NOTICE OF COMPLETION OF CONSTRUCTION

Application No. R-39112
39113

I, Lathie E. Belcher, the holder of Permit No. R-3872, 29176

to appropriate the public waters of the state of Oregon, completed the construction of the works described
therein on the 25th day of July, 1965

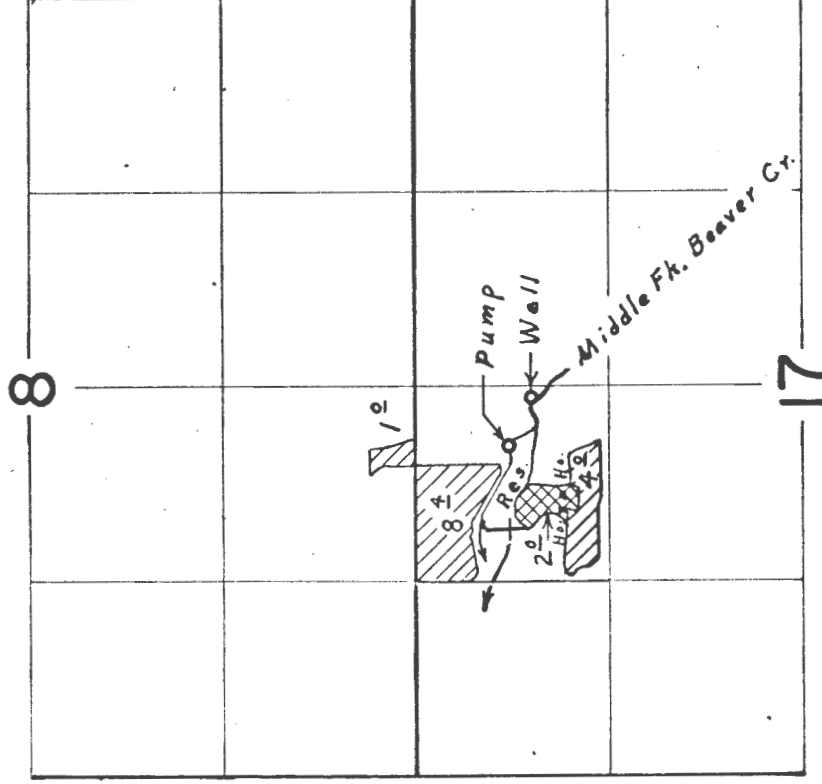

Remarks:
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you
should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 11th day of August, 1965
Rt. 2, Box 237 - Gresham, Oregon
(Address)

(Signature of Applicant)
Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

File No.

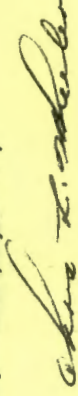

Dear Mr. Belcher:

Enclosed is the final proof in connection with the incomplete water right represented by your permit number **G-3428, R-3972, and 29176.**

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1.50, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Miss Belcher:

This will acknowledge the notice of completion of construction under the terms of permit No. 29176 and R-3872.

Under the provisions of the permit, the time limit for completion of the appropriation by accomplishing the authorized beneficial use of water to the full extent intended will expire October 1, 1966. (In the case of irrigation completion of the appropriation means at least one beneficial irrigation of all the land to be irrigated under the subject permit.)

Very truly yours,

Chris L. Wheeler

Salem, Oregon

Attention: Mr. A. M. Petska

Dear Sir:

This is to confirm our telephone conversation of October 22 relating to the Belcher Dam (formerly Corlies Dam) located in Multnomah County. Specifically, approval of the following construction changes is requested:

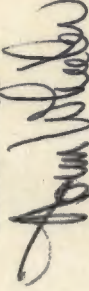

1. Change spillway side slopes to 4:1 rather than the 5:1 shown on the plans.
2. Change outlet for outlet conduit to a concrete encasement throughout the length shown on the plans with the outlet invert at the level of the existing channel.
3. Reduce the overall height of the structure from 25 ft. as shown to 22 ft.
4. Increase the top width of the fill from 15 ft to 20 ft.

All of the changes except the change in top width were given your tentative approval.

Thanks for the way in which you handled this. I really appreciate your thoughtfulness.

Please confirm. Thanks.

Sincerely,

Norm Wheeler
Engineer, SCS

Dear Mr. Belcher:

This will acknowledge your letter of October 19, 1963, authorizing the amendment of application numbered R-39112 so that it is in agreement with the plans submitted for the construction of the reservoir.

Your applications numbered R-39112 and 39113 now appear to be in satisfactory form to be considered for approval by issuance of permits with the next group.

Very truly yours,

CHRIS L. WHEELER

Attention: A. M. Petska, Engineer

Dear Mr. Petska:

In reference to your letter of October 11, 1963 concerning our application for a permit to construct Belcher's Dam please accept this letter as our authorization to have item 3 amended on our application from 36 acre feet to read 30 acre feet.

A change was not intended and we assume that this must have been a copying error or a typing error. Thank you for calling this to our attention and we hope you will once again consider approval of this project.

Sincerely,

L. E. Belcher

L. E. Belcher

LEB:ghr

October 11, 1963

Mr. Lathle E. Belcher
Route 2, Box 257
Gresham, Oregon

Dear Mr. Belcher:

This is with reference to an application for a permit to construct Belcher's Dam located in Section 17, Township 1 South, Range 4 East for the storage of 36 acre feet. Plans and specifications were provided by the Soil Conservation Service and they have named this dam Corlies Dam. These plans and specifications were approved October 6, 1959, and the permit was cancelled by Mr. Corlies and it now appears that you intend to construct this dam in accordance with these plans and specifications.

In checking these plans with the application you filed, I note the plans indicate that at the listed normal pool elevation, the storage capacity will be 30 acre feet. This does not agree with what you have filed on your application. In the event that you will construct this dam in accordance with these approved plans and specifications, you should direct a letter to this office authorizing us to amend item 3 of your application from 36 acre feet to read 30 acre feet. In the event the 36 acre feet listed is the correct storage, it will be necessary to have your engineer amend the plans and specifications to show how this will be accomplished.

Upon your clarification of this item, we will again consider this project for our approval.

Very truly yours,

CHRIS L. WHEELER
State Engineer

October 8, 1963

Mr. Lathie E. Belcher
Route 2, Box 257
Gresham, Oregon

Dear Mr. Belcher:

This will acknowledge receipt of two applications; one for a permit to construct Belchers Dam and store 36 acre feet of water in the reservoir for irrigation purposes, and one for a permit to appropriate 0.69 cubic foot of water per second from the Middle Fork of Beaver Creek and Belchers Reservoir for the irrigation of 55 acres, and fees in the sum of \$33.75 for which our receipts numbered 39731 and 39732 are enclosed.

Your applications, which have been examined and filed in the order of their acknowledgment, appear to be in satisfactory form to be considered for approval by issuance of permits with the next group.

Very truly yours,

CHRIS L. WHEELER
State Engineer

By Walter N. Perry, Assistant

Enclosures

September 12, 1963

Mr. Lathie E. Belcher
Route 2, Box 257
Gresham, Oregon

Dear Mr. Belcher:

This will acknowledge two applications; one for a permit to construct a reservoir and store 36 acre feet of water therein from the Middle Fork of Beaver Creek for irrigation purposes, and one for a permit to appropriate 0.09 cubic foot of water per second from the Middle Fork of Beaver Creek and Belchers Reservoir for the irrigation of 55 acres.

Your applications cannot be filed at this time as the State Engineer is required by law to collect a \$10 examination fee before an application for permit to appropriate water for any purpose may be filed. The fees necessary to your applications are a \$10 examination fee with each application, a \$5 recording fee with the reservoir application, and a \$8.75 recording fee with the secondary application, making a total of \$33.75.

Since there is no provision whereby your applications can be held in this office pending receipt of the required fees, they are returned herewith.

Very truly yours,

CHRIS L. WHEELER
State Engineer
