### Application for a Permit to Use

# **Ground Water**

### Water-Use Permit Application Processing

### 1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (<a href="www.oregon.gov/owrd/law">www.oregon.gov/owrd/law</a>). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

### 2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

### 3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at <a href="https://www.oregon.gov/owrd">www.oregon.gov/owrd</a>. The public comment period is 30 days from publication in the weekly notice.

### 4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

### 5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed, the Department will attempt will schedule a contested case hearing if necessary.

6. Final Order Issued OCT 16 2015

If no protests are filed, the Department issues a Final Order consistent with the PWATEFIRE SOURCES DEPT approved, a permit is issued that specifies the details of the authorized use and any terms, filmitations or conditions that the Department deems appropriate.

# Minimum Requirements Checklist Minimum Requirements (OAR 690-310-0040, OAR 690-310-0050 & ORS 537.615)

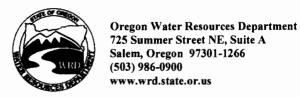

### Include this checklist with the application

Check that each of the following items is included. The application will be returned if all required items are not included. If you have questions, please call the Water Rights Customer Service Group at (503) 986-0900.

$\boxtimes$	SECTION 1: applicant information and signature
$\boxtimes$	SECTION 2: property ownership
$\boxtimes$	SECTION 3: well development
$\boxtimes$	SECTION 4: water use
$\boxtimes$	SECTION 5: water management
	SECTION 6: storage of groundwater in a reservoir
	SECTION 7: use of stored groundwater from the reservoir
$\boxtimes$	SECTION 8: project schedule
	SECTION 9: within a district
$\boxtimes$	SECTION 10: remarks
	Attachments:
	Land Use Information Form with approval and signature ( <i>must be an original</i> ) or signed receipt
$\boxtimes$	Provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map. Example: A copy of the deed, land sales contract or title insurance policy.
$\boxtimes$	Fees - Amount enclosed: \$2500 See the Department's Fee Schedule at <a href="https://www.oregon.gov/owrd">www.oregon.gov/owrd</a> or call (503) 986-0900.
	Provide a map and check that each of the following items is included:
$\boxtimes$	Permanent quality and drawn in ink
$\boxtimes$	Even map scale not less than $4" = 1$ mile (example: $1" = 400$ ft, $1" = 1320$ ft, etc.)
$\boxtimes$	North Directional Symbol
$\boxtimes$	Township, Range, Section, Quarter/Quarter, Tax Lots
$\boxtimes$	Reference corner on map
$\boxtimes$	Location of each well, and/or dam if applicable, by reference to a recognized public land survey corner (distances north/south and east/west). Each well must be identified by a unique name and/or number.
$\boxtimes$	Indicate the area of use by Quarter/Quarter and tax lot clearly identified
	Number of acres per Quarter/Quarter and hatching to indicate area of use if for prima RIECE VED supplemental irrigation, or nursery
	Location of main canals, ditches, pipelines or flumes (if well is outside of the area of use) 16 2015

Date

For Department Use

Permit No.

App. No. G-18150

### **SECTION 2: PROPERTY OWNERSHIP**

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

⊠ Yes		
	$\boxtimes$	There are no encumbrances.
		This land is encumbered by easements, rights of way, roads or other encumbrances.
□ No		
		I have a recorded easement or written authorization permitting access.
		I do not currently have written authorization or easement permitting access.
		Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
		Water is to be diverted, conveyed, and/or used only on federal lands.
List the	na	mes and mailing addresses of all affected landowners (attach additional sheets if necessary).

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

### **SECTION 3: WELL DEVELOPMENT**

		IF LESS T	HAN 1 MILE:
WELL NO.	NAME OF NEAREST SURFACE WATER	DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD
1	Unnamed Creek (intermittent)	1,825'	Well @ 236 USGS Creek @ 241 USGS
2	Unnamed Creek (intermittent)	1,200'	Well @ 240 USGS Creek @ 241 USGS
3	Unnamed Creek (intermittent)	1,700'	Well @ 240 USGS Creek @ 241 USGS

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials (attach additional sheets if necessary).

The total amount of water will be 100 gpm from any combination of 1 to 3 wells.

Ground Water/4 WR

### **SECTION 3: WELL DEVELOPMENT, CONTINUED**

Total maximum rate requested: 100 gpm (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. (If a well log is available, please submit it in addition to completing the table.) If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

										PRO	POSED U	JSE	
OWNER'S WELL NAME OR NO. <sup>\*\*</sup> A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

<sup>\*\*\*</sup> Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

### **SECTION 4: WATER USE**

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
IM	Jan 1 - Dec 31	161.3

**Exempt Uses:** Please note that 15,000 gallons per day for single or group **domestic** purposes and 5,000 gallons per day for a single **industrial or commercial** purpose are exempt from permitting requirements.

•		
	r irrigation use only: ase indicate the number of primary and supplemental acres to be irrigated (must match m	<i>ap</i> ).
Pri	mary: Acres Supplemental: Acres	
Lis	t the Permit or Certificate number of the underlying primary water right(s):	
Ind	icate the maximum total number of acre-feet you expect to use in an irrigation season:	
•	If the use is municipal or quasi-municipal, attach Form M	
•	If the use is <b>domestic</b> , indicate the number of households:	
	If the use is <b>mining</b> , describe what is being mined and the method(s) of extraction:	RECEIVE
	CTION 5: WATER MANAGEMENT	OCT 16 2015
A.	Diversion and Conveyance What equipment will you use to pump water from your well(s)?	WATER RESOURCES DE SALEM, OREGON
	∑ Pump (give horsepower and type): To be determined based on water depth an 100' depth to water and 33 gpm, pump would be 1.5 hp in each of the 3 wells. If w obtained from 1 or 2 wells, hp will be adjusted accordingly.	
	☐ Other means (describe):	
	Provide a description of the proposed means of diversion, construction, and operation of works and conveyance of water. Each well will be equipped with an appropriate for the volume of water available at that well. Water will be transported via 2 or 3 PVC pipe to the building. If more than one well is constructed, a pipeline will be the between the wells to provide a single entrance point into the building. A pressure to installed prior to use within the building.	ely sized pump i-inch dia. buried constructed
В.	Application Method What equipment and method of application will be used? (e.g., drip, wheel line, high-pr	essure sprinkler)

### C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters.

The amount of water requested is the amount necessary to supply the manufacturing process. The system will be a closed system so no water will be wasted. The only source is well water so no riparian or aquatic habitat is involved. Any contaminated water will be discharged to the City of Salem's sanitary sewer system. In the future, processes may be available to reuse 80-90% of the water in house. There will be no adverse impact to public uses of surface waters.
