

FO CHECKLIST

FILE # G-15484
PFO WEEK # 399
FO WEEK # 375

PFO TO FO CONVERSION

REVIEW DATE: 5/9/03
INITIALS: JWG
WM District: 17
Region Mgr: _____
ODFW Bio: _____

Y / N Has applicant name and/or address changed; or has the file been assigned?

If new: _____

In preparing to create the FO, you should check the following:

- Y / N Were comments received? If so, from whom and when? _____
Respond to significant comments, issues, or disputes related to the proposed use of water (see notes, if any, listed above)
- On the PFO CC list, verify names and mailing addresses of ALL commentors (regardless of comment date, affected landowners, and those who paid the \$10 fee).
- Y / N / NA Have affected land owners been notified? If not, refer to #8.
- Y / N / NA Has ODFW asked for self certification of screening condition? If yes, include fish screening form.
- Correct PFO errors (such as POD or POU location (verify from map)
- Are requested GW conditions included in permit? If no, add condition(s): _____
- Verify Payment of recording fees (circle the appropriate option)

(1) Issue FO w/permit if fees are paid — Prepare refund request for excess fees, including standing fees if no protest is filed and no modifications are being made to the PFO.

(2) Issue FO w/o permit if fees are lacking.

Reviewer's Name: Jerry Gainer Date: 10/30/01

(5) Upon completion of the initial review and no later than 30 days after determining an application to be complete and not defective as described in subsection (2) of this section, the department shall notify the applicant of its preliminary determinations and allow the applicant 14 days from the date of mailing within which to notify the department to stop processing the application or to proceed with the application. If the applicant notifies the department to stop processing the application, the department shall return the application and all except \$50 of all fees. If the department receives no timely response from the applicant, the department shall proceed with the application.

(6) Within seven days after proceeding with the application under subsection (5) of this section, the department shall give public notice of the application in the weekly notice published by the department. The notice shall include a request for comments on the application and information pertaining to how an interested person may obtain future notices about the application and a copy of the proposed final order.

(7) Within 30 days after the public notice under subsection (6) of this section, any person interested in the application shall submit written comments to the department. Any person who asks to receive a copy of the department's proposed final order shall submit to the department the fee required under ORS 536.050 (1)(p). [1955 c.708 §10; 1981 c.589 §4; 1985 c.673 §55; 1989 c.201 §3; 1991 c.102 §2; 1991 c.400 §3; 1991 c.735 §35; 1993 c.557 §5; 1995 c.416 §23; 1997 c.587 §9]

537.621 Review of application; proposed final order; presumption that use will ensure preservation of public welfare, safety and health; flow rate and duty; standing; protest; final order; contested case hearing. (1) Within 60 days after the Water Resources Department proceeds with the application under ORS 537.620 (5), the department shall complete application review and issue a proposed final order approving or denying the application or approving the application with modifications or conditions. The department may request the applicant to provide additional information needed to complete the review. If the department requests additional information, the request shall be specific and shall be sent to the applicant by registered mail. The department shall specify a date by which the information must be returned, which shall be not less than 10 days after the department mails the request to the applicant. If the department does not receive the information or a request for a time extension under ORS 537.627 by the date specified in the request, the department may reject the

application and may refund fees in accordance with ORS 536.050 (3). The time period specified by the department in a request for additional information shall allow the department to comply with the 60-day time limit established by this subsection.

(2) In reviewing the application under subsection (1) of this section, the department shall determine whether the proposed use will ensure the preservation of the public welfare, safety and health as described in ORS 537.525. The department shall presume that a proposed use will ensure the preservation of the public welfare, safety and health if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310 (12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission. This shall be a rebuttable presumption and may be overcome by a preponderance of evidence that either:

(a) One or more of the criteria for establishing the presumption are not satisfied; or

(b) The proposed use would not ensure the preservation of the public welfare, safety and health as demonstrated in comments, in a protest under subsection (7) of this section or in a finding of the department that shows:

(A) The specific aspect of the public welfare, safety and health under ORS 537.525 that would be impaired or detrimentally affected; and

(B) Specifically how the identified aspect of the public welfare, safety and health under ORS 537.525 would be impaired or be adversely affected.

(3) The proposed final order shall cite findings of fact and conclusions of law and shall include but need not be limited to:

(a) Confirmation or modification of the preliminary determinations made in the initial review;

(b) A brief statement that explains the criteria considered relevant to the decision, including the applicable basin program and the compatibility of the proposed use with applicable land use plans;

(c) An assessment of water availability and the amount of water necessary for the proposed use;

(d) An assessment of whether the proposed use would result in injury to existing water rights;

(e) An assessment of whether the proposed use would ensure the preservation of the public welfare, safety and health as described in ORS 537.525;

(f) A draft permit, including any proposed conditions, or a recommendation to deny the application;

(g) Whether the rebuttable presumption under subsection (2) of this section has been established;

(h) The date by which protests to the proposed final order must be received by the department; and

(i) The flow rate and duty of water allowed.

(4) In establishing the flow rate and duty of water allowed, the department may consider a general basin-wide standard, but first shall evaluate information submitted by the applicant to demonstrate the need for a flow rate and duty higher than the general standard. If the applicant provides such information, the department shall authorize the requested rate and duty except upon specific findings related to the application to support a determination that a lesser amount is needed. If the applicant does not provide information to demonstrate the need for a flow rate and duty higher than the general basin-wide standard, the department may apply the general standards without specific findings related to the application.

(5) The department shall mail copies of the proposed final order to the applicant and to persons who have requested copies and paid the fee required under ORS 536.050 (1)(p). The department also shall publish notice of the proposed final order by publication in the weekly notice published by the department.

(6) Any person who supports a proposed final order may request standing for purposes of participating in any contested case proceeding on the proposed final order or for judicial review of a final order. A request for standing shall be in writing and shall be accompanied by the fee established under ORS 536.050 (1)(n).

(7) Any person may submit a protest against a proposed final order. A protest shall be in writing and shall include:

(a) The name, address and telephone number of the protestant;

(b) A description of the protestant's interest in the proposed final order, and if the protestant claims to represent the public interest, a precise statement of the public interest represented;

(c) A detailed description of how the action proposed in the proposed final order would impair or be detrimental to the protestant's interest;

(d) A detailed description of how the proposed final order is in error or deficient

and how to correct the alleged error or deficiency;

(e) Any citation of legal authority supporting the protest, if known; and

(f) For persons other than the applicant, the protest fee required under ORS 536.050.

(8) Requests for standing and protests on the proposed final order shall be submitted within 45 days after publication of the notice of the proposed final order in the weekly notice published by the department. Any person who asks to receive a copy of the department's final order shall submit to the department the fee required under ORS 536.050 (1)(p), unless the person has previously requested copies and paid the required fee under ORS 537.620 (7), the person is a protestant and has paid the fee required under ORS 536.050 (1)(j) or the person has standing and has paid the fee under ORS 536.050 (1)(n).

(9) Within 60 days after the close of the period for receiving protests, the Water Resources Director shall:

(a) Issue a final order as provided under ORS 537.625 (1); or

(b) Schedule a contested case hearing if a protest has been submitted and if:

(A) Upon review of the issues, the director finds that there are significant disputes related to the proposed use of water; or

(B) Within 30 days after the close of the period for submitting protests, the applicant requests a contested case hearing. [1995 c.416 §25; 1995 c.549 §1a; 1997 c.446 §7; 1997 c.587 §10]

537.622 Contested case hearing; parties; issues. (1) Within 45 days after the Water Resources Director schedules a contested case hearing under ORS 537.621 (9), the Water Resources Department shall hold the contested case hearing. The issues to be considered in the contested case hearing shall be limited to issues identified by the hearings officer.

(2) Notwithstanding the provisions of ORS 183.310 to 183.550 pertaining to contested case proceedings, the parties to any contested case hearing initiated under this section shall be limited to:

(a) The applicant;

(b) Any person who timely filed a protest; and

(c) Any person who timely filed a request for standing under ORS 537.621 (6) and who requests to intervene in the contested case hearing prior to the start of the proceeding.

(3) The contested case proceeding shall be conducted in accordance with the applicable provisions of ORS 183.310 to 183.550 except:
