Water-Use Permit Application Processing

DEC 21 2015

1. Completeness Determination

SALEM, OR

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed, the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department issues a Final Order consistent with the PFO. If the application is approved, a permit is issued that specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
 - Evaluation of this application will be based on information provided in the application.
 - I cannot use water legally until the Water Resources Department issues a permit.
 - Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
 - If I get a permit, I must not waste water.
 - If development of the water use is not according to the terms of the permit, the permit can be cancelled.
 - The water use must be compatible with local comprehensive land-use plans.
 - Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.
- OCT 30 2015
- SALEM, OR

I (we) affirm that the information contained in this application is true and accurate.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

☒ Yes

☒ There are no encumbrances.

☐ This land is encumbered by easements, rights of way, roads or other encumbrances.

☐ No

☐ I have a recorded easement or written authorization permitting access.

☐ I do not currently have written authorization or easement permitting access.

☐ Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).

☐ Water is to be diverted, conveyed, and/or used only on federal lands.

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: WELL DEVELOPMENT

WELL NO.	NAME OF NEAREST SURFACE WATER	IF LESS THAN 1 MILE:	
		DISTANCE TO NEAREST SURFACE WATER	ELEVATION CHANGE BETWEEN NEAREST SURFACE WATER AND WELL HEAD
POA #1	Crane Creek	½ mile	+20'
POA #2	Crane Creek	¼ mile	+10'
POA #3	Crane Creek	¼ mile	+10'

Please provide any information for your existing or proposed well(s) that you believe may be helpful in evaluating your application. For existing wells, describe any previous alteration(s) or repair(s) not documented in the attached well log or other materials (*attach additional sheets if necessary*).

Proposed wells will be fully cased & sealed as required to avoid comingling with the alluvial layer.

SECTION 3: WELL DEVELOPMENT, CONTINUED

6-18177

Total maximum rate requested: 1.62 cfs (each well will be evaluated at the maximum rate unless you indicate well-specific rates and annual volumes in the table below).

The table below must be completed for each source to be evaluated or the application will be returned. If this is an existing well, the information may be found on the applicable well log. *(If a well log is available, please submit it in addition to completing the table.)* If this is a proposed well, or well-modification, consider consulting with a licensed well driller, geologist, or certified water right examiner to obtain the necessary information.

* Licensed drillers are required to attach a Department-supplied Well Tag, with a unique Well ID or Well Tag Number to all new or newly altered wells. Landowners can request a Well ID for existing wells that do not have one. The Well ID is intended to serve as a unique identification number for each well.

** A well log ID (e.g. MARI 1234) is assigned by the Department to each log in the agency's well log database. A separate well log is required for each subsequent alteration of the well.

*** Source aquifer examples: Troutdale Formation, gravel and sand, alluvium, basalt, bedrock, etc.

Note: If the dam height is greater than or equal to 10.0' above land surface AND the reservoir will store 9.2 acre feet or more, engineered plans and specifications must be approved prior to storage of water.

SECTION 7: USE OF STORED GROUND WATER FROM THE RESERVOIR

If you would like to use stored ground water from the reservoir, complete this section (*if more than one reservoir, reproduce this section for each reservoir*).

Annual volume (acre-feet): 291

USE OF STORED GROUND WATER	PERIOD OF USE
Supplemental irrigation	Mar 1 to Oct 31

SECTION 8: PROJECT SCHEDULE

Date construction will begin: 2015

Date construction will be completed: 2020

Date beneficial water use will begin: 2020

SECTION 9: WITHIN A DISTRICT

☐ Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

SECTION 10: REMARKS

Use this space to clarify any information you have provided in the application (*attach additional sheets if necessary*).

Water will only be pumped from the wells to the reservoir in drought or low water conditions. Otherwise, water will be pumped directly to the center pivot.

SECTION 4: WATER USE

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
IS	1 Mar – 31 Oct	291

Exempt Uses: Please note that 15,000 gallons per day for single or group **domestic** purposes and 5,000 gallons per day for a single **industrial or commercial** purpose are exempt from permitting requirements.

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated (*must match map*).

Primary: _____ Acres Supplemental: 97 Acres

List the Permit or Certificate number of the underlying primary water right(s): 86590, 86591, 86593, 87036

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 291

- If the use is **municipal or quasi-municipal**, attach **Form M**

SECTION 5: WATER MANAGEMENT

SALEM, OR

A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

RECEIVED BY OWRD

☒ Pump (give horsepower and type): 3 – 50h, electric turbine pump/motor

OCT 30 2015

☐ Other means (describe): _____

SALEM, OR

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water. Water is proposed to be pumped from all wells into a buried closed conduit irrigation network.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

Low pressure center pivot sprinkler & flooded corners.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters.

Low pressure sprinkler heads won't scour the ground, or runoff as concentrated flow, but rather lightly sheeting over the POU. An existing flood irrigation system is already in place and in graded and dyked to prevent flow from escaping the PUOU.

SECTION 6: STORAGE OF GROUND WATER IN A RESERVOIR

If you would like to store ground water in a reservoir, complete this section (*if more than one reservoir, reproduce this section for each reservoir*).

Reservoir name: Deadman Creek Acreage inundated by reservoir: 288 AF + 90.6 = 378.6 AF

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): HCW 3.012, AF20-1
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

Jeffrey,
I've attached a revised map showing the reservoir and diversion point relative to the proposed POU and POAs.
Thanks,
Scott

Scott,
My apologies, I've been in and out of the office a bit this month dealing with some family issues.
The miller application was missing two pieces of information, one was the location of the reservoir on the map. Since storage is a portion of the application we will need to see it represented on the map. Additionally, the Deadman Creek Reservoir having a damn height of greater than 10 feet and storing more than 9.2 AF, preliminary plans need to be submitted with the application. I understand that the reservoir is existing, but each application has to stand alone, so there will need to be something submitted on the dam.

Good Morning Jeffrey,
I tried to leave a message for you a week or two ago, but I believe the mail box might have been for Carrie Cope.
I was notified by Jerry Miller that you needed more mapping information for their application. Please let me know what they need so I can help them provide the information. I should be listed as agent on their application. But, if not we'll provide the authorization necessary from the Millers.
Thanks,

Dear Jerry and Linda:

The Water Resources Department has received your application to use or store water. At this time however, we are unable to accept your application, because the minimum filing requirements are not met according to the Oregon Administrative Rules (OAR 690-310-0040 and 0050).

We are hereby returning the incomplete application and the fees submitted. Please return the application, the required information, and this checklist, so the Department may begin processing your application in a timely manner.

This review is based only on the completeness of your application. Any determination of water availability, compliance with basin plan rules, or any other water related issues has not been made.

Should you have any questions, please do not hesitate to contact Customer Service at the address above or by telephone at 503-986-0801.

Sincerely,

Jeffrey D. Pierceall
