Mr. Amos D. Gaines
590 West C Street
Burns, Oregon 97720

Dear Mr. Gaines:

The application you submitted for approval of a change in point of diversion describes the original source as being the Silvies River, and the application indicates an intent to divert water from Foley Slough. It is possible to request a change in point of diversion from the same stream as described in the right, but not possible to change the diversion to another source. There are rights of record from both the River and other rights from Foley Slough, and there cannot be a change in diversion from one to the other so I am returning your application with our check No. 5622 refunding the fee of \$25.00 you submitted.

Very truly yours,

Trevor Jones
Assistant
