By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

☐ Yes

☐ There are no encumbrances.

☐ This land is encumbered by easements, rights of way, roads or other encumbrances.

☒ No

☒ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or easement permitting access.

☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

☐ Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

____ U.S. FOREST SERVICE
SECTION 30 LANE COUNTY (SEE ATTACHED)

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: UN NAMED STREAM Tributary to: TEN MILE CREEK

If *all* sources listed in item 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

☐ By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated.

Primary: _____ Acres Supplemental: _____ Acres

List the Permit or Certificate number of the underlying primary water right(s): _____

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: _____

- If the use is **municipal or quasi-municipal**, attach **Form M**

☒ If the use is **domestic**, indicate the number of households: 1

- If the use is **mining**, describe what is being mined and the method(s) of extraction:

SECTION 5: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

☐ Pump (give horsepower and type): _____

☒ Other means (describe): GRAVITY - FEED THROUGH 1" LINE

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

SEE ATTACHED

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) _____

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

SEE ATTACHED

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

☒ Diversion will be screened to prevent uptake of fish and other aquatic life.

Describe planned actions: INTAKE DOUBLE SCREENED
25 GAL PLASTIC SETTLING TANK SCREENED IN LAYERS

☒ Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.

Describe planned actions: NO CLEARING

☒ Operating equipment in a water body will be managed and timed to prevent damage to aquatic life.

Describe: NO EQUIPMENT

☒ Water quality will be protected by preventing erosion and run-off of waste or chemical products.

Describe: NO EROSION CREATED / NO CHEMICALS USED ANYWHERE

C. CONSERVATION

An important part of conservation
is the intake can only catch a small
portion of creek water even in summer.
In addition, I am very conservative
with water use: no dishwasher, no water
running, greywater used for small garden
at house. I flush the toilet sparingly
and take small baths. The orchard and
other perennial plants are established with
mulch and are not watered. I can measure
water use by measuring output at faucets
and timing their use. Home is only
building with plumbing. Spigots at
shop and barn.

To the Water Board:

RECEIVED

MAY 27 2015

WATER RESOURCES DEPT
SALEM, OREGON

Thank you for your consideration.
Water at Ten mile Creek is precious, and I have always treated it so. I am asking you to approve 'minimum for human consumption' for my small cabin which has been sustained by the adjacent creek for over 100 years.

I purchased the 40 acres which included the cabin in 1978 and installed the basic system which is still in place. In 1982 the Forest Service resurveyed and found this original homestead on 320 acres to be on their property. In 1990, the Forest Service gave me the special use permit on the water system and in 1992 deeded the land and cabin to me. This created Tax lot 101 which is not a 'legal lot', but an extension of Tax lot 704. I married in 2000 and we began the long process of attaining non-conforming use status for the cabin. We looked carefully for springs without finding a single possibility. We also dug a well going down 400' and finding very little water. Non conforming use was established in 2009 and my husband drowned months later. My mother died soon after that, and it is only now I am able to present this application.

I feel confident my minimal water use does not negatively impact this beautiful valley which has been my home almost 40 yrs. You can trust me to use this creek beneficially. Again, thank you.

Sincerely,
Sarah Delfield

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
