Water Right Services Division

Application for Extension of Time

In the Matter of the Application for an Extension of Time)
for Permit G-15559, Water Right Application G-15911,) PROPOSED FINAL ORDER
in the name of Brad H. and Kris L. Vandehey)

Permit Information

Application:	G-15911
Permit:	G-15559
Basin:	15 – Rogue / Watermaster District 14
Date of Priority:	January 17, 2003
Source of Water:	Well 1, Well 2, Well 3, and Well 5 in Jumpoff Joe Creek Basin
Purpose of Use:	Irrigation use on 11.6 Acres
Maximum Rate:	0.037 cubic foot per second (cfs); being 0.011 cfs from Well #1, 0.009 cfs from Well #2, 0.013 cfs from Well #3 and 0.004 cfs from Well #5 for irrigation of 11.6 acres

Please read this Proposed Final Order in its entirety.

In Summary, the Department proposes to:

- Grant an extension of time to apply water to full beneficial use from October 1, 2008 to October 1, 2010¹.

This Extension of Time request is being processed in accordance with Oregon Revised Statute 537.630 and 539.010(5), and Oregon Administrative Rule Chapter 690, Division 315.

¹Pursuant to ORS 537.630(4), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

ACRONYM QUICK REFERENCE

Department – Oregon Department of Water Resources

PFO – Proposed Final Order

cfs – cubic feet per second

gpm – gallons per minute

AUTHORITY

Generally, see ORS 537.630 and OAR Chapter 690 Division 315.

ORS 537.630(1) provides in pertinent part that the Oregon Water Resources Department may, for good cause shown, order an extension of time within which: irrigation or other works shall be completed; the well or other means of developing and securing ground water shall be completed; or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5) and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

ORS 539.010(5) provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

OAR 690-315-0040 provides in pertinent part that the Water Resources Department shall make findings to determine if an extension of time may be approved to complete construction and/or apply water to full beneficial use.

FINDINGS OF FACT

Background

1. Permit G-15559 was issued by the Department on January 30, 2004. The permit authorizes the use of up to 0.037 cfs of water from Well 1, Well 2, Well 3, and Well 5 in Jumpoff Joe Creek Basin for irrigation use on 11.6 acres, being 0.011 cfs from Well #1, 0.009 cfs from Well #2, 0.013 cfs from Well #3 and 0.004 cfs from Well #5. The permit specified complete application of water was to be made on or before October 1, 2008.
2. On November 2, 2009, the Department received the Claim of Beneficial Use (COBU). The COBU described the installation of meters on the wells as being, October 3, 2009, after the complete application of water date, being October 1, 2008.

3. On August 25, 2015, the Department reviewed the COBU, and determined that due to non-compliance of a permit condition requiring meters to be installed prior to the complete application of water, the permit should be cancelled.
4. On September 14, 2015, the Department issued a Proposed Order of Certification to cancel the permit, for non-compliance of a permit condition to install a meter.
5. On October 5, 2015, the Department received a Request for Reconsideration to avoid cancelling the permit.
6. On October 16, 2015, the Department approved the Request for Reconsideration, and proposed to delay further action regarding the cancellation of the permit until December 31, 2015. This will allow the permit holder time to submit an Application for Extension of Time to cure the installation of the meters after the complete application of water date.
7. The permit holder, Brad H. and Kris L. Vandehey, submitted an "Application for Extension of Time" to the Department on November 2, 2015, requesting the time to apply water to full beneficial use under the terms and conditions of Permit G-15559 be extended from October 1, 2008 to October 1, 2010. This is the first permit extension requested for Permit G-15559.
8. Notification of the Application for Extension of Time for Permit G-15559 was published in the Department's Public Notice dated November 10, 2015. No public comments were received regarding the extension application.

Review Criteria [OAR 690-315-0040]

The time limits to complete construction and/or apply water to full beneficial use may be extended if the Department finds that the permit holder has met the requirements set forth under OAR 690-315-0040. This determination shall consider the applicable requirements of ORS 537.230², 537.248³, 537.630⁴ and/or 539.010(5)⁵.

Complete Extension of Time Application [OAR 690-315-0040(1)(a)]

9. On November 2, 2015, the Department received a completed Application for Extension of Time and the fee specified in ORS 536.050 from the permit holder.

Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]

10. Construction of the well began by the deadline as specified in the permit, being October 1, 2008. The permit holder states, construction of Well #1 began in 1985.

²ORS 537.230 applies to surface water permits only.

³ORS 537.248 applies to reservoir permits only.

⁴ORS 537.630 applies to ground water permits only.

⁵ORS 539.010(5) applies to surface water and ground water permits.

According to the well log received by the Department on October 24, 1985, Well #1 (JOSE 12081) began construction October 3, 1985. The Department has determined the permit holder has satisfied the condition requiring beginning construction of the well.

Duration of Extension [OAR 690-315-0040(1)(c)]

Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.

11. As of November 2, 2015, the permit holder states the remaining work to be accomplished consists of applying water to full beneficial use, as all work is completed.

Given the fact that development has been completed, the Department has determined that the permit holder's request to have until October 1, 2010, to accomplish the application of water to beneficial use under the terms and conditions of Permit G-15559 is both reasonable and necessary.

Good Cause [OAR 690-315-0040(1)(d)]

The Department's determination of good cause shall consider the requirements set forth under OAR 690-315-0040(2).

Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]

The Department's determination of reasonable diligence shall consider the requirements set forth under OAR 690-315-0040(3)(a-d). In accordance with OAR 690-315-0040(3), the Department shall consider, but is not limited to, the following factors when determining whether the applicant has demonstrated reasonable diligence in previous performance under the permit:

Amount of Construction [OAR 690-315-0040(3)(a)]

12. According to the permit holder, work was accomplished within the time allowed in the permit or previous extension as follows:
 - a. Construction of the well was completed prior to October 1, 2008. Well #1 (JOSE 12081) began October 3, 1985 and completed October 4, 1985. Well #2 (JOSE 12080) began October 4, 1985 and completed October 4, 1985. Well #3 (JOSE 12078) began October 5, 1985 and completed October 5, 1985. Well #5 (JOSE 13306) began June 26, 1988 and completed June 26, 1988. A 5 HP irrigation system pressure pump was installed in 1991. Well #1 (JOSE 12081) was deepened August 3, 2002, and was renamed Well #1 (JOSE 54833). Here forward, Well #1 will be referred to as Well #1 (JOSE 54833).
 - b. Work was completed during the original development time frame under Permit G-15559. The permit holder installed a 10 HP irrigation system pressure pump,

underground PVC pipe, sprinklers, and an irrigation controller clock.

The Department has determined that work has been accomplished within the time allowed in the permit, providing evidence of good cause and reasonable diligence from the appropriator towards the complete application of water to a beneficial use.

Beneficial Use of Water [OAR 690-315-0040(3)(b)]

13. According to the permit holder a maximum rate of 0.03 cfs of water has been appropriated from the wells for irrigation of 6.0 acres, being 0.013 cfs from Well #1 (JOSE 54833), 0.007 cfs from Well #2 (JOSE 12080), 0.004 cfs from Well #3 (JOSE 12078), and 0.006 cfs from Well #5 (JOSE 13306).
14. Beneficial use of water has not yet been demonstrated under this permit because not all permit conditions were satisfied by October 1, 2008.

The Department received the Claim of Beneficial Use (COBU) November 2, 2009. Upon review of the COBU August 25, 2015, the Department determined the permit holder did not comply with conditions of the permit, by not installing meters on the wells, as required by Permit G-15559.

Compliance with Conditions [OAR 690-315-0040(3)(c)]

15. The Department has considered the permit holder's compliance with conditions, and did not identify any concerns.
16. After the completion date as specified in the permit, being October 1, 2008, the permit holder installed a water meter, required under Permit G-15559.

The Department has determined that this extension will allow the water meter installed after October 1, 2008, to satisfy compliance of the condition of installation of a water meter in an effort to make proof of beneficial use of the water as required by Permit G-15559.

Financial Investments to Appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b),(3)(d),(4)(d)]

17. As of November 2, 2015, the permit holder states they have invested approximately \$30,000, which is the total projected cost for complete development of this project.

Good Faith of the Appropriator [OAR 690-315-0040(2)(c)]

18. The Department has found good faith of the appropriator under Permit G-15559.

The Market and Present Demands for Water [OAR 690-315-0040(2)(d-e)]

The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:

19. The amount of water available to satisfy other affected water rights and scenic waterway flows; special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d); or the habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife [OAR 690-315-0040(4)(a-c)].

The amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit G-15559; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined when an application for a new water right is submitted. The points of appropriation for Permit G-15559, located within the Jumpoff Joe Creek Basin, are not located within a limited or critical ground water area. Jumpoff Joe Creek is above the Rogue Scenic Waterway, and, it is located within an area ranked "high" for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife. The points of appropriation are not in an area listed by the Department of Environmental Quality as a water quality limited stream.

Other economic interests dependent on completion of the project [OAR 690-315-0040(4)(e)].

20. None have been identified.

Other factors relevant to the determination of the market and present demand for water and power [OAR 690-315-0040(4)(f)].

21. None have been identified.

Fair Return Upon Investment [OAR 690-315-0040(2)(f)]

22. Use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

Other Governmental Requirements [OAR 690-315-0040(2)(g)]

23. Delay in the development of this project was not caused by any other governmental requirements.

Unforeseen Events [OAR 690-315-0040(2)(h)]

24. According to the permit holder, unforeseen events extended the length of time needed to fully develop and perfect Permit G-15559, in that it was an oversight to install the meters late by the permit holders, which restricted their ability to complete development of the project in a timely manner.

CONCLUSIONS OF LAW

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.630(1).
2. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
3. The applicant complied with begin actual construction timeline requirements pursuant to ORS 537.630 as required by OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).
4. Full application of water to beneficial use can be accomplished by October 1, 2010, as required by OAR 690-315-0040(1)(c).
5. The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).

Continued on the following page

PROPOSED ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time to apply water to beneficial use under Permit G-15559 from October 1, 2008 to October 1, 2010.

DATED: December 15, 2015

Dwight W. French, Administrator,
Water Right Services Division

Proposed Final Order Hearing Rights

1. Under the provisions of OAR 690-315-0100(1) and 690-315-0060, the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. The written protest must be received by the Water Resources Department no later than **January 29, 2016**, being 45 days from the date of publication of the proposed final order in the Department's weekly notice.
2. A written protest shall include:
 - a. The name, address and telephone number of the petitioner;
 - b. A description of the petitioner's interest in the proposed final order and if the protestant claims to represent the public interest, a precise statement of the public interest represented;
 - c. A detailed description of how the action proposed in the proposed final order would adversely affect or aggrieve the petitioner's interest;
 - d. A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;
 - e. Any citation of legal authority supporting the petitioner, if known;
 - f. Proof of service of the protest upon the water right permit holder, if petitioner is other than the water right permit holder; and
 - g. The applicant or non-applicant protest fee required under ORS 536.050.

3. Within 60 days after the close of the period for requesting a contested case hearing, the Director shall:
 - a. Issue a final order on the extension request; or
 - b. Schedule a contested case hearing if a protest has been submitted, and:
 - 1) Upon review of the issues, the Director finds there are significant disputes related to the proposed agency action; or
 - 2) The applicant submits a written request for a contested case hearing within 30 days after the close of the period for submitting protests.

- If you have questions about statements contained in this document, please contact Corey A Courchane at (503)986-0825.
 - If you have questions about how to file a protest or if you have previously filed a protest and you want to know the status, please contact Patricia McCarty at 503-986-0820.
 - If you have any questions about the Department or any of its programs, please contact our Water Resources Customer Service Group at 503-986-0900.
