

WATERMASTER DIVISION 33 APPLICATION WORK SHEET

Recommendations for Water Right Applications that may affect the
Habitat of Sensitive, Threatened or Endangered Fish Species, OAR 690-33-310 through 340.

Application #: R 88022

Applicant's Name: Vardanega, Roy

1) Does the affected surface water source flow above ground in a defined channel into another water body?

☐ YES

☐ NO

☒ SOMETIMES; between estimated 2/1 and 5/30

2) Does the affected surface water source ever go dry in the area of the proposed diversion? ☒ YES ☐ NO

3) To your knowledge, has the affected surface water source of water been regulated because of insufficient flow to satisfy existing water rights including instream water rights? ☐ YES ☒ NO

If YES, please explain:

4) Do you agree with the specified water availability, and the recommended period of use? ☒ YES ☐ NO ☐ I DON'T KNOW

If NO, please explain:

5) Did you discuss this application with staff from another agency? ☐ YES ☒ NO

Who: Agency: Date:

6) If the Initial Review is unfavorable, is mitigation an option? ☐ YES ☐ NO

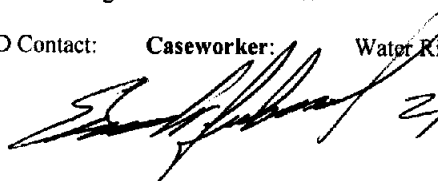

If YES, please explain: I agree with the initial review

7) What conditions do you recommend? I recommend installation of a measuring device for each pond (pool gage) only. The unnamed stream is so seasonal as to make a measuring device above and below each reservoir unnecessary. I do not expect to see water available for storage appropriation beyond the month of May of each year (usually). At this point I do not see the need for additional measuring devices beyond a pool gage for each reservoir.

8) Your recommendation under OAR 690-033-0330 (2): ☒ Approval with conditions
☐ Approval without conditions
☐ Denial
