License No. 66-1582

Applicant(s): Josh Nelson

Contact Person: Josh Nelson

Mailing Address: P.O. Box 228

Tangent City OR State 97389 Zip

Telephone No: 541-979-3456

I (We) make application for a Limited License to use or store the following described surface waters or groundwater-not otherwise exempt, or to use stored water of the State of Oregon for a use of a short-term or fixed duration:

1. SOURCE(S) OF WATER for the proposed use: well a tributary of _____.

2. TOTAL AMOUNT OF WATER to be diverted: _____ cubic feet per second, or 50 gallons per minute. If water is to be used from more than one source, give the quantity from each: _____.

3. INTENDED USE(S) OF WATER: (check all that apply)

- Road construction or maintenance
- General construction
- Forestland and rangeland management; or
- Other: Hazelnut establishment

4. DESCRIPTION OF PROPOSED PROJECT: Include a description of the intended place of use as shown on the accompanying site map, the method of water diversion, the type of equipment to be used (including pump horsepower, if applicable), length and dimensions of supply ditches and pipelines:

I will be using water to drip irrigate 16 acres of hazelnuts. There will be a mainline applying water to the middle of the field. A 3hp pump will deliver water. Drip line is 0.53 gal/hr emitters on 30" spacing.

5. PROJECT SCHEDULE: (List day, month, and year)

Date water use will begin 6/1/15

Date project will be completed 6/10/15

Date water use will be completed 5/31/20

Is this project fully or partially funded by the American Recovery and Reinvestment Act? (Federal stimulus dollars) Yes No

PLEASE READ CAREFULLY

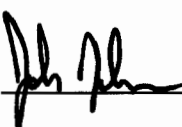

NOTE: A completed water availability statement from the local watermaster, Land Use Information Form completed by the local Planning Department, fees and site map meeting the requirements of OAR 690-340-030 must accompany this request. The fee for this request is \$280 for the first point of diversion plus \$30 for each additional point of diversion. Please review the Department's fee schedule to view fees required to request a limited license for Aquifer Storage and Recovery testing purposes or for Artificial Groundwater Recharge testing purposes.

Failure to provide any of the required information will result in return of your application. The license, if granted, will not be issued or replaced by a new license for a period of more than five consecutive years. The license, if granted, will be subordinate to all other authorized uses that rely upon the same source, or water affected by the source, and may be revoked at any time it is determined the use causes injury to any other water right or minimum perennial streamflow.

If water source is a well, well logs or adequate information for the Department to determine aquifer, well depth, well seal and open interval, etc. are required. The licensee shall indicate the intended aquifer. If for multiple wells, each map location shall be clearly tied to a well log.

If a limited license is approved, the licensee shall give notice to the Department (Watermaster) at least 15 days in advance of using the water under the Limited License and shall maintain a record of use. The record of use shall include, but need not be limited to, an estimate of the amount of water used, the period of use and the categories of beneficial use to which the water is applied. During the period of the Limited License, the record of use shall be available for review by the Department upon request.

REMARKS:

SIGNATURE of Applicant:  DATE: 4/22/15
Title: Owner

Mapping Requirements (OAR 690-340-0030):

- (1) A request for a limited license shall be submitted on a form provided by the Water Resources Department, and shall be accompanied by the following:
 - (c) A site map of reproducible quality, drawn to a standard, even scale of not less than 2 inches = 1 mile, showing:
 - (A) The locations of all proposed points of diversion referenced by coordinates or by bearing and distance to the nearest established or projected public land survey corner;
 - (B) The general course of the source for the proposed use, if applicable;
 - (C) Other topographical features such as roads, streams, railroads, etc., which may be helpful in locating the diversion points in the field.

WATER AVAILABILITY STATEMENT

Name of Applicant: Josh Nelson Limited License Number: LL-1582

1. To your knowledge, has the stream or basin that is the source for this application ever been regulated for prior rights? Yes No

If yes, please explain: The source is a well in the Owl Creek drainage

2. Based on your observations, would be there water available in the quantity and at the times needed to supply the use proposed by this application? Yes No

3. Do you observe this stream system during regular fieldwork? Yes No
If yes, what are your observations for the stream?

Though I drive over it occasionally,
I have not had to distribute water on it.

4. If the source is a well and if WRD were to determine that there is the potential for substantial interference with nearby surface water sources, would there still be ground water and surface water available during the time requested and in the amount requested without injury to existing water rights? Yes No N/A

What would you recommend for conditions on a limited license that may be issued approving this application?

50 gpm Max
24 hrs per week max.

5. Any other recommendations you would like to make?

SALEM, OR

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): LCC 928.310(B)(1)

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

Attachment #1 (Section #3 Well Development)

I bought this property in June of 2004. At that time I did not receive any information for a well log from the previous owner who's family had been in possession of the property for many generations, nor did the title company have this information. I researched all of the closing/title records from my purchase packet, notes from the seller, county and state water resource records and local well drillers and have not been able to locate a well log for this well. Just recently I applied for and received a well ID number. Please see the attached letter from Ladeena Bell at The Water Resource Department. Ladeena says there is "no known well log for this well". The well information I was able to attain is from a well test done on October 24, 2014 by Star Water Systems in Lebanon. A copy of the job invoice is attached. Static water level, well depth, pump set height, casing size and drop pipe information was all noted by Star Water Systems.

Attachment #2 (Section #5 Water Management, C. Conservation)

The water I am requesting is needed to establish and maintain a viable hazelnut orchard. Using drip as the irrigation type will eliminate water waste. I intend to start out by putting individual emitters at each tree, which will greatly decrease the water need during the first few years of establishment. As the trees grow, emitters will be added to water the ever expanding root zone. Soil moisture will be observed on a daily basis to monitor for over or under-watering.
