ATTN: Water Right Application Submittal
Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1271

RE: Application for a Permit to Use Groundwater

Application Caseworker:

On behalf of the applicant, Stallion Land Company LLC, please find enclosed an Application for a Permit to Use Groundwater and a check totaling \$3,100 to cover the necessary filing fees for the application. The application proposed the use of groundwater from four wells for commercial use and landscape irrigation at property in Central Point, Oregon.

Please send copies of all correspondence relating to this application to both the applicant and to my attention. If you have any questions regarding the enclosed application or the information contained therein, please call me at (503) 239-8799 x106. Thank you for your assistance and I look forward to hearing from you soon.

Sincerely,

A handwritten signature in black ink, appearing to read "Theodore R. Ressler", is written over a faint, larger version of the signature.

Theodore R. Ressler, RG, CWRE
GSI Water Solutions, Inc.

Enclosures: Application for a Permit to Use Groundwater
Check totaling \$3100 to cover the necessary filing fee

RE: Stallion Land Company, LLC; Application G-17955

Ms. Cope:

GSI Water Solutions, Inc. (GSI) is providing this correspondence on behalf of the Applicant, Stallion Land Company, LLC, in regards to Application G-17955. The Applicant requested that the Department place this application on administrative hold (through September 21, 2015) to provide time to address the well construction concerns identified in the Department's Initial Review of the application.

Well 1 and Well 3 listed on the original application have been replaced. In addition, the fourth proposed well listed on the original application has been constructed. Please find enclosed the following revised portions of the application reflecting these changes:

1. Revised application form pages 4, 5, and 7
2. Revised application map
3. Revised Attachment 3 to the application

The additional application processing fee of \$300 required to complete a new Groundwater Review based on these changes was previously provided to the Department (check #64666 dated May 7, 2015).

At this time, the applicant would like to remove the administrative hold on Application G-17955 and asks that the Department move forward with the processing of the revised application. Thank you for your assistance with this application and please do not hesitate to contact me with questions.

Respectively,

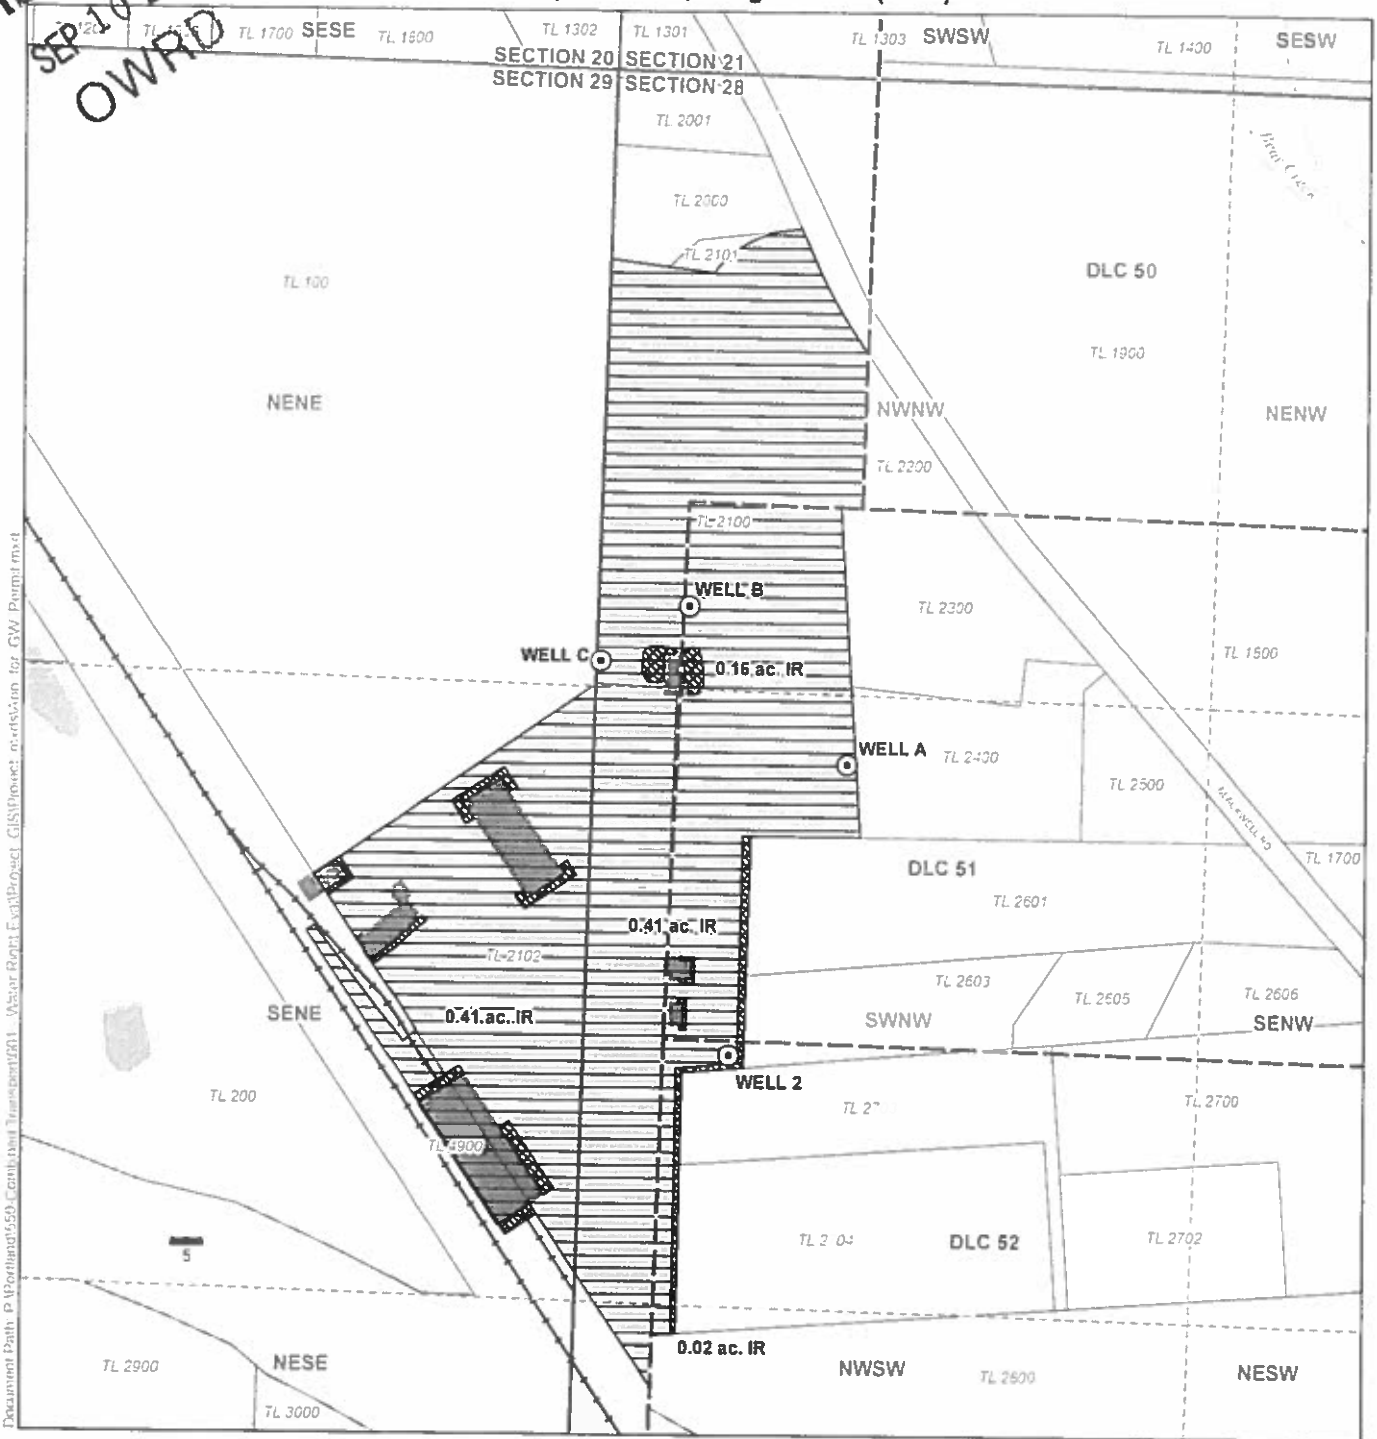

A handwritten signature in black ink, appearing to read "Theodore Ressler".

Theodore Ressler, RG, CWRE
GSI Water Solutions, Inc.

Water-Use Permit Application Processing

OCT 31 2014

1. Completeness Determination

SALEM, OR

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed, the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department issues a Final Order consistent with the PFO. If the application is approved, a permit is issued that specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- I cannot use water legally until the Water Resources Department issues a permit.
- Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land-use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.

SALEM, OR

I (we) affirm that the information contained in this application is true and accurate.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

Yes

- There are no encumbrances.
- This land is encumbered by easements, rights of way, roads or other encumbrances.

No

- I have a recorded easement or written authorization permitting access.
- I do not currently have written authorization or easement permitting access.
- Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

N/A

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: WELL DEVELOPMENT

WELL NO	NAME OF NEAREST SURFACE WATER	IF LESS THAN 1 MILE:

SECTION 3: WELL DEVELOPMENT, CONTINUED

Total maximum rate requested: 25 gpm (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table.) If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

* Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.
 ** A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.
 *** Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

617955

redundancy for the water system. Combined Transport anticipates the installation of flow meters at each well to measure the amount of water diverted and reduce the likelihood of water being lost to leakage.

SECTION 6: STORAGE OF GROUND WATER IN A RESERVOIR

If you would like to store ground water in a reservoir, complete this section (if more than one reservoir, reproduce this section for each reservoir).

Reservoir name: N/A Acreage inundated by reservoir: N/A

Use(s): N/A

Volume of Reservoir (acre-feet): N/A Dam height (feet, if excavated, write "zero"): N/A

Note: If the dam height is greater than or equal to 10.0' above land surface AND the reservoir will store 9.2 acre feet or more, engineered plans and specifications must be approved prior to storage of water.

SECTION 7: USE OF STORED GROUND WATER FROM THE RESERVOIR

If you would like to use stored ground water from the reservoir, complete this section (if more than one reservoir, reproduce this section for each reservoir).

Annual volume (acre-feet): N/A

USE OF STORED GROUND WATER	PERIOD OF USE

SECTION 8: PROJECT SCHEDULE

Date construction will begin: 2015

Date construction will be completed: Within 5 years after the date of permit issuance

Date beneficial water use will begin: Within 5 years after the date of permit issuance

RECEIVED
SEP 10 2015
OWRD

SECTION 9: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

SECTION 10: REMARKS

Use this space to clarify any information you have provided in the application (attach additional sheets if necessary).

SECTION 4: WATER USE

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
Commercial	Year-round	Cumulative total of 40.35 AF
Landscape irrigation for a commercial facility	Irrigation season	

Exempt Uses: Please note that 15,000 gallons per day for single or group **domestic** purposes and 5,000 gallons per day for a single **industrial or commercial** purpose are exempt from permitting requirements.

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated (*must match map*).

Primary: 1.0 Acres Supplemental: 0 Acres

List the Permit or Certificate number of the underlying primary water right(s): N/A

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 2.5 (Included in 40.35 total)

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: N/A
If the use is **mining**, describe what is being mined and the method(s) of extraction: N/A

SECTION 5: WATER MANAGEMENT

RECEIVED BY OWRD

A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

OCT 31 2014

Pump (give horsepower and type): 5-10 HP submersible pump

SALEM, OR

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. Groundwater will be appropriated from the wells using submersible pumps and conveyed by pipe to the sites of water use within the place of use shown on the application map.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) Various methods may be used depending on the particular use of water, including but not limited to such methods as direct conveyance to water taps, water fill stations, water truck application, hose spray, sprinkler, etc.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters.

Combined Transport anticipates needing approximately 9500 gallons per day (gpd) for the initial development of their commercial facility. This daily volume equates to an instantaneous rate of 7 gallons per minute (gpm); however, the wells will not be operated continuously each day. Rather, one or more wells will be operate for a few hours each day. The requested rate of 25 gpm is needed to cover the operational production rate of the wells. The need for multiple wells is meant to provide production

Land Use Information Form

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): Chapter 6.3.1(A)
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON TRANSFERRING FEE TITLE SHOULD INQUIRE ABOUT THE PERSON'S RIGHTS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010. THIS INSTRUMENT DOES NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY THAT THE UNIT OF LAND BEING TRANSFERRED IS A LAWFULLY ESTABLISHED LOT OR PARCEL, AS DEFINED IN ORS 92.010 OR 215.010, TO VERIFY THE APPROVED USES OF THE LOT OR PARCEL, TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES, AS DEFINED IN ORS 30.930, AND TO INQUIRE ABOUT THE RIGHTS OF NEIGHBORING PROPERTY OWNERS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010.

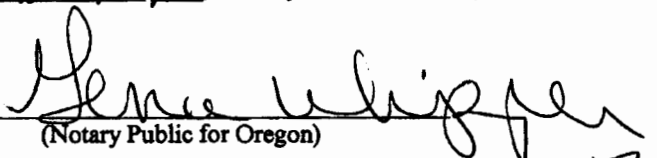

In Witness Whereof, the grantor has executed this instrument this 7 day of March 2013; if a corporate grantor, it has caused its name to be signed and its seal if any, affixed by an officer or other person duly authorized to do so by order of its board of directors.

Combined Transport, Inc.
By: Michael S. Card, President and CEO

State of Oregon
County of Jackson

This instrument was acknowledged before me on March 7, 2013 by Michael S. Card, as President and CEO of Combined Transport, Inc., an Oregon Corporation

(Notary Public for Oregon)

My commission expires 10-22-2013

PARCEL 5:

Beginning at an iron pipe which bears South 72.90 feet and East 41.60 feet from the Northwest corner of Donation Land Claim No. 52 in Township 36 South, Range 2 West of the Willamette Meridian in Jackson County, Oregon, said iron pipe being on that certain boundary line established by Agreement recorded as No. 67-10177 of the Official Records of Jackson County, Oregon; thence South 0°36'05" East 563.42 feet to an iron pipe on that certain Boundary Line established by Agreement recorded as No. 67-10178, said Official Records; thence, along said second Boundary Line, South 84°17'20" West 50.33 feet (record 48.65 feet) to intersect the West line of said Claim No. 52; thence, along said Claim line, North 0°13'46" East 563.67 feet; thence, along the first described Boundary Line, North 83°33'30" East, 42.18 feet (record 36.93 feet) to the point of beginning.

PARCEL 6:

A perpetual easement and right-of-way for a roadway over, along and across a strip of land 30 feet in width, being 15 feet on either side of the following described center line thereof:

Commencing at the quarter corner which lies 1320.0 feet South of the Section corner common to Sections 20, 21, 28 and 29 in Township 36 South, Range 2 West of the Willamette Meridian in Jackson County, Oregon; thence South 53°54' West 15.00 feet to the true point of beginning; thence North 37°28'30" West 486.00 feet; thence North 64°56'30" West 651.25 feet; thence North 40°41' West 189.35 feet; thence North 2°57' West 524.55 feet, to a point which bears North 4.02 feet, and West 1066.2 feet from the section corner common to Sections 20, 21, 28 and 29, said Township and Range.

PARCEL 7:

A perpetual easement and right-of-way for a roadway over, along and across a strip of land 18 feet in width, being 9 feet on either side of the following described center line thereof:

Beginning at a point which bears North 4.02 feet and West 1066.2 feet from the Section corner common to Sections 20, 21, 28 and 29 in Township 36 South, Range 2 West of the Willamette Meridian in Jackson County, Oregon; thence North 0°04'30" East 628.65 feet, to an intersection with the Southerly line of Pacific Highway No. 99.

For Informational purposes only, the following is included:

 Alteration (complete 2a & 10) Abandonment (complete 5a)

(2a) PRE-ALTERATION
 Dia + From To Gauge Stil Plstc Wld Thrd
 Casing: _____
 Material From To Amt sacks/lbs
 Seal: _____

(3) DRILL METHOD
 Rotary Air Rotary Mud Cable Auger Cable Mud
 Reverse Rotary Other _____

(4) PROPOSED USE Domestic Irrigation Community
 Industrial/ Commercial Livestock Dewatering
 Thermal Injection Other _____

(5) BORE HOLE CONSTRUCTION Special Standard (Attach copy)
 Depth of Completed Well 68.00 ft.

BORE HOLE			SEAL			
Dia	From	To	Material	From	To	Amt sacks/lbs
10	0	20	Bentonite Chips	0	20	14 S
6	20	68			Calculated	9
					Calculated	

How was seal placed: Method A B C D E
 Other DRY Poured
 Backfill placed from _____ ft. to _____ ft. Material _____
 Filter pack from _____ ft. to _____ ft. Material _____ Size _____
 Explosives used: Yes Type _____ Amount _____

(5a) ABANDONMENT USING UNHYDRATED BENTONITE
 Proposed Amount _____ Actual Amount _____

(6) CASING/LINER
 Casing Liner Dia + From To Gauge Stil Plstc Wld Thrd
