**RECEIVED**

By my signature below I confirm that I understand:

APR 07 2015

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application **WATER RESOURCES DEPT SALEM, OREGON**
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

I (we) affirm that the information contained in this application is true and accurate.

## Water-Use Permit Application Processing

### 1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 ([www.oregon.gov/owrd/law.owrd](http://www.oregon.gov/owrd/law.owrd)). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

WATER RESOURCES DEPT  
SALEM, OREGON

### 2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

### 3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at [www.oregon.gov/owrd](http://www.oregon.gov/owrd). The public comment period is 30 days from publication in the weekly notice.

### 4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

### 5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

### 6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

## SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

☐ Yes

☐ There are no encumbrances.

☐ This land is encumbered by easements, rights of way, roads or other encumbrances.

☒ No

☒ I have a recorded easement or written authorization permitting access. *SEE ATTACH. A (TAX LOT 600)*

☐ I do not currently have written authorization or easement permitting access.

☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

☐ Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (attach additional sheets if necessary).

*SEE: ATTACHMENT B - GRAHAM - TAX LOT 600*  
*11 C - SIMAR - TAX LOT 200*  
*11 D - FISCHER - TAX LOT 401*

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map. *SEE ATTACHMENT B - GRAHAM - TAX LOT 600*

*C - SIMAR - TAX LOT 200*  
*D - FISCHER - TAX LOT 401*

## SECTION 3: SOURCE OF WATER

### A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: SPRING (UNNAMED) Tributary to: INTERMITTENT

Source 2: \_\_\_\_\_ Tributary to: \_\_\_\_\_

Source 3: \_\_\_\_\_ Tributary to: \_\_\_\_\_

Source 4: \_\_\_\_\_ Tributary to: \_\_\_\_\_

WATER RESOURCES DEPT  
SALEM, OREGON

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

### B. Applications to Use Stored Water

Do you, or will you, own the reservoir(s) described in item 3A above?

☐ Yes.

☐ No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

If *all* sources listed in item 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

☐ By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

#### SECTION 4: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

*(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)*

| SOURCE | USE      | PERIOD OF USE | AMOUNT                                                                                                |
|--------|----------|---------------|-------------------------------------------------------------------------------------------------------|

#### For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated.

Primary: \_\_\_\_\_ Acres      Supplemental: \_\_\_\_\_ Acres

List the Permit or Certificate number of the underlying primary water right(s): \_\_\_\_\_

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: \_\_\_\_\_

- If the use is **municipal or quasi-municipal**, attach **Form M**
- ➔ • If the use is **domestic**, indicate the number of households: 1
- If the use is **mining**, describe what is being mined and the method(s) of extraction:

## SECTION 5: WATER MANAGEMENT

### A. Diversion and Conveyance

What equipment will you use to pump water from your source?

☐ Pump (give horsepower and type): \_\_\_\_\_

☒ Other means (describe): Gravity flow into 1970's existing system.  
SEE Attachment F.

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

\_\_\_\_\_  
Diversion and conveyance by a  
1970's existing system.  
See Attachment F.

### B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

\_\_\_\_\_  
Household/domestic use - single family

### C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

\_\_\_\_\_  
TO supply one residential dwelling.

## SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

☐ Diversion will be screened to prevent uptake of fish and other aquatic life.

Describe planned actions: \_\_\_\_\_

☐ Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.

Describe planned actions: \_\_\_\_\_

☐ Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.

Describe: \_\_\_\_\_

☒ Water quality will be protected by preventing erosion and run-off of waste or chemical products.

Describe: \_\_\_\_\_

**SECTION 9: REMARKS**

Use this space to clarify any information you have provided in the application.

My Father and Mother, Otis and Vinita Fischer, acquired the Tax Lot 401 property in October 1971. They intended to build a single family residence on the 14 acre parcel. In 1973 Otis Fischer submitted an "Application for Permit" for domestic use for water from the subject unnamed spring located in Tax Lot 200. His application No. 51012 resulted in Permit No. 38504 in November 1973.

The now existing PVC domestic water pipeline was installed in 1970's to serve 3 domestic users.

My Father's plan to build a dwelling did not materialize and in March 1982 Oregon WRD cancelled the Permit due to Otis Fischer's failure to complete the appropriation of water for domestic use.

Otis Fischer passed away in 1998. The domestic water pipeline valve on the Fischer property (Tax Lot 401) has not been opened in over 25 years.

As an heir/owner of the property (Tax Lot 401) I plan to either build a one family residence on the 14 acre parcel or sell it to a new owner who will build a single family dwelling on the property. This application is for permission to use existing flow/capacity in the domestic pipeline installed some 37 years ago.

KNOW ALL MEN BY THESE PRESENTS, that for valuable consideration DALE GREENLEE and PATRICIA GREENLEE, Grantors, convey to RALPH SWINEHART and JUDITH SWINEHART, VANITA FISCHER and OTIS FISCHER, and JOHN TYE and JANICE TYE, Grantees, their heirs, successors, and assigns, a perpetual easement over and across the following described real property of the Grantors, to-wit:

The North Half of the Northeast Quarter of the Southwest Quarter of Section 17, Township 2 South, Range 44 East of the Willamette Meridian, Wallowa County, Oregon, subject to all existing easements and restrictions;

for the purpose of operating, repairing, removing, and replacing a water pipeline to be used for domestic purposes.

The easement is appurtenant to one domestic use water right on each of the following described tracts:

- (1) the S1/2, NE1/4, NE1/4, Section 17 (Swinehart property)
  - (2) the portion of the E1/2, SW1/4, NE1/4, Section 17 lying east of the Quarry Road and the W1/2, SE1/4, NE1/4, Section 17 (Fischer property)
  - (3) the E1/2, SW1/4, NW1/4, Section 16 (Tye property)
- All in Township 2 South, Range 44 East, W.M.

Said easement shall commence at the head of a spring located approximately 510 feet South 40 degrees West from the center of Section 17, Township 2 South, Range 44 East, W.M., and proceed generally northerly to a logging road, then in a generally easterly direction to a point near the east boundary of the Grantors property, then northerly along the east boundary to the northeast corner of the Grantors property.

Grantor hereby gives permission to Grantees to maintain an intake structure at the spring at the point of commencement of the easement. Grantees shall have the right of entry upon Grantors above described real property for the purpose of maintaining and repairing said intake structure and pipeline, provided the Grantees abide by the following conditions:

1. All maintenance, repair, removal, replacement, or other activity concerning the said pipeline and intake structure by the Grantee must have prior approval from the Grantor. The Grantor may require a written plan of agreement prior to major activity on the pipeline.
2. Any activity concerning the said pipeline and intake structure by the Grantees shall be done with handtools. Use of any other equipment must have prior approval of the Grantor.
3. The Grantees shall be responsible for the rehabilitation of any disturbed property as a result of activity described in condition 1 within 14 days after completion of the work.
4. Under no circumstances will the Grantees replace the present pipeline with one larger in diameter.

- All in Township 2 South, Range 44 East, W.M.

Said easement shall commence at the head of a spring located approximately 510 feet South 40 degrees West from the center of Section 17, Township 2 South, Range 44 East, W.M., and proceed generally northerly to a logging road, then in a generally easterly direction to a point near the east boundary of the Grantors property, then northerly along the east boundary to the northeast corner of the Grantors property.

Grantor hereby gives permission to Grantees to maintain an intake structure at the spring at the point of commencement of the easement. Grantees shall have the right of entry upon Grantors above described real property for the purpose of maintaining and repairing said intake structure and pipeline, provided the Grantees abide by the following conditions:

1. All maintenance, repair, removal, replacement, or other activity concerning the said pipeline and intake structure by the Grantee must have prior approval from the Grantor. The Grantor may require a written plan of agreement prior to major activity on the pipeline.
2. Any activity concerning the said pipeline and intake structure by the Grantees shall be done with handtools. Use of any other equipment must have prior approval of the Grantor.
3. The Grantees shall be responsible for the rehabilitation of any disturbed property as a result of activity described in condition 1 within 14 days after completion of the work.
4. Under no circumstances will the Grantees replace the present pipeline with one larger in diameter.

Attachment B 1 of 3 Legal description of property where spring is located.

5. The Grantor is not liable for equipment damage or bodily injury which may occur to the Grantees and their equipment when they are working on the pipeline or intake.

6. In the event that emergency repairs are needed and the Grantor cannot be reached for prior approval, the repairs may be done by the Grantees, provided it is done with minimal disturbance to the Grantors property. The Grantors shall be notified of such emergency repairs as soon as possible.

7. Should a Grantee violate any part of this easement, the Grantor retains the right to terminate this easement immediately with the individual Grantee violating the conditions of this easement.

8. Should the flow in the stream from the spring decrease to a rate of 20 gallons per minute, the Grantor reserves the right to have the Grantees cease or reduce use of the pipeline until such time as the flow rate again exceeds 20 gallons per minute.

Grantors covenant with the Grantees that the Grantors are lawfully seized of the real property described herein and have good and lawful right to convey it or any part thereof.

IN WITNESS WHEREOF, the parties have caused this instrument to be executed this 18th day of January, 1984.

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

**This form is NOT required if:**

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
