Requested Water Use

On May 4, 2015, the Water Resources Department received completed application **LL-1582** from Josh Nelson for the use of 50 gallons per minute from a well, located in the SE $\frac{1}{4}$, SE $\frac{1}{4}$, Section 31, Township 11 South, Range 4 West, W.M., for irrigation to establish hazelnuts, for the period June 1, 2015, through 5/31, 2020.

Authorities

The Department may approve a limited license pursuant to its authority under ORS 537.143, 537.144 and OAR 690-340-0030.

ORS 537.143(2) authorizes the Director to revoke the right to use water under a limited license if it causes injury to any water right or a minimum perennial streamflow.

A license will not be issued for more than five consecutive years for the same use, as directed by ORS 537.143(8).

Findings of Fact

1. The forms, fees, and map have been submitted, as required by OAR 690-340-0030(1).
2. The Department provided public notice of the application, on May 12, 2015, as required by OAR 690-340-0030(2).
3. This license request is limited to an area within a single drainage basin as required by OAR 690-340-0030(3).
4. The Department has determined that there is water available for the requested use.
5. The Department has determined that the proposed source has not been withdrawn from further appropriation.

6. As part of its review to determine ground water availability, the Department's Ground Water/Hydrology Section has stipulated conditions pertaining to measurement and reporting, decline in static water level, and limiting the maximum rate and hours of pumping.
7. The Department has not received comments related to the possible issuance of the license.
8. Pursuant to OAR 690-340-0030(4)(5), conditions have been added with regard to notice and water-use measurement.
9. Linn County has indicated that the proposed use is compatible with the applicable acknowledged comprehensive land-use plan.

Conclusions of Law

The proposed water use will not impair or be detrimental to the public interest pursuant to OAR 690-340-0030(2), as limited in the order below.

Order

Therefore, pursuant to ORS 537.143, ORS 537.144, and OAR 690-340-0030, application **LL-1582** is approved as conditioned below.

1. The period, rate, and time of use for **LL-1582** shall be from June 1, 2015, through May 31, 2020, for the use of 50 gallons per minute, up to a maximum of 24 hours per week, for the purpose of irrigation to establish hazelnuts.
2. The licensee shall give notice to the Watermaster in the district where use is to occur not less than 15 days or more than 60 days in advance of using the water under the license. The notice shall include the location of the diversion, the quantity of water to be diverted and the intended use and place of use. In the case of this application, this order serves as the notice described above.
3. The licensee shall maintain a record of all water use, including the total number of hours of pumping, the total quantity pumped, and the categories of beneficial use to which the water is applied. During the period of the license, the record of use shall be submitted to the Department annually, and shall be submitted to the Watermaster upon request.
4. The Director may revoke the right to use water for any reason described in ORS 537.143(2), and OAR 690-340-0030(6). Such revocation may be prompted by field regulatory activities or by any other information.
5. Use of water under a limited license shall not have priority over any water right exercised according to a permit or certificate, and shall be subordinate to all other authorized uses that rely upon the same source.
6. A copy of this license shall be kept at the place of use, and be available for inspection by the Watermaster or other state authority.

NOTE: This water-use authorization is temporary. Applicants are advised that issuance of this final order does not guarantee that any permit for the authorized use will be issued in the future; any investments should be made with that in mind.
