

**Oregon Water Resources Department**  
**Water Right Services Division**

**PROPOSED FINAL ORDER**

In the Matter of the Application for an Extension of Time for Permit G-15853, Water Right Application G-16275, in the name of Gary Wilde.

---

Permit Information

Application:	G-16275
Permit:	G-15853
Basin:	6 – John Day / Watermaster District 21
Date of Priority:	July 16, 2004
Source of Water:	A well within the Rock Creek Basin
Purpose of Use:	Supplemental irrigation of 12.8 Acres
Maximum Rate:	0.16 cubic feet per second (cfs)

---

***\*\*Please read this Proposed Final Order in its entirety as it may contain additional conditions not included in the original permit. \*\****

*In Summary, the Department proposes to:*

- Grant an extension of time to apply water to full beneficial use from October 1, 2014 to October 1, 2020<sup>1</sup>.

This Extension of Time request is being processed in accordance with Oregon Revised Statute 537.630 and 539.010(5), and Oregon Administrative Rule Chapter 690, Division 315.

---

<sup>1</sup>Pursuant to ORS 537.630(4), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

## **ACRONYM QUICK REFERENCE**

Department – Oregon Department of Water Resources

PFO – Proposed Final Order

cfs – cubic feet per second

gpm – gallons per minute

## **AUTHORITY**

Generally, see ORS 537.630 and OAR Chapter 690 Division 315.

**ORS 537.630(1)** provides in pertinent part that the Oregon Water Resources Department may, for good cause shown, order an extension of time within which: irrigation or other works shall be completed; the well or other means of developing and securing ground water shall be completed; or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5) and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

**ORS 539.010(5)** provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

**OAR 690-315-0040** provides in pertinent part that the Water Resources Department shall make findings to determine if an extension of time may be approved to complete construction and/or apply water to full beneficial use.

## **FINDINGS OF FACT**

### *Background*

1. Permit G-15853 was issued by the Department on February 17, 2005. The permit authorizes the use of up to 0.16 cfs of water from a well in Rock Creek Basin for supplemental irrigation use on 12.8 acres. The permit specified complete application of water was to be made on or before October 1, 2009.
2. On April 27, 2015, the Department received an application for approval of a Permit Amendment T-12050 for a change or an additional the point of appropriation under Permit G-15853 from Well 1 (poor yield) to existing Well 2.
3. One prior permit extension has been granted for Permit G-15853. The most recent

extension request resulted in the full application of water being extended from October 1, 2009 to October 1, 2014.

4. The permit holder, Gary Wilde submitted an "Application for Extension of Time" to the Department on April 27, 2015, requesting the time to apply water to full beneficial use under the terms and conditions of Permit G-15853 be extended from October 1, 2014 to October 1, 2020.
5. Notification of the Application for Extension of Time for Permit G-15853 was published in the Department's Public Notice dated May 5, 2015. No public comments were received regarding the extension application.

**Review Criteria [OAR 690-315-0040]**

*The time limits to complete construction and/or apply water to full beneficial use may be extended if the Department finds that the permit holder has met the requirements set forth under OAR 690-315-0040. This determination shall consider the applicable requirements of ORS 537.230<sup>2</sup>, 537.248<sup>3</sup>, 537.630<sup>4</sup> and/or 539.010(5)<sup>5</sup>.*

**Complete Extension of Time Application [OAR 690-315-0040(1)(a)]**

6. On April 27, 2015, the Department received a completed Application for Extension of Time and the fee specified in ORS 536.050 from the permit holder.

**Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]**

7. Senate Bill 300 (1999 legislation) eliminated the requirement that holders of new surface water and ground water permits start construction on water projects within one year after the Department issues the permit. Senate Bill 300 applies to any application for a permit filed after October 23, 1999, including this application.

**Duration of Extension [OAR 690-315-0040(1)(c)]**

*Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.*

8. As of April 27, 2015, the permit holder states the remaining work to be completed consists of gaining approval for Permit Amendment T-12050; meeting all permit conditions such as installing a meter; and applying water to full beneficial use.
9. Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 1, 2020, to accomplish the application

---

<sup>2</sup>ORS 537.230 applies to surface water permits only.

<sup>3</sup>ORS 537.248 applies to reservoir permits only.

<sup>4</sup>ORS 537.630 applies to ground water permits only.

<sup>5</sup>ORS 539.010(5) applies to surface water and ground water permits.

of water to beneficial use under the terms and conditions of Permit G-15853 is both reasonable and necessary.

**Good Cause [OAR 690-315-0040(1)(d)]**

*The Department's determination of good cause shall consider the requirements set forth under OAR 690-315-0040(2).*

**Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]**

*The Department's determination of reasonable diligence shall consider the requirements set forth under OAR 690-315-0040(3)(a-d). In accordance with OAR 690-315-0040(3), the Department shall consider, but is not limited to, the following factors when determining whether the applicant has demonstrated reasonable diligence in previous performance under the permit:*

**Amount of Construction [OAR 690-315-0040(3)(a)]**

10. According to the permit holder, work was accomplished within the time allowed in the permit or previous extension as follows:
  - a. Construction of the well was completed prior to October 1, 2009. Construction of Well (GILL 50042) began May 21, 1997 and was completed May 23, 23, 1997. The permit holder also states that the pump was installed.
  - b. Work was completed during the original development time frame under Permit G-15853, the permit holder states they installed a meter in 2008.
  - c. During the most recent extension period, being from October 1, 2009, to October 1, 2014, the following was accomplished:
    - Completed construction of the unauthorized second well (GILL 50338), due to Well (GILL 50042) insufficient yield;
    - Installed a pump and mainline pipes.

**Beneficial Use of Water [OAR 690-315-0040(3)(b)]**

11. According to the water user a maximum rate of 0.16 cfs of water has been appropriated from the unauthorized Well (GILL 50338) for irrigation of 12.8 acres.
12. Beneficial use of water has not yet been demonstrated under this permit because not all permit conditions were satisfied by October 1, 2014.
13. According to the permit holder, delay of full beneficial use of water under Permit G-15853 was due, in part, to insufficient yield of water from the permitted Well 1 (GILL 50042). The permit holder needs more time in which to gain approval for Well 2 (GILL 50338) as an additional point of appropriation to obtain the full quantity of water

allowed under the permit.

*Compliance with Conditions [OAR 690-315-0040(3)(c)]*

14. The Department has received for the authorized Well 1 (GILL 50042) a March Static Water level measurement in 2014.
15. The Department has considered the permit holder's compliance with conditions, and has identified the following concerns: (1) the required March static water level measurements have not been received by the Department, and (3) Well 2 (GILL 50338) deviates from the proposed location in the permit application.

**Failure to comply with permit conditions constitutes illegal use of water. Beneficial use of water under this permit, therefore, has not yet been demonstrated. In order to legally perfect the use of water under this permit, the permit holder must demonstrate that all conditions of the permit have been satisfied.**

*Financial Investments to Appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b),(3)(d),(4)(d)]*

16. As of April 27, 2015, the permit holder states they have invested approximately \$20,400, which is approximately 97 percent of the total projected cost for complete development of this project. The permit holder anticipates an additional \$500 investment is needed for the completion of this project.

*Good Faith of the Appropriator [OAR 690-315-0040(2)(c)]*

17. The Department has found good faith of the appropriator under Permit G-15853.

*The Market and Present Demands for Water [OAR 690-315-0040(2)(d-e)]*

*The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:*

18. The amount of water available to satisfy other affected water rights and scenic waterway flows; special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d); or the habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife [OAR 690-315-0040(4)(a-c)].

The amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit G-15853; furthermore, water availability for other affected water rights and scenic waterway

flows after the permit was issued is determined when an application for a new water right is submitted. The point of appropriation for Permit G-15853, located within the Rock Creek Basin, is not located within a limited or critical ground water area. Rock Creek is above the John Day Scenic Waterway, and it is located within an area ranked "high" for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife. The point of appropriation is not in an area listed by the Department of Environmental Quality as a water quality limited stream.

*Other economic interests dependent on completion of the project [OAR 690-315-0040(4)(e)].*

19. None have been identified.

*Other factors relevant to the determination of the market and present demand for water and power [OAR 690-315-0040(4)(f)].*

20. None have been identified.

*Fair Return Upon Investment [OAR 690-315-0040(2)(f)]*

21. Use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

*Other Governmental Requirements [OAR 690-315-0040(2)(g)]*

22. Delay in the development of this project was not caused by any other governmental requirements.

*Unforeseen Events [OAR 690-315-0040(2)(h)]*

23. None have been identified.

## **CONCLUSIONS OF LAW**

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.630(1).
2. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
3. The applicant complied with begin actual construction timeline requirements pursuant to ORS 537.630 as required by OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).
4. Full application of water to beneficial use can be accomplished by October 1, 2020, as required by OAR 690-315-0040(1)(c).
5. The Department has considered the reasonable diligence and good faith of the

appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).

## PROPOSED ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time to apply water to beneficial use under Permit G-15853 from October 1, 2014 to October 1, 2020.

DATED: June 9, 2015

  
Dwight W. French, Administrator,  
Water Right Services Division

### Proposed Final Order Hearing Rights

1. Under the provisions of OAR 690-315-0100(1) and 690-315-0060, the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. The written protest must be received by the Water Resources Department no later than **July 24, 2015**, being 45 days from the date of publication of the proposed final order in the Department's weekly notice.
2. A written protest shall include:
  - a. The name, address and telephone number of the petitioner;
  - b. A description of the petitioner's interest in the proposed final order and if the protestant claims to represent the public interest, a precise statement of the public interest represented;
