUCTION

Philip P. and Josephine M. Beauchamp, the holder of Permit No. G 7610

to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 20 day of April, 1977.

Remarks: \_\_\_\_\_  
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed develop-

ment, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 8 day of December, 1978

Philip P. Beauchamp  
(Signature of Applicant)

Rt 2-Box 2836 Hermiston  
(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is completed.

Hermiston, OR 97838

Dear Mr. and Mrs. Beauchamp:

REFERENCE: File G-8076

We have received a cancel authorization signed by Mr. Beauchamp regarding your Permit G-7610. This permit describes the appropriation of 0.25 cubic foot per second of water from a well for irrigation.

We are unable to cancel the permit under Philip's authorization since the permit is in both your names. If Josephine would please sign this authorization we will then be able to conclude the permit and clear it from our records.

Thank you very much.

Sincerely,

BRUCE A. ESTES, Supervisor

Philip P. and Jacqueline M. Beauchamp  
Route 2, Box 2836  
Hermiston, OR, 97838

Dear Mr. and Mrs. Beauchamp:

REFERENCE: File G-8076

On May 18, 1982, a representative of this office made an inspection of land in connection with your Permit G-7610. This permit describes the appropriation of 0.25 cubic foot per second of water from a well for irrigation of 20 acres.

The information obtained by our Water Rights Examiner was that although you have equipment and you have been watering the ground the well was not drilled until June 1981. We have a copy of a well log for an 8-inch well drilled for irrigation purposes signed on May 28, 1981, by Troy Griffin, Water Well Contractor. This well is evidently the subject well involved in the permit and since it was drilled after the December 2, 1978 date which was required for a substantial beginning of construction, the permit must be considered invalid, and be canceled.

Enclosed is a form for your use in authorizing the cancellation of this permit. The cancellation would clear it from our records and avoid the necessity for further notices or correspondence.

Sincerely,

BRUCE A. ESTES, Supervisor  
Survey/Certificate Section

APPLICATION FOR A PERMIT

### To Appropriate the Ground Waters of the State of Oregon

I, Philip P. Beauchamp and Josephine M. Beauchamp  
(Name of applicant)  
of 28 R 2 B 2836 Hermiston, county of Umatilla,  
(Postoffice Address)  
state of Oregon 97138, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Umatilla R.  
(Name of stream)  
tributary of Columbia R.

2. The amount of water which the applicant intends to apply to beneficial use is 0.33 cubic feet per second or 150 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 150 ft. S and 100 ft. E from the NW 1/4 corner of SW 1/4 of Sec 31  
(N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 SW 1/4 of Sec. 31, Twp. 5 N, R. 29 E, W. M., in the county of Umatilla

5. The system will be portable throughout to be          miles in length, terminating in the          of Sec.         , Twp.         , R.         , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Josephine #1

#### DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 6 inches and an estimated depth of 100 feet. It is estimated that 100 feet of the well will require Steel casing. Depth to water table is estimated 40

U.S. 10266

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type Submersible

Give horsepower and type of motor or engine to be used 9 H.P.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
5 N	29 E	31	N.W. 1/4 SW 1/4	20

(If more space required, attach separate sheet)

Character of soil Sandy  
Kind of crops raised Hay & Pasture

MUNICIPAL SUPPLY—

13. To supply the city of \_\_\_\_\_  
in \_\_\_\_\_ county, having a present population of \_\_\_\_\_  
and an estimated population of \_\_\_\_\_ in 19\_\_\_\_

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 7605.00
- 15. Construction work will begin on or before Feb. 1, 1978
- 16. Construction work will be completed on or before April 1, 1978
- 17. The water will be completely applied to the proposed use on or before July 1, 1980
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. \_\_\_\_\_

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.25 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 28, 1977

Actual construction work shall begin on or before December 2, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 2nd day of December, 1977

Hermiston, OR 97838

Dear Mr. and Mrs. Beauchamp:

Your permit No. G-7610 was issued with the understanding that we be advised regarding the progress of your project.

Under the terms of your permit, actual construction of the well was to have been started before December 2, 1978. The construction of the water system is to be completed by October 1, 1979 and this means having the well finished including a meter and access port, an irrigation pump, and adequate irrigation equipment. You have already submitted your completion notice, but during a telephone discussion with your son Bill last month, he mentioned the meter and access port had not been acquired. He also indicated you would not be irrigating, so I sent you the cancellation form. I apologize for this misunderstanding.

Here is another Notice of Completion of Construction for your use. Also, water is to be used to the fullest extent intended on or before October 1, 1980, so when this requirement has been met, the Notice of Complete Application of Water to a Beneficial Use must be submitted.

Sincerely,

THOMAS E. SHOOK  
Water Rights Engineer
