Water-Use Permit Application Processing

RECEIVED

AUG 07 2015

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed, the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department issues a Final Order consistent with the PFO. If the application is approved, a permit is issued that specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- I cannot use water legally until the Water Resources Department issues a permit.
- Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land-use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

Yes **TL 3 2E 27 803, TL 3 2E 27 900, TL 3 2E 990**

- There are no encumbrances.
- This land is encumbered by easements, rights of way, roads or other encumbrances.

No **TL 3 2E 27 804**

- I have a recorded easement or written authorization permitting access.
- I do not currently have written authorization or easement permitting access.
- Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

SECTION 5: WATER MANAGEMENT

RECEIVED

AUG 07 2015

WATER RESOURCES DEPT
SALEM, OREGON

A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

Pump (give horsepower and type): 5 Hp Submersible in each well

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. The water will be pumped into an existing reservoir to be used as a bulge in the system. From the reservoir, a 30-Hp pump will be used to convey the water through an existing six-inch mainline. The mainline reduces to four-inch to the different fields.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) At each field several different irrigation methods are used, including overhead traveler (75-150 gpm) in dairy pastures, and low flow and pressure underground drip tape used on garden crops and in greenhouses (max 50 gpm).

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters.

Irrigation will be done using best management practices to prevent waste. Best management practices will be followed to prevent impacts to surface waters and riparian habitat.

SECTION 6: STORAGE OF GROUND WATER IN A RESERVOIR

If you would like to store ground water in a reservoir, complete this section (*if more than one reservoir, reproduce this section for each reservoir*).

Reservoir name: NA Acreage inundated by reservoir: NA

Use(s): NA

Volume of Reservoir (acre-feet): NA Dam height (feet, if excavated, write "zero"): NA

Note: If the dam height is greater than or equal to 10.0' above land surface AND the reservoir will store 9.2 acre feet or more, engineered plans and specifications must be approved prior to storage of water.

SECTION 7: USE OF STORED GROUND WATER FROM THE RESERVOIR

If you would like to use stored ground water from the reservoir, complete this section (*if more than one reservoir, reproduce this section for each reservoir*).

Annual volume (acre-feet): NA

USE OF STORED GROUND WATER	PERIOD OF USE
NA	NA

SECTION 8: PROJECT SCHEDULE

Date construction will begin: As soon as permit issued

Date construction will be completed: Four years after permit issued

Date beneficial water use will begin: Five years after permit issued

Pasture Lease

This lease entered into this 21st day of 2015, between Walter L. Childs Jr. and Roberta V. Childs, owner, residing at 10300 Blake Lane, Oakton, VA 22124, (Landlord), and John R. Childs, residing at 10400 SE 282nd Ave, Boring, OR 97009 (Operator).

I. Property Description. The Landlord hereby leases to the Operator, to occupy and use for agricultural and related purposes, the following described property: TL 3 2E 27 804 consisting of approximately 9 acres (but not including the house at 15211 S. Kirk Rd, Oregon City, Oregon) situated in Clackamas County, Oregon.

II. General Terms of Lease.

A. Continuing Lease. This lease shall commence on the 21st day of July 2015, and shall continue in effect from year to year thereafter (as an annual lease) unless written notice of termination is given by either party to the other at least 30 days prior to the end of any calendar year of continuation.

B. Review of Lease. A request for general review of the lease may be made by either party at least 30 days prior to the final date for giving notice to terminate the lease.

C. Amendments. Amendments and alterations to this lease shall be in writing and shall be signed by both the Landlord and Operator.

D. No partnership created. This lease shall not be deemed to give rise to a partnership relation, and neither party shall have authority to obligate the other without written consent, except as specifically provided in this lease.

E. Binding on heirs. The terms of this lease shall be binding upon the heirs, executors, administrators, and successors of both Landlord and Operator in like manner as upon the original parties, except as provided by mutual written agreement otherwise.

F. Transfer of property. If the Landlord should sell or otherwise transfer title to the farm, such action will be done subject to the provisions of this lease.

G. Right of entry. The Landlord, as well as agents and employees of the Landlord, reserve the right to enter the farm at any reasonable time for purposes: a) of consultation with the Operator; b) of making repairs, improvements, and inspections; and c) after notice of termination of the lease is given, of performing customary seasonal work, none of which is to interfere with the Operator in carrying out regular operations.

III. Operation and Maintenance

A. The Operator agrees: 1. Not to pasture livestock that continue to break through fences. 2. Not to assign rights and duties under this lease without the written consent of the Landlord.

B. Both Agree: 1. Not to obligate the other party. Neither party shall be responsible for the debts or liabilities incurred or for damages caused by the other party. 2. Responsibilities. Additional responsibilities for each party shall be divided as follows: Operator shall inspect fences not less than once per year, furnish labor for repair of fences, furnish materials for repair of fences, supervise supply of water to livestock, furnish labor for repair of water system, provide materials for repair of water system, furnish salt and minerals. 3. Irrigation Rights. Both agree that Operator has the right to irrigate the property as he desires with water obtained from his adjacent property and as allowed by State of Oregon.

IV. Rent. The Operator agrees to pay \$10.00 per year for the use of the property described in Part I.
