Dear Mr. Acarregui,

Thank you for your letter requesting information pertaining to your ground water permit G-5657.

On December 27, 1972, we received an application from you requesting a permit to use water from Acarregui Well No. 1 for purpose of irrigating 6.5 acres. On March 21, 1975 your request was approved and permit number G-5657 was assigned to your file.

Under the terms of your permit, a substantial beginning of construction of the project was to have been started by March 21, 1976 and adequate irrigation equipment in possession by October 1, 1976. The water was to have been completely applied to the land on or before October 1, 1977. To date, we have not been advised that the 6.5 acres have been irrigated within the terms of the permit.

In the event you would like a copy of the permit, we will be happy to mail it to you, but a copying fee of \$1.75 is required.

I have also enclosed a form for your use in reporting progress of the project to us. If you were unable to use the water on the lands before October 1, 1977 and it is your intent to irrigate all of the land by next year, an application requesting additional time may be submitted. We will send you the necessary form upon request.

Sincerely,

Thomas E. Shook
Water Rights Engineer
