RE: Supplemental Surface Water Right Application

To Whom It May Concern,

The North Unit Water Supply Program seeks to replace NUID's Crooked River irrigation supply with alternate sources of water, and to restore instream flows in the lower Crooked and middle Deschutes Rivers. Prior to the first phase of the Program, NUID irrigated approximately 9,000 acres with primary irrigation rights from the Crooked River. This application for supplemental surface water is linked to the Program's second phase, a project titled 'I-Lateral Piping', although it is also referred to as 'NUID Phase II'.

The I-Lateral construction is complete and involved replacing approximately 4,800 feet (0.91 miles) of open unlined canal with High Density Polyethylene (HDPE) buried pipe, thereby eliminating 1,300 acre-feet of measured ditch losses. In October of 2013, NUID and COID submitted an application to OWRD to allocate the 1,300 acre-feet of conserved water to 520 acres of NUID lands which are currently being irrigated using NUID's Crooked River supply. It was the intent of the applicants to use the CW-81 process to secure the right to apply supplemental water stored in Crane Prairie Reservoir, under COID's storage account (C-76714), to the 520 acres in NUID. However at OWRD's request, the applicants agreed instead to submit this secondary application for a new supplemental water right.

The supplemental irrigation water is to be sourced from existing storage in Crane Prairie Reservoir (with the storage authorized under existing certificate C-76714), and will come from COID's account under that certificate. This will not reduce the amount of water available for storage under C-76714; it merely adds acres upon which water stored under C-76714 may be used, to include 520 acres of supplemental irrigation use, which are the same acres receiving primary irrigation rights under CW-81. The new supplemental irrigation certificate to be issued as a result of this application is to be issued in COID's name, with the lands to be irrigated located in NUID. In short, the applicants have agreed that all 520 acres of NUID lands receiving conserved water from CW-81 as primary irrigation will be 'treated the same' as COID lands if and when supplemental irrigation is needed.

Please send all correspondence related to this application to both applicants (COID and NUID) as well as the representative (DRC). Thank you,

Zachary Tillman
Program Manager
Deschutes River Conservancy

Water-Use Permit Application Processing

FEB 04 2015

1. Completeness Determination

SALEM, OR

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law.our). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

Minimum Requirements Checklist

Minimum Requirements (OAR 690-310-0040, OAR 690-310-0050 & ORS 537.140)

Include this checklist with the application

Check that each of the following items is included. The application will be returned if all required items are not included. If you have questions, please call the Water Rights Customer Service Group at (503) 986-0900.

- SECTION 1: applicant information and signature
- SECTION 2: property ownership
- SECTION 3: source of water requested
- SECTION 4: water use
- SECTION 5: water management
- SECTION 6: resource protection
- SECTION 7: project schedule
- SECTION 8: within a district

By my signature below I confirm that I understand:

FEB 04 2015

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet. SALEM, OR
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

 I (we) affirm that the information contained in this application is true and accurate.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

RECEIVED BY OWRD

Yes

- There are no encumbrances.
- This land is encumbered by easements, rights of way, roads or other encumbrances.

FEB 04 2015

SALEM, OR

No

- I have a recorded easement or written authorization permitting access.
- I do not currently have written authorization or easement permitting access.
- Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

SEE EXHIBIT A

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

CRANE PRAIRIE RESERVOIR DAM: NE1/4 NE1/4, SECTION 17, T 21 S, R 8 E, W.M.

WATER IS RELEASED FROM CRANE PRAIRIE RESERVOIR INTO THE UPPER DESCHUTES RIVER FLOWING INTO WICKIUP RESERVOIR. THE WATER IS RELEASED FROM WICKIUP RESERVOIR DAM INTO THE UPPER DESCHUTES FLOWING TO CENTRAL OREGON IRRIGATION DISTRICT'S NORTH CANAL DAM DIVERSION IN BEND. THE NORTH CANAL DAM DIVERTS WATER INTO COID'S PILOT BUTTE CANAL ON NUID'S BEHALF AND IS SPILLED INTO THE NUID MAIN CANAL NEAR SMITH ROCK.

CENTRAL OREGON IRRIGATION DISTRICT'S NORTH CANAL DAM: PILOT BUTTE CANAL AND THE COID NORTH CANAL DIVERSION ARE LOCATED NEAR BEND ON THE DESCHUTES RIVER (RM 165) AT SE 1/4, NE 1/4, SEC 29, T.17 S., R.12 E., W.M. THIS DIVERSION AND CONVEYANCE SYSTEM IS CURRENTLY IN USE AND IS NOT PROPOSED FOR APPROVAL IN THIS APPLICATION.

THE COID SPILL INTO NORTH UNIT IRRIGATION DISTRICT'S MAIN CANAL NEAR SMITH ROCK IS LOCATED AT NW 1/4, NE 1/4, SEC 24, T. 14S., R.13E., W.M.

SEE EXHIBIT A FOR DESCRIPTION OF PROPERTIES ON WHICH WATER IS TO BE USED

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Crane Prairie Reservoir Tributary to: Deschutes River
 Source 2: _____ Tributary to: _____
 Source 3: _____ Tributary to: _____
 Source 4: _____ Tributary to: _____

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

C-76685 – Right to Store in Crane Prairie
 C-76714 – Right to Use Storage

B. Applications to Use Stored Water

RECEIVED BY OWRD

Do you, or will you, own the reservoir(s) described in item 3A above?

FEB 04 2015

- Yes.
- No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

SALEM, OR

See exhibit B (COID notification to BOR)

If *all* sources listed in item 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

- By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:
- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
 - A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
Crane Prairie Reservoir	Supplemental Irrigation	April 1 - October 31	1300 <input type="checkbox"/> cfs <input type="checkbox"/> gpm <input checked="" type="checkbox"/> af

			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated.

Primary: _____ Acres Supplemental: 520 Acres

List the Permit or Certificate number of the underlying primary water right(s): CW-81

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 1300

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: _____
- If the use is **mining**, describe what is being mined and the method(s) of extraction:

SECTION 5: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

- Pump (give horsepower and type):
- Other means (describe): GRAVITY FED

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

CENTRAL OREGON IRRIGATION DISTRICT'S PILOT BUTTE CANAL IS AN EXISTING AND APPROVED POINT OF DIVERSION AND CONVEYANCE. A DESCRIPTION OF ITS LOCATION IS PROVIDED IN SECTION 2 OF THIS APPLICATION. ACCORDING TO THE UPPER DESCHUTES RIVER BASIN WATER CONSERVATION STUDY (1997) CONDUCTED BY THE BUREAU OF RECLAMATION, THE CANAL CAPACITY NEAR THE TURNOUT IS ABOUT 600 CFS (PG. 45).

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

NOT APPLICABLE. IRRIGATION APPLICATION IS NOT SUBJECT TO REGULATION OF SPECIFIC METHODS.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

See Section 9 for a description of what is proposed through this application. During the irrigation season, request for releases of stored water to supplement live flow (for supplemental irrigation of the proposed lands) will be made by COID in accordance with the inter-district contract dated 1/4/1938 between COID, Arnold Irrigation District and Crook County Improvement District #1. Release of storage from Crane Prairie Reservoir is controlled and measured by Oregon Water Resources Department (South-Central Regional office). Reduction in available storage in Crane Prairie due to dry years or other demand is shared by the three districts proportionately per the inter-district agreement.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- Diversion will be screened to prevent uptake of fish and other aquatic life. Describe planned actions: DIVERSION IS CURRENTLY SCREENED
- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Describe planned actions: N/A
- Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe: N/A
- Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe: N/A

SECTION 7: PROJECT SCHEDULE

RECEIVED BY OWRD

Date construction will begin: Completed April 2013

FEB 04 2015

Date construction will be completed: Completed April 2013

SALEM, OR

Date beneficial water use will begin: April 2013 through a Limited License

SECTION 8: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name COID NUID	Address COID: 1055 SW Lake Court NUID: 2024 NW Beech St	
City COID: Redmond NUID: Madras	State OR	Zip COID: 97756 NUID: 97741

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application.

This application for supplemental irrigation shall apply to 520 acres associated with CW-81, which was submitted to OWRD on 10/22/2013. CW-81 refers to the I-Lateral Piping Project and is also known as the second phase of the North Unit Irrigation District Water Supply Program. The primary goals of the Program are to reduce, and eventually eliminate, NUID's reliance on primary irrigation water supply from the Crooked River, and to restore streamflows and water quality in the lower Crooked River. Prior to phase one, NUID irrigated approximately 8,817 acres from the Crooked River with primary irrigation rights. Since then, NUID has switched from a Crooked River supply to a Deschutes River supply for approximately 3,700 acres and has protected up to 25 cfs in the lower Crooked River.

The supplemental irrigation water is to be sourced from existing storage in Crane Prairie Reservoir (with the right to use storage authorized under existing certificate C-76714), and will come from COID's account under that certificate. This will not reduce the amount of water available for storage under C-76714; it merely adds acres upon which water stored under C-76714 may be used, to include 520 acres of supplemental irrigation use, which are the same acres receiving primary irrigation rights under CW-81. The new supplemental irrigation certificate to be issued as a result of this application is to be issued in COID's name, with the lands to be irrigated located in NUID.

Land Use Information Form

NOTE TO APPLICANTS

SALEM, OR

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

Land Use Information Form

Oregon Water Resources Department
 725 Summer Street NE, Suite A
 Salem, Oregon 97301-1266
 (503) 986-0900
 www.wrd.state.or.us

Applicant: Central Oregon Irrigation District North Unit Irrigation District
First Last

Mailing Address: 700 NW Hill St.

Bend OR 97701 Daytime Phone: 541-382-4077 x21
City State Zip

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:			Proposed Land Use:
21	8	17	NE, NE		Crane Prairie Reservoir Dam	<input checked="" type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	Supplemental Irrigation
17	12	29	SE, NE		Central Oregon Irrigation District's North Canal Dam	<input checked="" type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	Supplemental Irrigation
See exhibit A					Lands where water will be used	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	Supplemental Irrigation
14	13	24	NWNE	200	NUID Spill	<input checked="" type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Deschutes, **Jefferson**
City of Bend, City of Redmond

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir/Pond
 Ground Water
 Surface Water (name) _____

Estimated quantity of water needed: 1300 _____
 cubic feet per second
 gallons per minute
 acre-feet

Intended use of water: Irrigation
 Commercial
 Industrial
 Domestic for _____ household(s)
 Municipal
 Quasi-Municipal
 Instream
 Other _____

Briefly describe:

COID & NUID propose to use water currently stored in Crane Prairie Reservoir for supplemental irrigation of 520 acres of land within NUID. Refer to attached tax-lot spreadsheet (exhibit A) for supplemental irrigation places of use within NUID.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

SALEM, OR

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): EO section 106.
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Name: BILL ADAMS Title: PLANNING DIRECTOR
 Signature: *Bill Adams* Phone: 541-475-4462 Date: 10-9-14
 Government Entity: JEFFERSON COUNTY

Note to local government representative: Please complete this form or sign the receipt below and return it to the applicant. If you sign the receipt, you will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.

RE: Central Oregon Irrigation and North Unit Irrigation District application for surface water stored in Crane Prairie Reservoir

Dear Doug,

Central Oregon Irrigation District (COID) and North Unit Irrigation District (NUID) are working together with the Deschutes River Conservancy (DRC) to reduce NUID's use of Crooked River water. In that endeavor, COID & NUID submitted a conserved water application to Oregon Water Resources Department in March, 2013 (CW-81) with the anticipated result of transferring 520 acres of conserved primary water rights onto NUID lands irrigated by Crooked River water and transferring those rights permanently back into the Crooked.

It was also the intent of the applicants to use the CW-81 process to secure the right to use supplemental irrigation water stored in Crane Prairie Reservoir, under COID's certificate #76714, on the 520 acres in NUID. OWRD rejected our request to use storage through CW-81, recommending we file a secondary application for a new supplemental water right.

At the district's request the DRC has prepared an application for a new surface water right from Crane Prairie Reservoir for the purpose of supplemental irrigation. The supplemental irrigation water is to be sourced from existing storage in Crane Prairie Reservoir under C-76714, and will come from COID's account (see inter-district contract dated 1/4/1938). This will not reduce the amount of water available for use under C-76714; it merely adds the 520 acres of supplemental irrigation use to lands that will receive primary irrigation rights under CW-81. As a result of this application, a new supplemental irrigation certificate will be issued in COID's name for the 520 acres of lands irrigated within NUID.

Land Acquisition LAND USE INFORMATION FORM

This information is needed to determine if the proposed project complies with statewide planning goals and is compatible with local comprehensive plans (ORS 197.180). This form must be submitted prior to OWEB's release of project funds. OWEB will only release project funds if the project either is not regulated by, or is compatible with, the local comprehensive plan and zoning ordinance. If the county requires additional local approvals, OWEB will not release project funds until the additional approvals are obtained.

1. TO BE COMPLETED BY THE GRANTEE

Applicant Name: Deschutes River Conservancy

Project Name: NUID Water Supply Program - I-Lateral

2. TO BE COMPLETED BY CITY, COUNTY, OR TRIBAL PLANNING OFFICIAL

Complete this section only after section 1, above, has been completed. Check the box below that applies:

- This project (purchase of fee title, a conservation easement, or a lease) is not regulated by the local comprehensive plan and zoning ordinances.
- This project (purchase of fee title, a conservation easement, or a lease) has been reviewed and is compatible with the local comprehensive plan and zoning ordinances.
- This project (purchase of fee title, a conservation easement, or a lease) has been reviewed and is not compatible with the local comprehensive plan and zoning ordinances.
- Compatibility of this project (purchase of fee title, a conservation easement, or a lease) with the local planning ordinances cannot be determined until the following local approvals are obtained:
 - Conditional Use Permit
 - Plan Amendment
 - Other
 - Development Permit
 - Zone Change

An application has has not been made for the local approvals checked above.

Jeffrey,
The CW-81 "on" maps will work. I can email .pdf copies of the maps or you can make copies from the CW-81 application, whichever is easier for you.

Please let me know if you want me to email them.

Thanks

Vicki McKelvy

Subject: Surface Water Right Application Map(s) CW-81

Dear Craig, Mike and Zach,

We received the application for a permit to use Surface water from storage in Crane Prairie Reservoir, and during intake review discovered there are no maps of the lands where the supplemental irrigation is to occur as required in OAR690-310-0040(1)(a)(D) and OAR 690-310-0050. In speaking with Teri, we discovered that there are maps available in the CW-81 Conserved Water application which should be acceptable for use in this application. To help in streamlining the process and with your permission, I would like to make copies of the maps for inclusion in this application file. Or if you would prefer to submit new maps for this application you may do so as well.

Please let me know how you would like to proceed and I will do what I can to keep the process moving forward.

Thank You,

Jeffrey D. Pierceall

Subject: RE: Surface Water Right Application Map(s) CW-81

Jeffrey,

Thank you for taking the initiative on this. You should wait for confirmation from the applicants (NUID & COID), but I think your suggestion to use the existing maps from CW-81 is most likely the right way to go.

They are NUID maps so I'll leave that question to them to answer. Please thank Jeff for his extra efforts!!!

Just an FYI! Jeff is doing an absolutely awesome job for us and is willing to go that "extra mile" to keep this moving. I figured your respective bosses would be asking you to handle this. And, yes, Jeff is referring to the CW-81 "to" maps.

Thanks.

Teri

Jeffrey,

The CW-81 "on" maps will work. I can email .pdf copies of the maps or you can make copies from the CW-81 application, whichever is easier for you.

Please let me know if you want me to email them.

Thanks
