

OREGON WATER RESOURCES DEPARTMENT

COUNTY OF KLAMATH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

STANLEY STONIER
PO BOX 5
BEATY OR 97621

confirms the right to use the waters of TWO WELLS, within the SPRAGUE RIVER BASIN for IRRIGATION of 191.7 ACRES.

This right was perfected under Permit G-3632. The date of priority is MAY 16, 1967. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 2.4 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the well.

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
36 S	12 E	WM	6	NW SW	ORIGINAL WELL - 949.91 FEET NORTH & 3693.36 FEET EAST FROM S1/4 CORNER, SECTION 1
36 S	12 E	WM	6	SW SW	ADDITIONAL WELL - 1282.35 FEET SOUTH & 3789.59 FEET EAST FROM C S 1/16 CORNER, SECTION 1

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE FIFTH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	11 E	WM	1	NE SE	13.0
36 S	11 E	WM	1	NW SE	3.4
36 S	11 E	WM	1	SW SE	37.4
36 S	11 E	WM	1	SE SE	40.0
36 S	12 E	WM	6	SE NW	0.1
36 S	12 E	WM	6	NE SW	18.0
36 S	12 E	WM	6	NW SW	23.8
36 S	12 E	WM	6	SW SW	36.2
36 S	12 E	WM	6	SE SW	19.8

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water shall be acquired from the same aquifer as the original point of appropriation.

The quantity of water diverted at the new point of appropriation, together with that diverted at the old point of appropriation, shall not exceed the quantity of water available from the original point of appropriation.

The water user shall maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a change in ADDITIONAL POINT OF APPROPRIATION approved by an order of the Water Resources Director entered SEPTEMBER 27, 2005, at Special Order Volume 67, Page 189, approving Transfer Application 9492, and supersedes Certificate 42500, State record of Water Right Certificates.

Sprague River, OR 97639

Dear Mr. Firsick:

On July 28, 1975, we mailed you a copy of a proof of the certificate in connection with the incomplete water right represented by your permit numbered G-3632 granting a right to the use of water from a well, together with the instructions that the statement at the bottom of the page be signed by you and the copy be returned to this office accompanied by the certificate recording fee in the amount of \$2.00.

To date this form has not been received and we are not able to issue the certificate of water right until the signed proof has been submitted with the recording fee.

Very truly yours,

VESTAL R. GARNER
Assistant

FILE NO. G-3932

CHRIS L. WHEELER
State Engineer

Ernest D. Firsick
P. O. Box 343
Sprague River, Oregon 97639

Gentlemen:

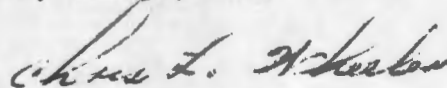

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. G-3632.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir:

This will acknowledge the notice of completion of construction under the terms of permit No. G-3632.

Under the provisions of the permit, the time limit for completion of the appropriation by accomplishing the authorized beneficial use of water to the full extent intended will expire October 1, 1970. (In the case of irrigation completion of the appropriation means at least one beneficial irrigation of all the land to be irrigated under the subject permit.)

Very truly yours,

CHRIS L. WHEELER
State Engineer

Form 119

vjm

December 10, 1968

Ernest D. Firsick
P. O. Box 343
Sprague River, Oregon 97639

Dear Mr. Firsick:

This letter is in reference to your correspondence received December 9, 1968, in which you request information regarding a water well report of your well constructed by Mr. Charles Hartley and the procedure regarding filing of final water rights.

Our records indicate that Mr. Hartley filed a water well report for the subject well on October 4, 1967. The well log shows that the well is 16 inches in diameter and is 950 feet deep. The location of the well is shown to be in the NW¹/₄ SW¹/₄, Section 6, Township 36 South, Range 12 East. We will be able to provide you with a copy of the log upon receipt of the statutory copying fee. Fees are charged in the amount of \$1.00 for the first page and \$.25 for each additional page. Since the subject log covers three separate sheets, the copying fee for this particular log is \$1.50. You may also obtain a copy directly from Mr. Hartley.

When you have completed the irrigation of the lands under your Permit No. G-3632, you should complete and submit the notice which is attached to the permit. We make a survey to determine the extent of use of water after which a proof form is prepared for your examination and signature preparatory to the issuance of the final certificate.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir:

I am writing in reference to my ground water right application, number G-3932. The irrigation well has been completed for over a year now, and I was wondering if you had ever recieved a copy of the log on the well? I haven't recieved a log on the well, I didn't know if Mr. Charles Hartley (the well driller), was suppose to send me a copy or send it directly to you. Could you tell me what the procedure is on this?

I will be ready to file for my final water rights this next fall, as my irrigation project will be finished by then, and all intended acreage will have been irrigated. Please let me know how I go about filing for the final water rights. Thank you.

Very truly yours,

Ernest D. Firsick

Ernest D. Firsick
 P. O. Box 343
 Sprague River, Oregon 97639

Dear Mr. Firsick:

This letter is in reference to your irrigation well located in the NW¹/₄ SW¹/₄, Section 6, Township 36 South, Range 12 East, W. M. Our records indicate that the well is cased with 16-inch diameter casing to a depth of 187 feet and 12-inch diameter casing from 180 feet to 534 feet. The total depth of the well is given as 950 feet. Our records also show that the subject well was constructed by Mr. Charles Hartley, Contractor's License No. 145, during the month of March 1967.

We are interested in obtaining additional information regarding the pump and power plant installed in this well. Specifically, we would like to obtain the following data:

Description of power plant: Make U.S.;
 Type R. 21-21.5. 1800 R.P.M.; Rated Horsepower 100;
Vertical hollow shaft motor
 Description of pump: Make Layne and Bowler;
 Type turbine; Size of Column 10" - 160 ft long
 inches; Number of Bowls 2; Diameter of Bowls 14 R.M.
 inches; Length of Suction Pipe 10 feet; Total Length of
 Column, Bowls, and Suction Pipe approx. 174 feet.

Proof of Appropriation of Water

WATER RESOURCES DEPT.
SALEM, OREGON

ERNEST D. FIRSICK

97639

of **P. O. Box 343, Sprague River**, State of **Oregon**,
has applied beneficially the waters of
a well

a tributary of **Sprague River** for the purpose of
irrigation of 191.7 acres

under Permit No. **G-3632** of the State Engineer, and that the use of said waters has been
completed under the terms of said permit; that the priority of the
right dates from **May 16, 1967**

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of
2.40 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the **NW¹ SW¹, Section 6, T. 36 S., R. 12 E., W. M.,**
400 feet South and 1020 feet East from W¹ Corner, Section 6.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to **one-eightieth** of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited to
a diversion of not to exceed 3 acre feet per acre for each acre irrigated during
the irrigation season of each year;

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

13.0 acres NE¹ SE¹
