Dear Larry:

The Water Resources Department has received your applications to use or store water. At this time however, we are unable to accept your applications, because the minimum filing requirements are not met according to the Oregon Administrative Rules (OAR 690-310-0040 and 0050).

The applications do not state the intended use of the stored water in section 4. You must indicate what the use will be.

The maps submitted do not meet the minimum requirements necessary in an application map. We have prepared maps based on the information you have provided that would be acceptable. Please review the map provided for any errors, and if acceptable to you, submit them with the completed applications.

We are hereby returning the incomplete applications and the fees submitted. Please return the applications, the required information so the Department may begin processing your applications in a timely manner.

This review is based only on the completeness of your applications. Any determination of water availability, compliance with basin plan rules, or any other water related issues has not been made.

Should you have any questions, please do not hesitate to contact Customer Service at the address above or by telephone at 503-986-0801.

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.
