

May 25, 1939

Mr. Irvin R. Payne
Toledo, Oregon

Dear Sir:

This will acknowledge receipt of your application for a permit to appropriate one-half second-foot of water from Beaver Creek for the irrigation of 30 acres, together with fees in the amount of \$9.50 for which Receipt No. 24482 is enclosed.

The application has been filed and given No. 18105. It has been checked over and found to be not quite complete. Under Item 4 the corner to which the diversion point is referred should be indicated and the forty-acre tract or government lot within which this point is situated should also be shown under this item. Under Item 7, the main pipe line should be described as to size, length and fall and if the use of sprinklers is contemplated, the number to be used should be indicated, together with the quantity of water required to operate each one. Under Item 8, the number of acres to be irrigated in each government lot or forty-acre tract should be noted. Items 11, 12, 13 and 14 should be filled in and your signature and those of witnesses should be affixed. The map submitted with the application should show the location of the point of diversion and the location of the areas to be irrigated in each forty-acre tract, as explained on pages 6 and 7 of the enclosed copy of the Rules and Regulations of the State Engineer.

For your convenience in completing your application and map, I am enclosing them herewith. The application has been endorsed so that in order to retain its priority it must be returned to this office within thirty days or on or before June 26, 1939.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer
